RE: RESPONSE TO COMMENTS
CLASS 3 MODIFICATION REQUEST
HAZARDOUS WASTE FACILITY PERMIT
LOS ALAMOS NATIONAL LABORATORY
EPA ID#NM0890010515

Dear Commenter:

On December 23, 2013, the New Mexico Environment Department (NMED) took final administrative action on a Class 3 permit modification request (PMR) to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit). U.S. Department of Energy National Nuclear Security Administration and the Los Alamos National Security LLC, collectively the "Permittees," submitted this PMR to the Hazardous Waste Bureau on August 18, 2011, seeking to add the Transuranic Waste Facility (TWF) hazardous waste management unit at Technical Area (TA) 63 to the Permit.

The Permittees initially submitted this as a Class 2 PMR. On October 24, 2011, NMED determined that it would be processed as a Class 3 PMR. NMED issued a draft Permit for public comment on January 14, 2013. You are receiving this mailing because you provided public comment on the draft Permit.

The final permit, the comments received and NMED's response to those comments may be found on the NMED LANL Permit Page at http://www.nmenv.state.nm.us/hwb/lanlperm.html.

Thank you for your participation by submitting comments on these permit modification requests.

Sincerely,

Dave Cobrain
Manager
Permits Management Program
