Dear Mr. Blaine

Attached please find the Resource Conservation and Recovery Act (RCRA) Facility Investigation (RFI) Reports for both Groundwater and Vadose Zones at sites ST-106 and SS-111. The primary purpose of these reports is to determine the nature and extent of contaminants of concern (COCs) that may be present at sites ST-106 and SS-111, and provide the necessary site characterization to evaluate and select the corrective measures, which will be performed under the Corrective Measures Evaluation (CME) phase to follow.

Please contact Mr. L. Wayne Bitner at 505.853.3484 or ludie.bitner@us.af.mil, or Ms. Victoria R. Branson at 505.846.6362 or victoria.branson@us.af.mil if you have any questions.

Sincerely

Tom D. Miller
