New Mexico Smoke Management Program
Burn Project Ventilation Category Chart

Burn Name: _____ Burn ID #: _____

Does this burn have a waiver for ventilation category? ☐ Yes ☐ No

Fire Weather Forecast Zone: _____

Use this form to document the ventilation category for the burn for all burn days. This form will be used for informational purposes to determine the number of times the ventilation was good or better and how often the waiver needed to be implemented. It will also meet your requirements for documenting ventilation on the day of the burn. Please submit a copy of this form to the Air Quality Bureau along with your tracking form once the project is completed.

Burn Date	Reference Elevation (ft)	Forecasted Mixing Height (ft)	Forecasted Transport Wind (knots)	Forecasted Adjective	Forecasted Value (knot-feet)
02/12/04	*7050*	*6500*	*15*	*Good*	*97,500*
