For Immediate Release

Animas Valley Water Company – Morningstar Weekly Progress Report

The following information is intended to keep customers updated on progress toward a direct connection to the City of Farmington's Drinking Water System.

1. ***Boil Water Advisory still in effect***

2. *Water Conservation Measures. Please conserve water over the weekend.*

We will begin flushing lines in Star Heights on Monday, August 1, 2016.
A separate media release is being made specifically related to flushing.

   a. *Please don't water lawns or fill pools*
   b. *never throw water down the drain if it can be used for a different purpose.*

3. *Farmington Interconnect. System is totally connected to Farmington since Friday July 22.*

4. *Pump Station. The permanent pump station is fully operational.*

5. *Flushing of lines will start Monday, August 1, 2016, beginning with the Star Heights area.*

6. *Deficiency Report was concluded July 1 and is being reviewed by Souder Miller Engineers. A comprehensive water distribution map is being prepared in conjunction with Souder Miller and previous work done by Molzen Corbin Engineers.*
