**RE: FINAL PERMIT DECISION: CLASS 3 PERMIT MODIFICATION FOR NO FURTHER ACTION STATUS FOR 28 SOLID WASTE MANAGEMENT UNITS
SANDIA NATIONAL LABORATORIES, EPA ID# NM5890110518**

Dear Concerned Citizen:

This letter notifies you of a final permit decision made by the New Mexico Environment Department (NMED) to modify Module IV of the Resource Conservation and Recovery Act Permit for the Sandia National Laboratories (SNL) facility. The U. S. Department of Energy, on behalf of SNL, requested this modification on August 30, 2005. The modification was approved by the NMED and grants No Further Action (Corrective Action Complete) status for 28 Solid Waste Management Units / Areas of Concern located at SNL in Albuquerque, New Mexico.

In accordance with 20.4.1.901 NMAC, NMED provided public notice and conducted a 60-day public comment period from September 20, 2007 to November 19, 2007, regarding this modification request. Comments were received only from SNL during the public comment period.

The permit modification documents including the response to comments can be found on the NMED website at www.state.nm.us/HWB/snlperm/html under No Further Actions.

Sincerely,

John E. Kieling
