Dear Interested Person:

On June 27, 2011, New Mexico Environment Department (Department) Secretary Dave Martin signed a Final Order that issues a final Hazardous Waste Facility Permit (Permit) to Fort Wingate Depot Activity (the Permittee) regarding a permit modification for the construction and operation of a Corrective Action Management Unit. The Corrective Action Management Unit is located within the Fort Wingate Depot Activity in McKinley County, New Mexico.

A public comment period was held from March 10, 2011 to May 9, 2011 on the draft Permit. The draft Permit was revised by the Department in response to public comments received.

The Permit becomes effective thirty days after the date of the Secretary's Final Order and may be appealed under the provisions of 20.4.1.901(H) NMAC and § 74-4-14 of the Hazardous Waste Act.

The Final Order, Permit, and response to comments may be viewed on the Department's webpage at <http://www.nmenv.state.nm.us/hwb/fwdaperm.html> under Corrective Action Management Unit Permit Modification.
