Subject: STP Rev 18

John & Rebecca:

As per my phone conversation this PM with John K. I am requesting an extension of one week (till July 14) to incorporate the changes that LANL has submitted to NMED per their inquiries. We discussed that LANL had responded to all requests for additional information in a final submittal the last week in June. LANL would appreciate it if NMED could review those responses to ensure that LANL has captured the information requested by NMED. LANL will update Revision 18 of the STP to include the changes noted in our response. If NMED needs additional information beyond what has been submitted LANL would appreciate being notified so that it will only need to do one revision of the STP.

Thank you for your consideration on this issue. If you have any questions or wish to discuss this further please let me know.

Thanks,

Jack
