CERTIFIED MAIL – RETURN RECEIPT REQUESTED

James Berazi, Chief  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Bldg. 1  
Santa Fe, NM 87505

Subject: Extension Request for the Toluene Investigation Report Required for the Mixed Waste Landfill (MWL)

Dear Mr. Bearzi:

On behalf of the Department of Energy/National Nuclear Security Administration (DOE/NNSA) and Sandia Corporation (Sandia), DOE/NNSA is requesting a 30-day extension for the Toluene Investigation Report that is required for the MWL as specified in your letter dated April 30, 2010. The reason for the 30-day extension request is that additional time is necessary for DOE/NNSA and Sandia to receive, validate and evaluate the new analytical data associated with the MWL purging study and the quarterly groundwater sampling conducted in late April 2010.

This investigation is a top priority for the Sandia Environmental Restoration Project and significant progress has already been accomplished. A 30-day extension will allow for all of the recently completed groundwater sampling results to be included, which are an important component of the overall investigation.

Should you have any question regarding this correspondence, please feel free to contact me at (505) 845-6036 or John Gould of my staff at (505) 845-6089.

Sincerely,

Patty Wagner  
Manager
