I. INTRODUCTION

A. *PURPOSE OF THIS REQUEST FOR PROPOSALS*

The State of New Mexico's Environment Department (NMED) Petroleum Storage Tank Bureau (PSTB) requests proposals from qualified firms to provide professional services required to conduct remediation activities and related corrective action at the Cibola Chevron facility (RID#: 341) at 1201 West Santa Fe Avenue located in Grants, New Mexico, a leaking petroleum storage tank site where threats to public health and the environment exist and where public and private water supplies are threatened by petroleum hydrocarbon contamination.

The purpose of this Request for Proposals is to select contractors who can complete the above described work. Work will be performed at the direction of the Petroleum Storage Tank Bureau, New Mexico Environment Department. The Contractors will be compensated for services provided under the approved scope of work for the site. The award will be a four (4) year contract with the terms and conditions outlined on the sample contract.

Work shall be performed at the direction of the NMED Petroleum Storage Tank Bureau. NMED reserves the right to cancel the procurement and award no contracts if it is deemed in the best interests of the State.

All work must be performed in accordance with the requirements of the New Mexico Petroleum Storage Tank Regulations, 20.5 NMAC. A proposal will be deemed non-responsive and will be dropped from further evaluation if it does not include a copy of the bidding firm's appropriate New Mexico Construction Industries Division license, documentation that the bidding firm is in compliance with regulations governing professional engineering practice in New Mexico (Part 8 of 16.39 NMAC), a Statement of Qualifications for your firm's authorized representative and engineer, and the notarized anti-collusion affidavit (IV.B.4, Appendix 1). Please see Sections IV.3 of this RFP for additional information.

If the involvement of a professional engineer is required for the corrective action being conducted, the firm's qualification requirements shall include proof of licensure by the New Mexico State Board of Licensure for Professional Engineers and Surveyors in the discipline of engineering appropriate to the corrective action. This requirement may be met by demonstrating that the firm has on staff, or available by contract, a professional engineer licensed in the appropriate discipline.

The proposal must also include a Statement that the Professional Engineer (PE) can contractually bind the firm. If a professional engineer is required, lack of inclusion of licensure within the State of New Mexico at the date and time specified for responses to the RFP and a statement stating the PE can legally bind the firm will deem the proposal non-responsive and it will not be reviewed further.

Approval of additional scopes of work shall be contingent upon the recommended work being reasonable, necessary, and the costs being reasonable and customary.

NMED will not accept proposals from a contractor team or partnership.

The checklist of mandatory items (APPENDIX J) is provided as a guide for bidding firms to follow when preparing their proposal to this RFP. Appendix J includes a list of all mandatory information and documentation required for a submittal to be considered responsive. Failure to provide the required information contained within the mandatory checklist will deem a submittal non-responsive and it will not be reviewed further.

B. SUMMARY SCOPE OF WORK

The Contractor, a qualified firm, shall provide professional services required to conduct remedial activities and related corrective action at the Cibola Chevron facility (RID#: 341), 1201 West Santa Fe Avenue, Grants, New Mexico, a leaking petroleum storage tank site where threats to public health and the environment exist and where public and private water supplies are threatened by petroleum hydrocarbon contamination. The existing subsurface contamination was a result of multiple overfills/spills, and/or piping leaks and/or dispenser leaks throughout the history of the Cibola Chevron Facility, which resulted in an extensive petroleum hydrocarbon contaminated groundwater plume. Specifically, the contractor will be required restart and perform continued operations, optimization and maintenance for two existing engineered remediation systems. The remediation operation and maintenance strategy should prevent further migration of groundwater contamination in addition to remediating the existing groundwater contamination in the underlying aquifer. Additional activities include but are not limited to additional investigation or other activities that may be required to achieve remedial goals, perform related air and groundwater monitoring to evaluate the progress of the remedial system and preparation and submittal of all related reports. All activities must be performed in accordance with the requirements of the New Mexico Petroleum Storage Tank Regulations, 20.5 NMAC.

1. Acceptance of Conditions Governing the Procurement

Potential Offerors must indicate their acceptance of the Conditions Governing the Procurement section in the letter of transmittal. Submission of a proposal constitutes acceptance of the Evaluation Factors contained in Section V of this RFP.

2. Incurring Cost

Any cost incurred by the potential Offeror in preparation, transmittal, and/or presentation of any proposal or material submitted in response to this RFP shall be borne solely by the Offeror. Any cost incurred by the Offeror for set up and demonstration of the proposed equipment and/or system shall be borne solely by the Offeror.

3. Prime Contractor Responsibility

Any State Purchase Agreement or contractual agreement that may result from this RFP shall specify that the prime contractor is solely responsible for fulfillment of all requirements of the SPA or contractual agreement with a state agency which may derive from this RFP. The state agency hiring a vendor from the SPA or entering into a contractual agreement with a vendor will make payments to only the prime contractor.

4. Subcontractors/Consent

The use of subcontractors is allowed. The prime contractor shall be wholly responsible for the entire performance of the contractual agreement whether or not subcontractors are used. Additionally, the prime contractor must receive approval, in writing, from the agency awarding any resultant contract, before any subcontractor is used during the term of this agreement.

5. Amended Proposals

An Offeror may submit an amended proposal before the deadline for receipt of proposals. Such amended proposals must be complete replacements for a previously submitted proposal and must be clearly identified as such in the transmittal letter. The Agency personnel will not merge, collate, or assemble proposal materials.

6. Offeror's Rights to Withdraw Proposal

Offerors will be allowed to withdraw their proposals at any time prior to the deadline for receipt of proposals. The Offeror must submit a written withdrawal request addressed to the Procurement Manager and signed by the Offeror's duly authorized representative. The

approval or denial of withdrawal requests received after the deadline for receipt of the proposals is governed by the applicable procurement regulations.

7. Proposal Offer Firm

Responses to this RFP, including proposal prices for services, will be considered firm for one hundred twenty (120) days after the due date for receipt of proposals or ninety (90) days after the due date for the receipt of a best and final offer, if the Offeror is invited or required to submit one.

8. Disclosure of Proposal Contents

- A. Proposals will be kept confidential until negotiations and awards are completed by the Department. At that time, all proposals and documents pertaining to the proposals will be open to the public, except for material that is clearly marked proprietary or confidential. The Procurement Manager will not disclose or make public any pages of a proposal on which the potential Offeror has stamped or imprinted "proprietary" or "confidential" subject to the following requirements.
- B. Proprietary or confidential data shall be readily separable from the proposal in order to facilitate eventual public inspection of the non-confidential portion of the proposal.
- C. Confidential data is restricted to:
 - 1. A confidential financial information concerning the Offeror's organization;
 - 2. Data that qualifies as a trade secret in accordance with the Uniform Trade Secrets Act, Sections 57-3A-1 to 57-3A-7 NMSA 1978.

PLEASE NOTE: The price of products offered or the cost of services proposed **shall not be designated** as proprietary or confidential information.

If a request is received for disclosure of data for which an Offeror has made a written request for confidentiality, the Agency shall examine the Offeror's request and make a written determination that specifies which portions of the proposal should be disclosed. Unless the Offeror takes legal action to prevent the disclosure, the proposal will be so disclosed. The proposal shall be open to public inspection subject to any continuing prohibition on the disclosure of confidential data.

9. No Obligation

This RFP in no manner obligates the State of New Mexico or any of its Agencies to the use of any Offeror's services until a valid written contract is awarded and approved by appropriate authorities.

10. Termination

This RFP may be canceled at any time and any and all proposals may be rejected in whole or in part when the agency determines such action to be in the best interest of the State of New Mexico.

11. Sufficient Appropriation

Any contract awarded as a result of this RFP process may be terminated if sufficient appropriations or authorizations do not exist. Such terminations will be effected by sending written notice to the contractor. The Agency's decision as to whether sufficient appropriations and authorizations are available will be accepted by the contractor as final.

12. Legal Review

The Agency requires that all Offerors agree to be bound by the General Requirements contained in this RFP. Any Offeror concerns must be promptly submitted in writing to the attention of the Project Manager.

13. Governing Law

This RFP and any agreement with an Offeror which may result from this procurement shall be governed by the laws of the State of New Mexico.

14. Basis for Proposal

Only information supplied, in writing, by the Agency through the Procurement Manager or in this RFP should be used as the basis for the preparation of Offeror proposals.

15. Contract Terms and Conditions

The contract between an agency and a contractor will follow the format specified by the Agency and contain the terms and conditions set forth in Sample Contract Appendix C. However, the contracting agency reserves the right to negotiate with any Offeror provisions in addition to those contained in this RFP (Sample Contract). The contents of this RFP, as revised and/or supplemented, and the successful Offeror's proposal will be incorporated into and become part of any resultant contract.

The Agency discourages exceptions to contract terms and conditions in the RFP (Sample Contract). Exceptions may cause a proposal to be rejected as nonresponsive when, in the sole judgment of the Agency (and its evaluation team), the proposal appears to be conditioned on the exception, or correction of what is deemed to be a deficiency, or an unacceptable exception is proposed which would require a substantial proposal rewrite to correct.

Should an Offeror object to any of the terms and conditions in RFP (Sample Contract) APPENDIX C, strongly enough to propose alternate terms and conditions in spite of the above, the Offeror must propose specific alternative language. The Agency may or may not accept the alternative language. General references to the Offeror's terms and conditions or attempts at complete substitutions are not acceptable to the Agency and will result in disqualification of the Bidding Firm's proposal.

Offerors must provide a brief discussion of the purpose and impact, if any, of each proposed change followed by the specific proposed alternate wording.

16. Offeror's Terms and Conditions

Offerors must submit with the proposal a complete set of any additional terms and conditions they expect to have included in a contract negotiated with the Agency.

17. Contract Deviations

Any additional terms and conditions, which may be the subject of negotiation, will be discussed only between the Agency and the Offeror selected and shall not be deemed an opportunity to amend the Offeror's proposal.

18. Offeror Qualifications

The Evaluation Committee may make such investigations as necessary to determine the ability of the potential Offeror to adhere to the requirements specified within this RFP. The Evaluation Committee will reject the proposal of any potential Bidding Firm who is not a Responsible Offeror or fails to submit a responsive offer as defined in Sections 13-1-83 and 13-1-85 NMSA 1978.

19. Right to Waive Minor Irregularities

The Evaluation Committee reserves the right to waive minor irregularities. The Evaluation Committee also reserves the right to waive mandatory requirements provided that all of the otherwise responsive proposals failed to meet the same mandatory requirements and the failure to do so does not otherwise materially affect the procurement. This right is at the sole discretion of the Evaluation Committee.

20. Change in Contractor Representatives

The Agency reserves the right to require a change in contractor representative if the assigned representatives are not, in the opinion of the Agency, adequately meeting the needs of the Agency.

21. Notice of Penalties

The Procurement Code, Sections 13-1-28 through 13-1-199 NMSA 1978, imposes civil, misdemeanor, and felony criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

22. Agency Rights

The Agency, in agreement with the Evaluation Committee, reserves the right to accept all or a portion of a potential Offeror's proposal.

23. Right to Publish

Throughout the duration of this procurement process and contract term, Offerors and contractors must secure from the agency written approval prior to the release of any information that pertains to the potential work or activities covered by this procurement and/or agency contracts deriving from this procurement. Failure to adhere to this requirement may result in disqualification of the Offeror's proposal or removal from the contract.

24. Ownership of Proposals

All documents submitted in response to the RFP shall become property of the State of New Mexico.

25. Confidentiality

Any confidential information provided to, or developed by, the contractor in the performance of the contract resulting from this RFP shall be kept confidential and shall not be made available to any individual or organization by the contractor without the prior written approval of the Agency.

The Contractor agrees to protect the confidentiality of all information and not to publish or disclose such information to any third party without the procuring Agency's written permission.

26. Electronic mail address required

A large part of the communication regarding this procurement will be conducted by electronic mail (e-mail). Offeror must have a valid e-mail address to receive this correspondence. (See also Section II.B.5, Response to Written Questions).

27. Use of Electronic Versions of this RFP

This RFP is being made available by electronic means. In the event of conflict between a version of the RFP in the Offeror's possession and the version maintained by the agency, the Offeror acknowledges that the version maintained by the agency shall govern. Please refer to: <http://www.generalservices.state.nm.us/statepurchasing/>.

29. Campaign Contribution Disclosure Form

Offeror **must** complete, sign, and return the Campaign Contribution Disclosure Form, **APPENDIX B**, as a part of their proposal. This requirement applies regardless whether a covered contribution was made or not made for the positions of Governor and Lieutenant Governor or other identified official. Failure to complete and return the signed unaltered form will result in disqualification.

30. Pay Equity Reporting Requirements

Bidding Firms **must** include a statement within their proposal that they agree to be bound by the Pay Equity Reporting terms cited in section II.30.A-D of this proposal. The Pay Equity Reporting Requirements are as follows:

- A. If the Offeror has ten (10) or more employees OR eight (8) or more employees in the same job classification, Offeror must complete and submit the required reporting form (PE10-249) **if** they are awarded a contract.

31. Disclosure Regarding Responsibility

- A. Any prospective Bidder/Offeror (hereafter Offeror) and any of its Principals who seek to enter into a contract greater than twenty thousand dollars (\$20,000.00) with any state agency or local public body for professional services, tangible personal property, services or construction agree to disclose whether they, or any principal of their company:
 - 1. Are presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.
 - 2. Have within a three-year period preceding this offer, been convicted of or had civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) contract or subcontract; violation of Federal or state antitrust statutes related to the submission of offers; or commission in any federal or state jurisdiction of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violation of Federal criminal tax law, or receiving stolen property.

3. Are presently indicted for, or otherwise criminally or civilly charged by any (federal state or local) government entity with, commission of any of the offenses enumerated in paragraph B of this disclosure.
4. Have preceding this offer, been notified of any delinquent Federal or state taxes in an amount that exceeds \$3,000.00 of which the liability remains unsatisfied.

Taxes are considered delinquent if both of the following criteria apply:

- a. The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge of the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
- b. The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

- C. The Offeror shall provide immediate written notice to the Procurement Manager or Buyer if, at any time prior to contract award, the Offeror learns that its disclosure was erroneous when submitting or became erroneous by reason of changed circumstances.
- D. A disclosure that the items in this requirement exist will not necessarily result in withholding an award under this solicitation. However, the disclosure will be considered in the determination of the Offeror's responsibility. Failure of the Offeror to furnish a disclosure or provide additional information as requested will render the Offeror nonresponsive.
- E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of an Offeror is not required to exceed

that which is the normally possessed by a prudent person in the ordinary course of business dealings.

- F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts. If during the performance of the contract, the contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the contractor must provide immediate written notice to the Procurement Manager or Buyer. If it is later determined that the Offeror knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the State Purchasing Agent or Central Purchasing Officer may terminate the involved contract for cause. Still further the State Purchasing Agent or Central Purchasing Officer may suspend or debar the contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the State Purchasing Agent or Central Purchasing Officer.

32. Conflict of Interest; Governmental Conduct Act.

The Bidding Firm warrants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Agreement. The Offeror certifies requirements of the Governmental Conduct Act, Sections 10-16-1 through 10-16-18, NMSA 1978, regarding contracting with a public officer or state employee or former state employee have been followed.

PROFESSIONAL SERVICE CONTRACT

PROFESSIONAL SERVICE CONTRACT
STATE OF NEW MEXICO

New Mexico Environment Department

PROFESSIONAL SERVICES CONTRACT # _____

THIS AGREEMENT is made and entered into by and between the State of New Mexico, Environment Department, hereinafter referred to as the “Agency,” and **SELECTED CONTRACTOR**, hereinafter referred to as the “Contractor,” and is effective as of the date set forth below upon which it is executed by the Department of Finance and Administration (DFA).

IT IS AGREED BETWEEN THE PARTIES:

1. Scope of Work.

The Contractor shall perform the following work:

The Contractor shall provide professional services required to conduct remedial activities and related corrective action at the Cibola Chevron facility (RID#: 341), 1201 West Santa Fe Avenue, Grants, New Mexico, a leaking petroleum storage tank site where threats to public health and the environment exist and where public and private water supplies are threatened by petroleum hydrocarbon contamination. The existing subsurface contamination was a result of multiple overfills/spills, and/or piping leaks and/or dispenser leaks throughout the history of the Cibola Chevron Facility, which resulted in an extensive petroleum hydrocarbon contaminated groundwater plume. Specifically, the contractor will be required restart and perform continued operations, optimization and maintenance for two existing engineered remediation systems. The remediation operation and maintenance strategy should prevent further migration of groundwater contamination in addition to remediating the existing groundwater contamination in the underlying aquifer. Additional activities include but are not limited to additional investigation or other activities that may be required to achieve remedial goals, perform related air and groundwater monitoring to evaluate the progress of the remedial system and preparation and submittal of all related reports. All activities must be performed in accordance with the requirements of the New Mexico Petroleum Storage Tank Regulations, 20.5 NMAC.

The Contractor shall submit workplans for work under this Agreement at the request of the Agency, which must be approved in writing by the Agency representatives possessing Signatory Authority as designated by Department policy prior to the start date of the workplan. The workplan shall be prepared and approved, and the work completed, pursuant to the New Mexico Petroleum Storage Tank Regulations and Corrective Action

Fund Payment and Reimbursement Regulations. If there are any inconsistencies between a workplan and this Agreement, this Agreement shall govern.

Any workplan amendments must also be approved in writing by the Agency representatives possessing Signatory Authority as designated by the Agency policy in effect on the date of the amendment. No person other than the person possessing Signatory Authority has actual or apparent authority to amend, modify or change the workplan in any manner. Any written amendment to the workplan signed by a person not possessing Signatory Authority is void and unenforceable.

Contractor shall provide the following insurance information fully described in **Attachment A**.

2. Compensation.

- A. The Agency shall pay to the Contractor in full payment for services satisfactorily performed based on approved workplans in accordance with **NMAC 20.5.17.32 (Attachment B)** the total amount of _____ () including gross receipts tax. The New Mexico gross receipts tax levied on the amounts payable under this Agreement shall be paid by the Agency to the contractor. **The total amount payable to the Contractor under this Agreement, including gross receipt tax and expenses, shall not exceed Amount (). This amount is a maximum and not a guarantee that the work assigned to be performed by Contractor under this Agreement shall equal the amount stated herein. The parties do not intend for the Contractor to continue to provide services without compensation when the total compensation amount is reached. Contractor is responsible for notifying the Agency when the services provided under this Agreement reach the total compensation amount. In no event will the Contractor be paid for services provided in excess of the total compensation amount without this Agreement being amended in writing prior to those services in excess of the total compensation amount being provided.**

- B. The Contractor must submit a detailed report of deliverable(s) accomplished as set forth in the workplan approval letter(s). The Agency will assess the quality of the deliverable(s) and determine, at a minimum, that the deliverable(s) complies with the deliverable requirements as defined in the scope of work and the terms and conditions of the Agreement and meets the performance measures for the deliverable(s). If the Agency finds that the completed work is acceptable, it shall issue a written or electronic certification of acceptance of the work. If the Agency finds that the services are deficient or not acceptable, it shall within 30 days after the date of receipt of written notice from the Contractor that work has been completed, provide the Contractor a written or electronic notice of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to remedy the defect. Upon receipt of a claim and certification by the Agency that the work has been received and accepted,

payment shall be tendered to the Contractor within sixty days of receipt of claim submittal and in accordance with the Ground Water Protection Act (*NMSA 1978, §74-6B-13 (E)*) and the New Mexico Petroleum Storage Tank Regulations (*20.5 NMAC*). If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked.

3. Term.

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE DFA. This Agreement shall terminate four years from the date of approval by DFA unless terminated pursuant to paragraph 4 (Termination), or paragraph 5 (Appropriations). In accordance with NMSA 1978, § 13-1-150, no contract term for a professional services contract, including extensions and renewals, shall exceed four years, except as set forth in NMSA 1978, § 13-1-150.

4. Termination

A. Grounds.

The Agency may terminate this Agreement for convenience or cause. The Contractor may only terminate this Agreement based upon the Agency's uncured, material breach of this Agreement.

B. Notice; Agency Opportunity to Cure.

2. Contractor shall give Agency written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the Agency's material breaches of this Agreement upon which the termination is based and (ii) state what the Agency must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the Agency does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the Agency does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

(iii) the Agreement is terminated pursuant to Paragraph 5, “Appropriations”, of this Agreement.

C. Liability.

Except as otherwise expressly allowed or provided under this Agreement, the Agency’s sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor’s receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party’s liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE AGENCY’S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR’S DEFAULT/BREACH OF THIS AGREEMENT.*

D. Termination Management.

Immediately upon receipt by either the Agency or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the Agency; 2) comply with all directives issued by the Agency in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the Agency shall direct for the protection, preservation, retention or transfer of all property titled to the Agency and records generated under this Agreement. If sufficient appropriations and authorization are not made by the Legislature, this Agreement shall terminate immediately upon written notice being given by the Agency to the Contractor. The Agency's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the Agency proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

6. Status of Contractor.

The Contractor and its agents and employees are independent contractors performing professional services for the Agency and are not employees of the State of New Mexico. The Contractor and its agents and employees shall not accrue leave, retirement,

insurance, bonding, use of state vehicles, or any other benefits afforded to employees of the State of New Mexico as a result of this Agreement. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the State of New Mexico unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

7. Assignment.

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the Agency.

8. Subcontracting.

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval of the Agency. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the Procuring Agency.

9. Release.

Final payment of the amounts due under this Agreement shall operate as a release of the Agency, its officers and employees, and the State of New Mexico from all liabilities, claims and obligations whatsoever arising from or under this Agreement.

10. Confidentiality.

Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the Agency.

- 4) this Agreement complies with NMSA 1978, § 10-16-9(A) because (i) the Contractor is not a legislator; (ii) the Contractor is not a member of a legislator's family; (iii) the Contractor is not a business in which a legislator or a legislator's family has a substantial interest; or (iv) if the Contractor is a legislator, a member of a legislator's family, or a business in which a legislator or a legislator's family has a substantial interest, disclosure has been made as required by NMSA 1978, § 10-16-7(A), this Agreement is not a sole source or small purchase contract, and this Agreement was awarded in accordance with the provisions of the Procurement Code.

Contractor's representations and warranties in Paragraphs A and B of this Article 12 are material representations of fact upon which the Agency relied when this Agreement was entered into by the parties. Contractor shall provide immediate written notice to the Agency if, at any time during the term of this Agreement, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances. The Agency shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments

20. Indemnification.

The Contractor shall defend, indemnify and hold harmless the Agency and the State of New Mexico from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Agreement, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Agreement. In the event that any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Agreement is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the Agency and the Risk Management Division of the New Mexico General Services Department by certified mail.

21. New Mexico Employees Health Coverage.

If Contractor has, or grows to, six (6) or more employees who work, or who are expected to work, an average of at least 20 hours per week over a six (6) month period during the term of the contract, Contractor certifies, by signing this agreement, to have in place, and agree to maintain for the term of the contract, health insurance for those employees and offer that health insurance to those employees if the expected annual value in the aggregate of any and all contracts between Contractor and the State exceed \$250,000 dollars.
- B. Contractor agrees to maintain a record of the number of employees who have (a) accepted health insurance; (b) declined health insurance due to other health insurance coverage already in place; or (c) declined health insurance for other reasons. These records are subject to review and audit by a representative of the state.

<http://insurenemexico.state.nm.us/>.

22. Employee Pay Equity Reporting.

Contractor agrees if it has ten (10) or more New Mexico employees OR eight (8) or more employees in the same job classification, at any time during the term of this contract, to complete and submit the PE10-249 form on the annual anniversary of the initial report submittal for contracts up to one (1) year in duration. If contractor has (250) or more employees contractor must complete and submit the PE250 form on the annual anniversary of the initial report submittal for contracts up to one (1) year in duration. Should contractor not meet the size requirement for reporting at contract award but subsequently grows such that they meet or exceed the size requirement for reporting, contractor agrees to provide the required report within ninety (90) days of meeting or exceeding the size requirement. That submittal date shall serve as the basis for submittals required thereafter. Contractor also agrees to levy this requirement on any subcontractor(s) performing more than 10% of the dollar value of this contract if said subcontractor(s) meets, or grows to meet, the stated employee size thresholds during the term of the contract. Contractor further agrees that, should one or more subcontractor not meet the size requirement for reporting at contract award but subsequently grows such that they meet or exceed the size requirement for reporting, contractor will submit the required report, for each such subcontractor, within ninety (90) days of that subcontractor meeting or exceeding the size requirement. Subsequent report submittals, on behalf of each such subcontractor, shall be due on the annual anniversary of the initial report submittal. Contractor shall submit the required form(s) to the State Purchasing Division of the General Services Department, and other departments as may be determined, on behalf of the applicable subcontractor(s) in accordance with the schedule contained in this paragraph. Contractor acknowledges that this subcontractor requirement applies even though the contractor itself may not meet the size requirement for reporting and be required to report employee pay equity.

Notwithstanding the foregoing, if this Contract was procured pursuant to a solicitation, and if Contractor has already submitted the required report accompanying their response to such solicitation, the report does not need to be re-submitted with this Agreement.
