David's Mexican Food Downgraded for Food Safety Violations

(Las Cruces, NM) – David's Mexican Food, a mobile restaurant which usually operates at the corner of Solano and Amador in Las Cruces, was inspected and downgraded from an "Approved" status to "Unsatisfactory". The New Mexico Environment Department conducted the inspection on January 23, 2002 to determine compliance with the New Mexico Food Service and Food Processing Regulations. Due to violations found during the inspection, the food service establishment was downgraded. An emblem is posted at the customer side of the mobile restaurant indicating the status. The restaurant may remain open while corrective actions are being taken. When corrections have been made and a re-inspection finds the food service establishment operating in compliance with the regulations, the status will be upgraded to "Approved", and the appropriate emblem will be posted.
