

NOTICE

Public Service Company of New Mexico (PNM) announces its intent to apply to the New Mexico Environment Department for a modification to air quality construction Permit #0063-M12 for the installation of a new seven (7) unit simple-cycle combustion turbine facility to be identified as Pinon Energy Center (PEC). PNM submitted the permit application to the Air Quality Bureau on March 17, 2020. This is a revised notice which reflects the potential emission rates submitted in the permit modification application.

The exact location for PEC is latitude 36°, 48', 0.73" N and longitude 108°, 26', 33.48" W, NAD83. The approximate location of the PEC is three miles north-northeast of Waterflow, NM in San Juan County.

The proposed modification, under regulation 20.2.72.200.A.(2) NMAC, includes the installation of seven (7) 42.3 MW (net generation) GE LM6000 natural gas combustion turbines with associated support equipment, to be located southwest of the existing San Juan Generating Station (SJGS). Associated support equipment includes a 5 million Btu per hour natural gas-fired dew point heater, a diesel-fired 282-horsepower fire pump engine, and a diesel-fired 1.5-megawatt emergency generator. While the two facilities, PEC and SJGS, will be adjacent, they will operate independently.

The table below contains the estimated maximum quantities of regulated air contaminants for the new PEC emission sources in pound per hour (pph) and tons per year (tpy), the existing permit limits for SJGS emission sources in tpy, and the total requested permit (combined facility) emission rates in tpy. These emissions estimates and limits could change during the course of the Department's review:

Pollutant:	PEC Maximum	PEC Maximum	Existing SJGS Permit Limits	Combined Facility Proposed Limits
PM ₁₀ (Filterable and Condensable)	18.5 pph	79 tpy	1,496 tpy	1,575 tpy
PM _{2.5} (Filterable and Condensable)	18.5 pph	79 tpy	1,418 tpy	1,497 tpy
Sulfur Dioxide (SO ₂)	4.3 pph	19 tpy	4,098 tpy	4,117 tpy
Nitrogen Oxides (NO _x)	293 pph	1,190 tpy	9,429 tpy	10,619 tpy
Carbon Monoxide (CO)	43 pph	223 tpy	21,902 tpy	22,125 tpy
Volatile Organic Compounds (VOC)	8.1 pph	40 tpy	123 tpy	163 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	1.6 pph	6.4 tpy	35.9 tpy	42.3 tpy
Toxic Air Pollutant (TAP)	n/a	n/a	263 tpy	263 tpy
Green House Gas Emissions as Total CO _{2e}	n/a	1,455,287 tpy	9,168,738 tpy	10,624,025 tpy

The maximum and standard operating schedule of the plant is 24 hours per day, 7 days a week, and a maximum of 52 weeks per year for annual operating hours of 8760 hours per year.

The owner and operator of the Pinon Energy Center is:

Public Service Company of New Mexico (PNM)
2401 Aztec Road, NE
Albuquerque, New Mexico 87107

The owner and/or operator of the San Juan Generating Station are:

Public Service Company of New Mexico (PNM) (Partial Owner Units 1 and 4)
(Operator Units 1 and 4)
2401 Aztec Road, NE
Albuquerque, New Mexico 87107

Tucson Electric Power Company (Partial Owner – Unit 1)
P. O. Box 711 (ER101)
Tucson, AZ 85702

Utah Associated Municipal Power Systems (Partial Owner – Unit 4)
155 North 400 West – Suite 480
Salt Lake City, UT 84103

City of Farmington (Partial Owner – Unit 4)
501 McCormick School Road
Farmington, NM 87401

County of Los Alamos (Partial Owner – Unit 4)
1000 Central Ave #130
Los Alamos, NM 87544

If you have any comments about the construction or operation of this facility, and you want your comments to be made as part of the permit review process, you must submit your comments in writing to this address: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, Suite 1; Santa Fe, New Mexico; 87505-1816; (505) 476-4300; 1 800 224-7009; https://www.env.nm.gov/aqb/permit/aqb_draft_permits.html. Other comments and questions may be submitted verbally.

With your comments, please refer to the company name and facility name, or send a copy of this notice along with your comments. This information is necessary since the Department may have not yet received the permit application. Please include a legible return mailing address. Once the Department has completed its preliminary review of the application and its air quality impacts, the Department's notice will be published in the legal section of a newspaper circulated near the facility location.

Atención

Tanya Shelby
San Juan County Clerk
PO Box 550
Aztec, New Mexico 87410

Dear Ms. Shelby:

Public Service Company of New Mexico (PNM) announces its intent to apply to the New Mexico Environment Department for a modification to air quality construction Permit #0063-M12 for the installation of a new seven (7) unit simple-cycle combustion turbine facility to be identified as Pinon Energy Center (PEC). PNM submitted the permit application to the Air Quality Bureau on March 17, 2020. This is a revised notice which reflects the potential emission rates submitted in the permit modification application.

The exact location for PEC is latitude 36°, 48', 0.73" N and longitude 108°, 26', 33.48" W, NAD83. The approximate location of the PEC is three miles north-northeast of Waterflow, NM in San Juan County.

The proposed modification, under regulation 20.2.72.200.A.(2) NMAC, includes the installation of seven (7) 42.3 MW (net generation) GE LM6000 natural gas combustion turbines with associated support equipment, to be located southwest of the existing San Juan Generating Station (SJGS). Associated support equipment includes a 5 million Btu per hour natural gas-fired dew point heater, a diesel-fired 282-horsepower fire pump engine, and a diesel-fired 1.5-megawatt emergency generator. While the two facilities, PEC and SJGS, will be adjacent, they will operate independently.

The table below contains the estimated maximum quantities of regulated air contaminants for the new PEC emission sources in pound per hour (pph) and tons per year (tpy), the existing permit limits for SJGS emission sources in tpy, and the total requested permit (combined facility) emission rates in tpy. These emissions estimates and limits could change during the course of the Department's review:

Pollutant:	PEC Maximum	PEC Maximum	Existing SJGS Permit Limits	Combined Facility Proposed Limits
PM ₁₀ (Filterable and Condensable)	18.5 pph	79 tpy	1,496 tpy	1,575 tpy
PM _{2.5} (Filterable and Condensable)	18.5 pph	79 tpy	1,418 tpy	1,497 tpy
Sulfur Dioxide (SO ₂)	4.3 pph	19 tpy	4,098 tpy	4,117 tpy
Nitrogen Oxides (NO _x)	293 pph	1,190 tpy	9,429 tpy	10,619 tpy
Carbon Monoxide (CO)	43 pph	223 tpy	21,902 tpy	22,125 tpy
Volatile Organic Compounds (VOC)	8.1 pph	40 tpy	123 tpy	163 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	1.6 pph	6.4 tpy	35.9 tpy	42.3 tpy
Toxic Air Pollutant (TAP)	n/a	n/a	263 tpy	263 tpy
Green House Gas Emissions as Total CO _{2e}	n/a	1,455,287 tpy	9,168,738 tpy	10,624,025 tpy

The maximum and standard operating schedule of the plant is 24 hours per day, 7 days a week, and a maximum of 52 weeks per year for annual operating hours of 8760 hours per year.

The owner and operator of the Pinon Energy Center is:

Public Service Company of New Mexico (PNM)

NOTICE OF AIR QUALITY PERMIT APPLICATION

Public Service Company of New Mexico (PNM) announces its intent to apply to the New Mexico Environment Department for a modification to air quality construction Permit #0063-M12 for the installation of a new seven (7) unit simple-cycle combustion turbine facility to be identified as Pinon Energy Center (PEC). PNM submitted the permit application to the Air Quality Bureau on March 17, 2020. This is a revised notice which reflects the potential emission rates submitted in the permit modification application.

The exact location for PEC is latitude 36°, 48', 0.73" N and longitude 108°, 26', 33.48" W, NAD83. The approximate location of the PEC is three miles north-northeast of Waterflow, NM in San Juan County.

The proposed modification, under regulation 20.2.72.200.A.(2) NMAC, includes the installation of seven (7) 42.3 MW (net generation) GE LM6000 natural gas combustion turbines with associated support equipment, to be located southwest of the existing San Juan Generating Station (SJGS). Associated support equipment includes a 5 million Btu per hour natural gas-fired dew point heater, a diesel-fired 282-horsepower fire pump engine, and a diesel-fired 1.5-megawatt emergency generator. While the two facilities, PEC and SJGS, will be adjacent, they will operate independently.

The table below contains the estimated maximum quantities of regulated air contaminants for the new PEC emission sources in pound per hour (pph) and tons per year (tpy), the existing permit limits for SJGS emission sources in tpy, and the total requested permit (combined facility) emission rates in tpy. These emissions estimates and limits could change during the course of the Department's review:

Pollutant:	PEC Maximum	PEC Maximum	Existing SJGS Permit Limits	Combined Facility Proposed Limits
PM ₁₀ (Filterable and Condensable)	18.5 pph	79 tpy	1,496 tpy	1,575 tpy
PM _{2.5} (Filterable and Condensable)	18.5 pph	79 tpy	1,418 tpy	1,497 tpy
Sulfur Dioxide (SO ₂)	4.3 pph	19 tpy	4,098 tpy	4,117 tpy
Nitrogen Oxides (NO _x)	293 pph	1,190 tpy	9,429 tpy	10,619 tpy
Carbon Monoxide (CO)	43 pph	223 tpy	21,902 tpy	22,125 tpy
Volatile Organic Compounds (VOC)	8.1 pph	40 tpy	123 tpy	163 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	1.6 pph	6.4 tpy	35.9 tpy	42.3 tpy
Toxic Air Pollutant (TAP)	n/a	n/a	263 tpy	263 tpy
Green House Gas Emissions as Total CO _{2e}	n/a	1,455,287 tpy	9,168,738 tpy	10,624,025 tpy

The maximum and standard operating schedule of the plant is 24 hours per day, 7 days a week, and a maximum of 52 weeks per year for annual operating hours of 8760 hours per year.

The owner and operator of the Pinon Energy Center is:

Public Service Company of New Mexico (PNM)
2401 Aztec Road, NE
Albuquerque, New Mexico 87107

The owner and/or operator of the San Juan Generating Station are:

If you have any comments about the construction or operation of this facility, and you want your comments to be made as part of the permit review process, you must submit your comments in writing to this address: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, Suite 1; Santa Fe, New Mexico; 87505-1816; (505) 476-4300; 1 800 224-7009; https://www.env.nm.gov/aqb/permit/aqb_draft_permits.html. Other comments and questions may be submitted verbally.

With your comments, please refer to the company name and facility name, or send a copy of this notice along with your comments. This information is necessary since the Department may have not yet received the permit application. Please include a legible return mailing address. Once the Department has completed its preliminary review of the application and its air quality impacts, the Department's notice will be published in the legal section of a newspaper circulated near the facility location.

Atención

Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.

Notice of Non-Discrimination

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at <https://www.env.nm.gov/NMED/EJ/index.html> to learn how and where to file a complaint of discrimination.

NOTICE OF AIR QUALITY PERMIT APPLICATION

Public Service Company of New Mexico (PNM) announces its intent to apply to the New Mexico Environment Department for a modification to air quality construction Permit #0063-M12 for the installation of a new seven (7) unit simple-cycle combustion turbine facility to be identified as Pinon Energy Center (PEC). PNM submitted the permit application to the Air Quality Bureau on March 17, 2020. This is a revised notice which reflects the potential emission rates submitted in the permit modification application.

The exact location for PEC is latitude 36°, 48', 0.73" N and longitude 108°, 26', 33.48" W, NAD83. The approximate location of the PEC is three miles north-northeast of Waterflow, NM in San Juan County.

The proposed modification, under regulation 20.2.72.200.A.(2) NMAC, includes the installation of seven (7) 42.3 MW (net generation) GE LM6000 natural gas combustion turbines with associated support equipment, to be located southwest of the existing San Juan Generating Station (SJGS). NOTICE OF SALE

NOTICE IS HEREBY GIVEN
that on April 13, 2020 at
10:30 AM, the undersigned
Special Master will, at the
front entrance of the Eleventh
Judicial District Court-
house, 103 S. Oliver, Aztec,
NM 87410 sell all of the
rights, title, and interests of
the above-named Defend-
ants, in and to the herein-
after described real property
to the highest bidder for
cash. The property to be
sold is located at 614 E 39th
Place, Farmington, NM
87401, and is more particu-
larly described real estate
located in said County and
State:

**LOT 16, IN BLOCK 14, OF
THE NORTHRIDGE SUBDI-
VISION NUMBER TWO, IN THE
CITY OF FARMINGTON, SAN
JUAN COUNTY, NEW
MEXICO, AS SHOWN ON
THE PLAT OF SAID SUBDI-
VISION FILED FOR RECORD DE-
CEMBER 28, 1978**

including any improve-
ments, fixtures, and attach-
ments, such as, but not lim-
ited to, mobile homes (the
"Property"). If there is a
conflict between the legal
description and the street
address, the legal descrip-
tion shall control.

The foregoing sale will be
made to satisfy a foreclosure
judgment rendered by this
Court in the above-entitled
and numbered cause on
February 21, 2020, being an
action to foreclose a mort-
gage on the Property. Plain-
tiff's judgment is in the
amount of \$230,579.36 plus
interest from November 1,
2019, at the rate of 4.390%
per annum, until the date of
the Special Master's sale,
plus costs of sale. The Court
reserves entry of final judg-
ment against Defendants
for the amount due after
foreclosure sale. Plaintiff
has the right to bid at the
foregoing sale in an amount
equal to its judgment, and
to submit its bid either ver-
bally or in writing. Plaintiff
may apply all or any part of
its judgment to the pur-
chase price in lieu of cash.

In accordance with the
Court's decree, the proceeds
of sale are to be applied
first to the costs of sale,
including the Special Master's
fees, and then to satisfy the
above-described judgment
with any remaining balance
to be paid to unto the reg-
istry of the Court in order
to satisfy any future adjud-
ication of priority lienholders.
NOTICE IS FURTHER GIVEN

Legal Notices

that in the event that the
Property is not sooner re-
deemed, the undersigned
Special Master will, as set
forth above, offer for sale
and sell the Property to the
highest bidder for cash or
equivalent, for the purpose
of satisfying, in the
adjudged order of priorities,
the judgment and decree of
foreclosure described here-
in, including the costs of ad-
vertisement and publication
for the foregoing sale, and
reasonable receiver and Special
Master's fees in an amount
to be fixed by the Court.

The foregoing sale may be
postponed and rescheduled
at the discretion of the Special
Master, and is subject to
all taxes, utility liens and
other restrictions and easements
of record, and subject to
one (1) month right of redem-
ption held by the Defend-
ant upon entry of an order
confirming sale, and
subject to the entry of an
order of the Court approv-
ing the terms and conditions
of sale.
Witness my hand this Febru-
ary 25, 2020.

NOTICE OF AIR QUALITY PERMIT APPLICATION

Public Service Company of New Mexico (PNM) announces its intent to apply to the New Mexico Environment Department for a modification to air quality construction Permit #0063-M12 for the installation of a new seven (7) unit simple-cycle combustion turbine facility to be identified as Pinon Energy Center (PEC). PNM submitted the permit application to the Air Quality Bureau on March 17, 2020. This is a revised notice which reflects the potential emission rates submitted in the permit modification application. The exact location for PEC is latitude 36°, 48', 0.73" N and longitude 108°, 26', 33.48" W, NAD83. The approximate location of the PEC is three miles north-northeast of Waterflow, NM in San Juan County. The proposed modification, under regulation 20.2.72.200.A.(2) NMAC, includes the installation of seven (7) 42.3 MW (net generation) GE LM6000 natural gas combustion turbines with associated support equipment, to be located southwest of the existing San Juan Generating Station (SJGS). Associated support equipment includes a 5 million Btu per hour natural gas-fired dew point heater, a diesel-fired 282-horsepower fire pump engine, and a diesel-fired 1.5-megawatt emergency generator. While the two facilities, PEC and SJGS, will be adjacent, they will operate independently. The table below contains the estimated maximum quantities of regulated air contaminants for the new PEC emission sources in pound per hour (pph) and tons per year (tpy), the existing permit limits for SJGS emission sources in tpy, and the total requested permit (combined facility) emission rates in tpy. These emissions estimates and limits could change during the course of the Department's review:

Pollutant:	PEC Maximum	PEC Maximum	Existing SJGS Permit Limits	Combined Facility Proposed Limits
PM 10 (Filterable and Condensable)	18.5 pph	79 tpy	1,496 tpy	1,575 tpy
PM 2.5 (Filterable and Condensable)	18.5 pph	79 tpy	1,418 tpy	1,497 tpy
Sulfur Dioxide (SO2)	4.3 pph	19 tpy	4,098 tpy	4,117 tpy
Nitrogen Oxides (NOx)	293 pph	1,190 tpy	9,429 tpy	10,619 tpy
Carbon Monoxide (CO)	43 pph	223 tpy	21,902 tpy	22,125 tpy
Volatile Organic Compounds (VOC)	8.1 pph	40 tpy	123 tpy	163 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	1.6 pph	6.4 tpy	35.9 tpy	42.3 tpy
Toxic Air Pollutant (TAP)	n/a	n/a	263 tpy	263 tpy
Green House Gas Emissions as Total CO2e	n/a	1,455,287 tpy	9,168,738 tpy	10,624,025 tpy

The maximum and standard operating schedule of the plant is 24 hours per day, 7 days a week, and a maximum of 52 weeks per year for annual operating hours of 8760 hours per year.

The owner and operator of the Pinon Energy Center is:
Public Service Company of New Mexico (PNM)
2401 Aztec Road, NE
Albuquerque, New Mexico 87107

The owner and/or operator of the San Juan Generating Station are:
Public Service Company of New Mexico (PNM) (Partial Owner Units 1 and 4)
(Operator Units 1 and 4)

155 North 400 West – Suite 480
Salt Lake City, UT 84103

City of Farmington (Partial Owner – Unit 4)
501 McCormick School Road
Farmington, NM 87401

County of Los Alamos (Partial Owner – Unit 4)
1000 Central Ave #130
Los Alamos, NM 87544

If you have any comments about the construction or operation of this facility, and you want your comments to be made as part of the permit review process, you must submit your comments in writing to this address: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, Suite 1; Santa Fe, New Mexico; 87505-1816; (505) 476-4300; 1 800 224-7009; https://www.env.nm.gov/aqb/permit/aqb_draft_permits.html. Other comments and questions may be submitted verbally.

With your comments, please refer to the company name and facility name, or send a copy of this notice along with your comments. This information is necessary since the Department may have not yet received the permit application. Please include a legible return mailing address. Once the Department has completed its preliminary review of the application and its air quality impacts, the Department's notice will be published in the legal section of a newspaper circulated near the facility location.

Atención

Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.

Notice of Non-Discrimination

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at https://www.env.nm.gov/NMED/EJ/index.html to learn how and where to file a complaint of discrimination.

A man is seen through the Olympic rings in front of the New National Stadium in Tokyo on Tuesday. IOC President Thomas Bach has agreed “100%” to a proposal of postponing the Tokyo Olympics for about one year until 2021 because of the coronavirus outbreak, Japanese Prime Minister Shinzo Abe said Tuesday. JAE C. HONG/AP

Olympics

Continued from Page 1B

nents, shuttering entire cities and leaving thousands dead.

In the process, it has also wreaked havoc on the Olympic qualifying model, forcing several international sports federations and national Olympic committees to postpone or cancel key events. Some athletes and coaches were stranded in foreign countries due to travel restrictions. Training regimens were disrupted. The Greek leg of the Olympic torch relay was held without fans, then canceled.

Yet despite those disruptions, and the rapid spread of the coronavirus, IOC officials and representatives from the Tokyo 2020 organizing committee maintained for months that the Olympics would not be affected. Bach urged athletes to continue training as usual, even as questions about the Games continued to swirl.

That determined approach changed as the opening ceremony drew closer and global health concerns about holding the event lingered.

Athletes helped fuel the process by speaking out publicly, or pressuring their sport’s governing body or national Olympic committee to take a stand. In the United States, for example, leaders from swimming, track and field and gymnastics all urged the U.S. Olympic and Paralympic Committee to publicly call for postponement, which it later did.

“This summer was supposed to be a culmination of your hard work and life’s dream, but taking a step back from competition to care for our communities and each other is the right thing to do,” USOPC chief executive officer Sarah Hirshland wrote to athletes after Tuesday’s decision. “Your moment will wait until we can gather again safely.”

Retired Canadian hockey player Hay-

ley Wickenheiser, the first IOC member to publicly call for postponement, described the postponement on Twitter as a “best case scenario” and “the message athletes deserved to hear.”

The move to postpone the Games figures to have dramatic financial implications for several stakeholders, including the IOC – whose budget relies in large part on income from broadcast partners – and Japan, which has already spent more than \$28 billion to host these Games, according to the Associated Press.

One Japanese securities firm estimated earlier this month that a cancellation or postponement of the Olympics would reduce the country’s annual growth domestic product growth by 1.4% in 2020.

The IOC has paid insurance premiums north of \$12 million in both 2016 and 2018 to protect against the possible disruption of the Olympics, but Bach did not provide a figure for this year’s premium when asked by reporters earlier this month. The IOC had nearly \$2 billion in reserve as of its most recent annual report, which was released last summer.

Japanese citizens have embraced their role as hosts of the Games, buying up tickets as soon as they became available. Organizers expected to sell about 7.8 million tickets, with at least 70% of them going to Japanese residents.

Beyond finances, this decision will also cause substantial disruptions for athletes, many of whom have put off college or other opportunities to train full-time with the objective of peaking in July. Now, they will have to put their training on hold. Some might be forced to give them up altogether – their Olympic dreams dashed, a nightmare come true.

NOTICE OF AIR QUALITY PERMIT APPLICATION

Public Service Company of New Mexico (PNM) announces its intent to apply to the New Mexico Environment Department for a modification to air quality construction permit #0063-M12 for the installation of a new seven (7) unit simple-cycle combustion turbine facility to be identified as Pinon Energy Center (PEC). PNM submitted the permit application to the Air Quality Bureau on March 17, 2020. This is a revised notice which reflects the potential emission rates submitted in the permit modification application.

The exact location for PEC is latitude 36°, 48', 0.73" N and longitude 108°, 26', 33.48" W, NAD83. The approximate location of the PEC is three miles north-northeast of Waterflow, NM in San Juan County.

The proposed modification, under regulation 20.2.72.200.A.(2) NMAC, includes the installation of seven (7) 42.3 MW (net generation) GE LM6000 natural gas combustion turbines with associated support equipment, to be located southwest of the existing San Juan Generating Station (SJGS). Associated support equipment includes a 5 million Btu per hour natural gas-fired dew point heater, a diesel-fired 282-horsepower fire pump engine, and a diesel-fired 1.5-megawatt emergency generator. While the two facilities, PEC and SJGS, will be adjacent, they will operate independently.

The table below contains the estimated maximum quantities of regulated air contaminants for the new PEC emission sources in pound per hour (pph) and tons per year (tpy), the existing permit limits for SJGS emission sources in tpy, and the total requested permit (combined facility) emission rates in tpy. These emissions estimates and limits could change during the course of the Department’s review:

Pollutant:	PEC Maximum	PEC Maximum	Existing SJGS Permit Limits	Combined Facility Proposed Limits
PM ₁₀ (Filterable and Condensable)	18.5 pph	79 tpy	1,496 tpy	1,575 tpy
PM _{2.5} (Filterable and Condensable)	18.5 pph	79 tpy	1,418 tpy	1,497 tpy
Sulfur Dioxide (SO ₂)	4.3 pph	19 tpy	4,098 tpy	4,117 tpy
Nitrogen Oxides (NO _x)	293 pph	1,190 tpy	9,429 tpy	10,619 tpy
Carbon Monoxide (CO)	43 pph	223 tpy	21,902 tpy	22,125 tpy
Volatile Organic Compounds (VOC)	8.1 pph	40 tpy	123 tpy	163 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	1.6 pph	6.4 tpy	35.9 tpy	42.3 tpy
Toxic Air Pollutant (TAP)	n/a	n/a	263 tpy	263 tpy
Green House Gas Emissions as Total CO _{2e}	n/a	1,455,287 tpy	9,168,738 tpy	10,624,025 tpy

The maximum and standard operating schedule of the plant is 24 hours per day, 7 days a week, and a maximum of 52 weeks per year for annual operating hours of 8760 hours per year.

The owner and operator of the Pinon Energy Center is:

Public Service Company of New Mexico (PNM), 2401 Aztec Road, NE, Albuquerque, New Mexico 87107

CERTIFIED MAIL

Dear KENN Radio:

SUBJECT: PSA Request - Proposed Revision to the Air Quality Construction Permit #0063-M12 for installation of Pinon Energy Center

Attached is a revised copy of a public service announcement regarding a proposed modification to the air quality construction permit #0063-M12 for the Pinon Energy Center to be located adjacent to San Juan Generating Station. This announcement is being submitted by Montrose Air Quality Services, Albuquerque, NM on behalf of Public Service Company of New Mexico (PNM).

The announcement request is being made to fulfill the requirements of the New Mexico Environmental Department air quality permitting regulations. Please consider reading the attached announcement as a public service message.

If you have any questions or need additional information, please contact me at (505) 830-9680 ext 6 (voice), (505) 830-9678 (fax) or email at pwade@montrose-env.com. You may also contact Ms. Robin DeLapp, Public Service Company of New Mexico at (505) 241-2016. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Paul Wade".
