RE: XTO Energy Inc. – New Source Review (NSR) Application
Husky Gas Plant and Central Delivery Point – PSD-8245
Eddy County, NM

Dear Mr. Schooley:

XTO Energy Inc. (XTO) respectfully requests to withdraw the New Source Review (NSR) permit application for the Husky Gas Plant and Central Delivery Point and discontinue draft permit number PSD-8245, proposed for construction in Eddy County, New Mexico. XTO wishes to withdraw the permit application in response to future infrastructure development plans in Eddy County.

The Delaware Basin remains a key component of XTO's future growth and the current decision has no impact on the existing operations in New Mexico. XTO recently started up the Cowboy Central Delivery Point, and will leverage this facility and other infrastructure to continue to efficiently develop the Permian basin with a smaller physical and environmental footprint.

Should you have any questions, please feel free to contact me at 832-625-0106 or via e-mail at ethan_boor@xtoenergy.com.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Ethan Boor'.
