

Mr. James Nellessen, Ph.D. Major Source Permit Specialist New Mexico Environment Department Air Quality Bureau 525 Camino de los Marquez, Suite 1 Santa Fe, NM 87505

Re:

Sandoval County Landfill: New Source Review Permit #4111-M1

Technical Revision Submittal, Universal Application Sections 1, 2, 3, 7, 9, and 22

[01802320/0004]

Dear Mr. Nellessen:

On behalf of our client, Sandoval County Landfill (the Landfill), Parkhill (f.k.a. Gordon Environmental/PSC) is pleased to provide the New Mexico Environment Department (NMED) Air Quality Bureau (AQB) two copies of the applicable Universal Air Quality Permit Application (UA) sections necessary to perform a Technical Revision of the Landfill's existing New Source Review (NSR) Permit. Consistent with the requirements of 20.2.72.219.B NMAC, the Application is being submitted in response to the proposed technical revision of NSR Permit #4111-M1. The Landfill is proposing to rent a rock crusher for a period not to exceed 2 months for the purpose of processing waste concrete stockpiled on-site to be beneficially reused as road construction materials.

In the attached Replacement Universal Application sections and supplemental tables, the emissions estimates for NOx, SOx, CO, VOCs and particulate matter are less than the threshold limits required for technical revision, and demonstrate compliance with applicable regulations, specifically 40 CFR 50 (National Ambient Air Quality Standards); 40 CFR 52 (Prevention of Significant Deterioration); and 20.2.3 NMAC (New Mexico Ambient Air Quality Standards). The Application materials were prepared consistent with the most recent Universal Air Quality Permit Application format provided by AQB as of August 1, 2020. Consistent with the requirements of the most current Permit Application, two CDs with an electronic version of the Application are also provided.

We appreciate the Bureau's review of the enclosed information. The \$500 NSR filing fee is being submitted with this Application. Please contact us with your questions and comments.

Sincerely,

PARKHILL

Andy Yuhas

AIRS No.:

Universal Air Quality Permit Application

Use this application for NOI, NSR, or Title V sources.

Use this application for: the initial application, modifications, technical revisions, and renewals. For technical revisions, complete Sections, 1-A, 1-B, 2-E, 3, 9 and any other sections that are relevant to the requested action; coordination with the Air Quality Bureau permit staff prior to submittal is encouraged to clarify submittal requirements and to determine if more or less than these sections of the application are needed. Use this application for streamline permits as well. See Section 1-I for submittal instructions for other permits.

This application is submitted as (check all that apply): Request for a No Permit Required Determination (no fee)

Updating an application currently under NMED review. Include this page and all pages that are being updated (no fee required). Construction Status: Not Constructed ☑ Existing Permitted (or NOI) Facility Existing Non-permitted (or NOI) Facility

Minor Source: a NOI 20.2.73 NMAC

20.2.72 NMAC application or revision

Title V Source: Title V (new) Title V renewal TV minor mod. TV significant mod. TV Acid Rain: New Renewal

PSD Major Source: PSD major source (new) minor modification to a PSD source a PSD major modification

Acknowledgements:

- ☑ I acknowledge that a pre-application meeting is available to me upon request. Title V Operating, Title IV Acid Rain, and NPR applications have no fees.
- \$500 NSR application Filing Fee enclosed OR The full permit fee associated with 10 fee points (required w/ streamline applications).
- ☑ Check No.: 74854 in the amount of \$500.00
- ☑ I acknowledge the required submittal format for the hard copy application is printed double sided 'head-to-toe', 2-hole punched (except the Sect. 2 landscape tables is printed 'head-to-head'), numbered tab separators. Incl. a copy of the check on a separate page.

This facility qualifies to receive assistance from the Small Business Environmental Assistance program (SBEAP) and qualifies for 50% of the normal application and permit fees. Enclosed is a check for 50% of the normal application fee which will be verified with the Small Business Certification Form for your company.

This facility qualifies to receive assistance from the Small Business Environmental Assistance Program (SBEAP) but does not qualify for 50% of the normal application and permit fees. To see if you qualify for SBEAP assistance and for the small business certification form go to https://www.env.nm.gov/aqb/sbap/small_business_criteria.html).

Citation: Please provide the **low level citation** under which this application is being submitted: **20.2.72.219.B(1)(b) NMAC** (e.g. application for a new minor source would be 20.2.72.200.A NMAC, one example for a Technical Permit Revision is 20.2.72.219.B.1.b NMAC, a Title V acid rain application would be: 20.2.70.200.C NMAC)

Section 1-I – Submittal Requirements

Each 20.2.73 NMAC (**NOI**), a 20.2.70 NMAC (**Title V**), a 20.2.72 NMAC (**NSR** minor source), or 20.2.74 NMAC (**PSD**) application package shall consist of the following:

Hard Copy Submittal Requirements:

- 1) One hard copy original signed and notarized application package printed double sided 'head-to-toe' 2-hole punched as we bind the document on top, not on the side; except Section 2 (landscape tables), which should be head-to-head. Please use numbered tab separators in the hard copy submittal(s) as this facilitates the review process. For NOI submittals only, hard copies of UA1, Tables 2A, 2D & 2F, Section 3 and the signed Certification Page are required. Please include a copy of the check on a separate page.
- 2) If the application is for a minor NSR, PSD, NNSR, or Title V application, include one working hard **copy** for Department use. This <u>copy</u> should be printed in book form, 3-hole punched, and <u>must be double sided</u>. Note that this is in addition to the head-to-to 2-hole punched copy required in 1) above. Minor NSR Technical Permit revisions (20.2.72.219.B NMAC) only need to fill out Sections 1-A, 1-B, 3, and should fill out those portions of other Section(s) relevant to the technical permit revision. TV Minor Modifications need only fill out Sections 1-A, 1-B, 1-H, 3, and those portions of other Section(s) relevant to the minor modification. NMED may require additional portions of the application to be submitted, as needed.
- The entire NOI or Permit application package, including the full modeling study, should be submitted electronically. Electronic files for applications for NOIs, any type of General Construction Permit (GCP), or technical revisions to NSRs must be submitted with compact disk (CD) or digital versatile disc (DVD). For these permit application submittals, two CD copies are required (in sleeves, not crystal cases, please), with additional CD copies as specified below. NOI applications require only a single CD submittal. Electronic files for other New Source Review (construction) permits/permit modifications or Title V permits/permit modifications can be submitted on CD/DVD or sent through AQB's secure file transfer service.

Electronic files sent by (check one):

☑ CD/DVD attached to paper application						
secure electronic transfer. Air Permit Contact Name						
	Email					
	Phone number					

a. If the file transfer service is chosen by the applicant, after receipt of the application, the Bureau will email the applicant with instructions for submitting the electronic files through a secure file transfer service. Submission of the electronic files through the file transfer service needs to be completed within 3 business days after the invitation is received, so the applicant should ensure that the files are ready when sending the hard copy of the application. The applicant will not need a password to complete the transfer. **Do not use the file transfer service for NOIs, any type of GCP, or technical revisions to NSR permits.**

- 4) Optionally, the applicant may submit the files with the application on compact disk (CD) or digital versatile disc (DVD) following the instructions above and the instructions in 5 for applications subject to PSD review.
- 5) If **air dispersion modeling** is required by the application type, include the **NMED Modeling Waiver** and/or electronic air dispersion modeling report, input, and output files. The dispersion modeling **summary report only** should be submitted as hard copy(ies) unless otherwise indicated by the Bureau.
- 6) If the applicant submits the electronic files on CD and the application is subject to PSD review under 20.2.74 NMAC (PSD) or NNSR under 20.2.79 NMC include,
 - a. one additional CD copy for US EPA,
 - b. one additional CD copy for each federal land manager affected (NPS, USFS, FWS, USDI) and,
 - c. one additional CD copy for each affected regulatory agency other than the Air Quality Bureau.

If the application is submitted electronically through the secure file transfer service, these extra CDs do not need to be submitted.

Electronic Submittal Requirements [in addition to the required hard copy(ies)]:

- 1) All required electronic documents shall be submitted as 2 separate CDs or submitted through the AQB secure file transfer service. Submit a single PDF document of the entire application as submitted and the individual documents comprising the application.
- 2) The documents should also be submitted in Microsoft Office compatible file format (Word, Excel, etc.) allowing us to access the text and formulas in the documents (copy & paste). Any documents that cannot be submitted in a Microsoft Office compatible

format shall be saved as a PDF file from within the electronic document that created the file. If you are unable to provide Microsoft office compatible electronic files or internally generated PDF files of files (items that were not created electronically: i.e. brochures, maps, graphics, etc,), submit these items in hard copy format. We must be able to review the formulas and inputs that calculated the emissions.

- 3) It is preferred that this application form be submitted as 4 electronic files (3 MSWord docs: Universal Application section 1 [UA1], Universal Application section 3-19 [UA3], and Universal Application 4, the modeling report [UA4]) and 1 Excel file of the tables (Universal Application section 2 [UA2]). Please include as many of the 3-19 Sections as practical in a single MS Word electronic document. Create separate electronic file(s) if a single file becomes too large or if portions must be saved in a file format other than MS Word.
- 4) The electronic file names shall be a maximum of 25 characters long (including spaces, if any). The format of the electronic Universal Application shall be in the format: "A-3423-FacilityName". The "A" distinguishes the file as an application submittal, as opposed to other documents the Department itself puts into the database. Thus, all electronic application submittals should begin with "A-". Modifications to existing facilities should use the core permit number (i.e. '3423') the Department assigned to the facility as the next 4 digits. Use 'XXXX' for new facility applications. The format of any separate electronic submittals (additional submittals such as non-Word attachments, re-submittals, application updates) and Section document shall be in the format: "A-3423-9-description", where "9" stands for the section # (in this case Section 9-Public Notice). Please refrain, as much as possible, from submitting any scanned documents as this file format is extremely large, which uses up too much storage capacity in our database. Please take the time to fill out the header information throughout all submittals as this will identify any loose pages, including the Application Date (date submitted) & Revision number (0 for original, 1, 2, etc.; which will help keep track of subsequent partial update(s) to the original submittal. Do not use special symbols (#, @, etc.) in file names. The footer information should not be modified by the applicant.

¹ Unit numbers must correspond to unit numbers in the previous permit unless a complete cross reference table of all units in both permits is provided.

² Specify dates required to determine regulatory applicability.

³ To properly account for power conversion efficiencies, generator set rated capacity shall be reported as the rated capacity of the engine in horsepower, not the kilowatt capacity of the generator set.

⁴ Facility has operated with Emission Units 1, 2 and 3 in existence since its construction in 1972.

⁵ The operation of a Petroleum Hydrocarbon Landfarm has been approved since the facility's initial Title V Operating Permit (1/29/08), but the site has not accepted any contaminated soils to-date.

⁶ The Rock Crusher/Waste Shredder is defined by two different SCC codes: Aggregate Processing and Waste Shredding

⁷ The Portable Rock Crusher is a temporary rental unit covered under the Technical Revision Rules edscribed in 20.2.72.219.B(1)(b) NMAC

Table 2-E: Requested Allowable Emissions

Unit & stack numbering must be consistent throughout the application package. Fill all cells in this table with the emission numbers or a "-" symbol. A "-" symbol indicates that emissions of this pollutant are not expected. Numbers shall be expressed to at least 2 decimal points (e.g. 0.41, 1.41, or 1.41E⁻⁴).

¹ Condensable Particulate Matter: Include condensable particulate matter emissions for PM10 and PM2.5 if the source is a combustion source. Do not include condensable particulate matter for PM unless PM is set equal to PM10 and PM2.5. Particulate matter (PM) is not subject to an ambient air quality standard, but it is a regulated air pollutant under PSD (20.2.74 NMAC) and Title V (20.2.70 NMAC).

 Form Revision: 6/14/2019
 Table 2-E: Page 1
 Printed 9/2/2020 3:19 PM

² **Maximum** hourly facility-wide CO emissions are conservatively calculated using Units 5 and 6, as only Unit 6 OR Unit 2 engines will be operated at any one time. Maximum CO hourly emissions for the facility when Units 2 and 5 are in operation is only 2.7 pounds/hour.

Table 2-E-1:

Sandoval County Landfill

Rental Crusher Engine Exhaust Emissions Estimates

*For NSR Applicability and Technical Revision Process

Rental Rock Crusher (Metso LT1213S)											
Emission Parameter Factor (g/kW-hr)		Rated Power Class**	Engine Power Rating (kW)	g/lb hrs/yr *		lb/ton	Emissions (lbs/hr)	Emissions (tons/yr)			
Hydrocarbons (VOCs)	0.19		310	453.6	432	2,000	0.13	0.028			
NOx	0.4						0.27	0.059			
со	3.5	130 ≤ kW < 560					2.39	0.52			
PM (TSP, PM ₁₀ , and PM _{2.5})	0.02						0.014	0.0030			
SO ₂											

Notes:

Emission Factors based on US EPA Tier 4 limitations for engines of this power range (i.e., $130 \le kW \le 560$) g = grams

kW = kilowatt; Prime Power Rating listed by equipment manufacturer (CAT C13 Tier 4 engine, 310kW, 415hp)

- '--' Due to the reduction in allowed sulfur in diesel fuel (less than or equal to 15ppm), FR 69 No. 124 (6/29/2004) promotes the virtual elimination of sulfur emissions from non-road diesel engines upon meeting the Tier 4 Standards required by EPA.
- *The rental crusher is intended to be operated no greater than 9 hours per day, 6 days per week (equal to facility operating hours) for a period not to exceed 8 weeks (2 months)
- ** As defined in 40 CFR 1039.101 Table 1 (below)

TABLE 1 OF \$1039.101—TIER 4 EXHAUST EN	MISSION STANDARDS AFTER THE 2014 MODEL YEAR, G/KW-HR ¹
TABLE I OF STOSS. TOT THEK 4 EXHAUST EN	MISSION STANDARDS AFTER THE 2014 MISSION STAN, WAVE THE

Maximum engine power	Application	РМ	NOx	NMHC	NO _X + NMHC	co
kW <19	All	² 0.40			7.5	³ 6.6
19 ≤kW <56	All	0.03			4.7	⁴ 5.0
56 ≤kW <130	All	0.02	0.40	0.19		5.0
130 ≤kW ≤560	All	0.02	0.40	0.19		3.5
	Generator sets	0.03	0.67	0.19		3.5
kW >560	All except generator sets	0.04	3.5	0.19		3.5

¹Note that some of these standards also apply for 2014 and earlier model years. This table presents the full set of emission standards that apply after all the transition and phase-in provisions of §1039.102 expire.

 $^{^2}$ See paragraph (c) of this section for provisions related to an optional PM standard for certain engines below 8 kW.

 $^{^3}$ The CO standard is 8.0 g/kW-hr for engines below 8 kW.

⁴The CO standard is 5.5 g/kW-hr for engines below 37 kW.

Table 2-E-2:

	Truck Loading - Conveyor, crushed stone					
Pollutant	Factor (lb/ton)	PPH	TPY	Notes		
TSP	0.00010	0.0275	0.00594	No factor given, using PM10 factor		
PM10	0.00010	0.0275	0.00594			
PM2.5	0.00010	0.0275	0.00594	No factor given, using PM10 factor		
	Total fugitives for crushing, screening and truck loading (controlled):					
Pollutant		PPH	TPY			
TSP		0.9625	0.2079			
PM10		0.3795	0.0820			
PM2.5		0.0688	0.0149			

NOTES:

Maximum throughput: 250 metric tons/hour (275 short tons/hour)

TPY estimates assumes 2 month (8 week) rental operating 9 hr/day 6 days /week (432 hours)

Fugitive emission factors obtained from AP-42 Section 11.19.2, Table 11.19.2-2

PPH = pounds per hour (lb/hr)

TPY=[PPH*(9 hr/day)*(6 days/wk)*(8 wk rental)]/2,000 lb/ton

Crusher is equipped with a wet suppression system, therefore controlled factors from AP-42 are used.

Section 3

Application Summary

The <u>Application Summary</u> shall include a brief description of the facility and its process, the type of permit application, the applicable regulation (i.e. 20.2.72.200.A.X, or 20.2.73 NMAC) under which the application is being submitted, and any air quality permit numbers associated with this site. If this facility is to be collocated with another facility, provide details of the other facility including permit number(s). In case of a revision or modification to a facility, provide the lowest level regulatory citation (i.e. 20.2.72.219.B.1.d NMAC) under which the revision or modification is being requested. Also describe the proposed changes from the original permit, how the proposed modification will affect the facility's operations and emissions, de-bottlenecking impacts, and changes to the facility's major/minor status (both PSD & Title V).

The **Process Summary** shall include a brief description of the facility and its processes.

<u>Startup, Shutdown, and Maintenance (SSM)</u> routine or predictable emissions: Provide an overview of how SSM emissions are accounted for in this application. Refer to "Guidance for Submittal of Startup, Shutdown, Maintenance Emissions in Permit Applications (http://www.env.nm.gov/aqb/permit/app_form.html) for more detailed instructions on SSM emissions.

Sandoval County Landfill (SCLF) currently operates under Title V Permit No. P243L-R2 (exp. 09/28/2023) and New Source Review Permit No. 4111-M1 (issued 03/13/2017), and is submitting this Application for Technical Permit Revision in accordance with the provisions of 20.2.72.219.B NMAC. This Application seeks to revise SCLF's NSR Permit, which is currently incorporated into Title V Permit No. P243L-R2.

SCLF is submitting documentation required for an NSR Technical Revision to permit the short-term rental and operation of a mobile rock crushing/screening plant (Unit No. 6 in **Tables 2-A and 2-E**). The data being submitted with this application are specific to the emissions produced by the engine which powers the crusher (**Table 2-E-1**), and demonstrate that the facility-wide increase in emissions of oxides of nitrogen (NO_x), oxides of sulfur (SO_x), and carbon monoxide (CO) resulting from addition of the crusher is less than the 1 pound per hour threshold required for a Technical Revision. Calculations of fugitive emissions from the crusher are also provided in Table **2-E-2**.

The Sandoval County Landfill (SCLF) is a municipal solid waste and special waste landfill owned by Sandoval County, NM, and is operated by the Sandoval County Department of Public Works. The facility has been in operation as a landfill since at least 1972, and is permitted to dispose of municipal solid waste, construction and demolition (C&D) debris, wastewater treatment plant sludge; and to process petroleum contaminated soils. The facility also operates an in-vessel composting system for organic wastes, and offers facilities for the collection of source-separated recyclable materials. The Landfill encompasses 178 ± acres, and the primary features of the site layout are defined as follows:

- Unit I includes the "old landfill" and perimeter zones, and this area will be closed in compliance with the currently approved Closure Plan.
- Unit II includes the lined landfill Cells 1, 2, and 3, as well as the Phase I composting area.
- Unit III includes lined landfill Cells 4, 5, 6, and 7, which represent the currently active disposal area.
- Unit IV includes 31 ± acres of lined landfill Cells. Operations in Unit IV are projected not to commence until after the 5-year term of this current SCLF Title V Permit.
- The Landfill Operations Center includes a Scalehouse, inbound/outbound scales, waste receiving facilities, County vehicle fueling area, and public Convenience Center.

- a. Emission factors represent uncontrolled emissions unless noted. Emission factors in lb/Ton of material of throughput. SCC = Source Classification Code. ND = No data.
- b. Controlled sources (with wet suppression) are those that are part of the processing plant that employs current wet suppression technology similar to the study group. The moisture content of the study group without wet suppression systems operating (uncontrolled) ranged from 0.21 to 1.3 percent, and the same facilities operating wet suppression systems (controlled) ranged from 0.55 to 2.88 percent. Due to carry over of the small amount of moisture required, it has been shown that each source, with the exception of crushers, does not need to employ direct water sprays. Although the moisture content was the only variable measured, other process features may have as much influence on emissions from a given source. Visual observations from each source under normal operating conditions are probably the best indicator of which emission factor is most appropriate. Plants that employ substandard control measures as indicated by visual observations should use the uncontrolled factor with an appropriate control efficiency that best reflects the effectiveness of the controls employed.

Section 9

Proof of Public Notice

(for NSR applications submitting under 20.2.72 or 20.2.74 NMAC) (This proof is required by: 20.2.72.203.A.14 NMAC "Documentary Proof of applicant's public notice")

☑ I have read the AQB "Guidelines for Public Notification for Air Quality Permit Applications" This document provides detailed instructions about public notice requirements for various permitting actions. It also provides public notice examples and certification forms. Material mistakes in the public notice will require a re-notice before issuance of the permit.

Unless otherwise allowed elsewhere in this document, the following items document proof of the applicant's Public Notification. Please include this page in your proof of public notice submittal with checkmarks indicating which documents are being submitted with the application.

New Permit and Significant Permit Revision public notices must include all items in this list.

Technical Revision public notices require only items 1, 5, 9, and 10.

Per the Guidelines for Public Notification document mentioned above, include:

- 1. ☑ A copy of the certified letter receipts with post marks (20.2.72.203.B NMAC)
- 2. A list of the places where the public notice has been posted in at least four publicly accessible and conspicuous places, including the proposed or existing facility entrance. (e.g. post office, library, grocery, etc.)
- 3. A copy of the property tax record (20.2.72.203.B NMAC).
- 4. A sample of the letters sent to the owners of record.
- 5. \(\overline{\text{\pi}} \) A sample of the letters sent to counties, municipalities, and Indian tribes.
- 6. A sample of the public notice posted and a verification of the local postings.
- 7. A table of the noticed citizens, counties, municipalities and tribes and to whom the notices were sent in each group.
- 8. A copy of the public service announcement (PSA) sent to a local radio station and documentary proof of submittal.
- 9. A copy of the <u>classified or legal</u> ad including the page header (date and newspaper title) or its affidavit of publication stating the ad date, and a copy of the ad. When appropriate, this ad shall be printed in both English and Spanish.
- 10. A copy of the <u>display</u> ad including the page header (date and newspaper title) or its affidavit of publication stating the ad date, and a copy of the ad. When appropriate, this ad shall be printed in both English and Spanish.
- 11. A map with a graphic scale showing the facility boundary and the surrounding area in which owners of record were notified by mail. This is necessary for verification that the correct facility boundary was used in determining distance for notifying land owners of record.

In compliance with 20.2.72.219.B NMAC, notification of the public was conducted on August 31, 2020. Notice was mailed to counties, municipalities and Indian tribes within 10 miles of the facility boundary, and published in a newspaper of local circulation. Documentary proof of these notification activities is included in this section in the following attachments:

<u>Contents</u>
Copies of Certified Letter Receipts
Sample of Letter Sent to Counties, Municipalities, and Indian Tribes
Counties, Municipalities, and Tribes to Whom Notices Were Sent
Affidavits of Publication and Classified and Display Advertisements

To whom it may concern;

The Sandoval County Landfill announces its application submittal to the New Mexico Environment Department for an air quality permit for the technical revision of the Sandoval County Landfill. The expected date of application submittal to the Air Quality Bureau is September 6, 2020.

The exact location for the Sandoval County Landfill is 2708 Iris Road, NE, Rio Rancho, NM 87124. The facility is located immediately north of the intersection of Iris and Idalia Roads, approximately 1.5 miles northwest of the intersection if NM 528 and Iris Road in Sandoval County NM.

The proposed revision consists of the following

The Sandoval County Landfill is proposing to rent a rock crusher for a period not to exceed 2 months for the purpose of processing waste concrete stockpiled on-site to be beneficially reused as road construction materials.

The estimated maximum quantities of any regulated air contaminant will be as follows in pound per hour (pph) and tons per year (tpy) and may change slightly during the course of the Department's review:

Pollutant:	Pounds per hour	Tons per year
PM_{10}	22.5 pph	24.6 tpy
PM _{2.5}	3.7 pph	3.5 tpy
Sulfur Dioxide (SO ₂)	0.83 pph	0.59 tpy
Nitrogen Oxides (NO _x)	12.87 pph	8.86 tpy
Carbon Monoxide (CO)	3.59 pph	2.4 tpy
Volatile Organic Compounds (VOC)	5.8 pph	25.0 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	5.8 pph	25.0 tpy
Green House Gas Emissions as Total CO ₂ e	n/a	83,209 tpy

The standard and maximum operating schedule of the facility will be from 7:00 a.m. to 4:00 p.m. 6 days a week and a maximum of 52 weeks per year.

The owner and operator of the facility are:

Sandoval County Department of Public Works (Owner)	Sandoval County Landfill (Operator)
2708 Iris Rd. NE	2700 Iris Road NE
Rio Rancho, NM 87124	Rio Rancho, NM 87124

If you have any comments about the construction or operation of this facility, and you want your comments to be made as part of the permit review process, you must submit your comments in writing to this address: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, New Mexico; 87505-1816; (505)476-4300; 224-7009; Suite Santa Fe, 1 800 https://www.env.nm.gov/aqb/permit/aqb draft permits.html. Other comments and questions may be submitted verbally.

Please refer to the company name and facility name, or send a copy of this notice along with your comments, since the Department may have not yet received the permit application. Please include a legible return mailing address with your comments. Once the Department has performed a preliminary review of the application and its air quality impacts, the Department's notice will be published in the legal section of a newspaper circulated near the facility location.

Attención

Este es un aviso de la oficina de Calidad del Aire del Departamento del Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor comuníquese con esa oficina al teléfono 505-476-5557.

Sincerely, Sandoval County Landfill 2708 Iris Rd. NE Rio Rancho, NM 87124

Notice of Non-Discrimination

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, or if you believe that you have been discriminated against with respect to a NMED program or activity, you may contact: Kristine Yurdin, Non-Discrimination Coordinator, NMED, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. You may also visit our website at https://www.env.nm.gov/non-employee-discrimination-complaint-page/ to learn how and where to file a complaint of discrimination.

NOTICE OF AIR QUALITY PERMIT APPLICATION

The Sandoval County Landfill announces its application submittal to the New Mexico Environment Department for an air quality permit for the technical revision of the Sandoval County Landfill. The expected date of application submittal to the Air Quality Bureau is September 6, 2020.

The exact location for the Sandoval County Landfill is 2708 Iris Road, NE, Rio Rancho, NM 87124. The facility is located immediately north of the intersection of Iris and Idalia Roads, approximately 1.5 miles northwest of the intersection if NM 528 and Iris Road in Sandoval County NM.

The proposed revision consists of the following

The Sandoval County Landfill is proposing to rent a rock crusher for a period not to exceed 2 months for the purpose of processing waste concrete stockpiled on-site to be beneficially reused as road construction materials.

The estimated maximum quantities of any regulated air contaminant will be as follows in pound per hour (pph) and tons per year (tpy) and may change slightly during the course of the Department's review:

Pollutant:	Pounds per hour	Tons per year
PM ₁₀	22.5 pph	24.6 tpy
PM _{2.5}	3.7 pph	3.5 tpy
Sulfur Dioxide (SO ₂)	0.83 pph	0.59 tpy
Nitrogen Oxides (NO _x)	12.87 pph	8.86 tpy
Carbon Monoxide (CO)	3.59 pph	2.4 tpy
Volatile Organic Compounds (VOC)	5.8 pph	25.0 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	5.8 pph	25.0 tpy
Green House Gas Emissions as Total CO2e	n/a	83,209 tpy

The standard and maximum operating schedule of the facility will be from 7:00 a.m. to 4:00 p.m. 6 days a week and a maximum of 52 weeks per year.

The owner and operator of the facility are:

Sandoval County Department of Public Works (Owner)	Sandoval County Landfill (Operator)
2708 Iris Rd. NE	2700 Iris Road NE
Rio Rancho, NM 87124	Rio Rancho, NM 87124

If you have any comments about the construction or operation of this facility, and you want your comments to be made as part of the permit review process, you must submit your comments in writing to this address: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, Suite 1; Santa Fe, New Mexico; 87505-1816; (505) 476-4300; 1 800 224-7009; https://www.env.nm.gov/aqb/permit/aqb_draft_permits.html. Other comments and questions may be submitted verbally.

Please refer to the company name and facility name, or send a copy of this notice along with your comments, since the Department may have not yet received the permit application. Please include a legible return mailing address with your comments. Once the Department has performed a preliminary review of the application and its air quality impacts, the Department's notice will be published in the legal section of a newspaper circulated near the facility location.

AVISO DE SOLICITUD DE PERMISO DE CALIDAD DEL AIRE

El Vertedero del Condado de Sandoval (Sandoval County Landfill) anuncia la presentación de su solicitud al Departamento de Medio Ambiente de Nuevo México de un permiso de calidad del aire para la revisión técnica del Relleno Sanitario del Condado de Sandoval. La fecha prevista para la presentación de la solicitud ante la Oficina de Calidad del Aire es el 6 de septiembre de 2020.

La ubicación exacta del Vertedero del Condado de Sandoval es 2708 Iris Road NE, Rio Rancho, NM, 87124. El establecimiento está ubicado inmediatamente al norte de la intersección de las carreteras Iris e Idalia, aproximadamente a 1.5 millas al noroeste de la intersección de NM 528 e Iris Rd. en el Condado de Sandoval, NM.

La revisión propuesta consiste en lo siguiente:

El Vertedero del Condado de Sandoval propone alquilar una trituradora de rocas por un período no superior a dos (2) meses con el fin de procesar los desechos de hormigón almacenados in situ para su reutilización provechosa como materiales de construcción de carreteras.

Las cantidades máximas estimadas de cualquier contaminante del aire regulado serán las siguientes en libras por hora (lb/h) y toneladas por año (tpa) y pueden cambiar ligeramente durante el curso de la revisión del Departamento.

Contaminante:	Libras por hora	Toneladas por año
PM ₁₀	22.5 lb/h	24.6 tpa
PM _{2.5}	3.7 lb/h	3.5 tpa
Dióxido de azufre (SO ₂)	0.83 lb/h	0.59 tpa
Óxidos de nitrógeno (NO _x)	12.87 lb/h	8.86 tpa
Monóxido de carbono (CO)	3.59 lb/h	2.4 tpa
Compuestos orgánicos volátiles (COV)	5.8 lb/h	25.0 tpa
Suma total de todos los contaminantes peligrosos del		
aire (CPA)	5.8 lb/h	25.0 tpa
Emisiones de gases de invernadero como Total de		
CO_2 eq	n/a	83,209 tpa

El horario estándar y máximo de funcionamiento del establecimiento será de 7:00 a.m. a 4:00 p.m., 6 días a la semana y un máximo de 52 semanas al año.

El propietario y el operador del establecimiento son:

Sandoval County Department of Public Works (Propietario)

2708 Iris Rd. NE

Rio Rancho, NM 87124

Sandoval County Landfill (Operador)

2700 Iris Road NE

Rio Rancho, NM 87124

Si tiene algún comentario sobre la construcción o el funcionamiento de este establecimiento, y desea que sus comentarios formen parte del proceso de revisión del permiso, debe presentar sus comentarios por escrito en la siguiente dirección: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, Suite 1; Santa Fe, New Mexico; 87505-1816; (505) 476-4300; 1 800 224-7009; https://www.env.nm.gov/aqb/permit/aqb_draft_permits.html. Otros comentarios y preguntas se pueden presentar verbalmente.

Refiérase al nombre de la empresa y al nombre del establecimiento, o envíe una copia de este aviso junto con sus comentarios, ya que es posible que el Departamento aún no haya recibido la solicitud de permiso. Incluya una dirección legible de vuelta de correo. Una vez que el Departamento haya concluido la revisión preliminar de la solicitud y de sus impactos en la calidad del aire, el aviso del Departamento se publicará en la sección legal de un periódico que circule cerca de la ubicación del establecimiento.

relief in the wake of a pandemic is a much-appreciated honor. Small business owners are the backbone of our nation and local economies.'

Grants will first be prioritized to qualifying businesses in unincorporated areas of Sandoval County and towns that did not receive Small Business Continuity Grant funding. However, any qualifying business or nonprofit within Sandoval County are is to apply.

The money can only be used to reimburse the costs of business interruption caused by required closures and not covered by insurance or another government

To apply for the county grant program, email businessgrant@sandovalcountynm.gov to ask for a copy of the application and learn more about qualifications.

Expenses were outlined in the application process to ensure they matched CARES Act requirements dictated by the federal government. New Mexico would be required to refund the federal government should an expense not fit the specific requirements.

NOTICE OF AIR QUALITY PERMIT APPLICATION

The Sandoval County Landfill announces its application submittal to the New Mexico Environment Department for an air quality permit for the technical revision of the Sandoval County Landfill. The expected date of application submittal to the Air Quality Bureau is September 6, 2020.

The exact location for the Sandoval County Landfill is 2708 Iris Road, NE, Rio Rancho, NM 87124. The facility is located immediately north of the intersection of Iris and Idalia Roads, approximately 1.5 miles northwest of the intersection if NM 528 and Iris Road in Sandoval County NM.

The proposed revision consists of the following

The Sandoval County Landfill is proposing to rent a rock crusher for a period not to exceed 2 months for the purpose of processing waste concrete stockpiled on-site to be beneficially reused as road construction materials.

The estimated maximum quantities of any regulated air contaminant will be as follows in pound per hour (pph) and tons per year (tpy) and may change slightly during the course of the Department's

Pollutant:	Pounds per Hour	Tons per Year
PM ₁₀	22.5 pph	24.6 tpy
PM ₂₅	3.7 pph	3.5 tpy
Sulfur Dioxide (SO ₂)	0.83 pph	0.59 tpy
Nitrogen Oxides (NO _x)	12.87 pph	8.86 tpy
Carbon Monoxide (CO)	3.59 pph	2.4 tpy
Volatile Organic Compounds (VOC)	5.8 pph	25.0 tpy
Total sum of all Hazardous Air Pollutants (HAPs)	5.8 pph	25.0 tpy
Green House Gas Emissions as Total CO a	n/a	83 200 tov

The standard and maximum operating schedule of the facility will be from 7:00 a.m. to 4:00 p.m. 6 days a week and a maximum of 52 weeks per year.

The owner and operator of the facility are:

Sandoval County Department of Public Works (Owner) Sandoval County Landfill (Operator) 2708 Iris Rd NF 2700 Iris Road NE Rio Rancho, NM 87124 Rio Rancho, NM 87124

If you have any comments about the construction or operation of this facility, and you want your comments to be made as part of the permit review process, you must submit your comments in writing to this address: Permit Programs Manager; New Mexico Environment Department; Air Quality Bureau; 525 Camino de los Marquez, Suite 1; Santa Fe, New Mexico; 87505-1816; (505) 476-4300; 1 800 224-7009; https://www.env.nm.gov/aqb/permit/aqb_draft_permits.html. Other comments and questions may be submitted verbally.

Please refer to the company name and facility name, or send a copy of this notice along with your comments, since the Department may have not yet received the permit application. Please include a legible return mailing address with your comments. Once the Department has performed a preliminary review of the application and its air quality impacts, the Department's notice will be published in the legal section of a newspaper circulated near the facility location.

Este es un aviso de la oficina de Calidad del Aire del Departamento del Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor comuníquese con esa oficina al teléfono 505-476-5557.
