Notes

1. Welcome and Introductions.

2. Concerns:

Some mitigation options contradict themselves; separate paragraphs at least would help in some instances.

Our work group should respond to comments only if doing so improves the development of the mitigation option.

New mitigation options need to be specified as having gone through different review process; mark or flag them accordingly.

Action items for group and WGC assigned based on due dates for new material (by 8/22) and for revised material (by 9/7)

3. Next Call:

Date: Wednesday, September 5, 2007

Time: 1-3 pm

4. Work Group Presenters for November meeting:

Dave Brown

Jan Rees
