

AGENDA
Oil & Gas Emissions Reductions Study
Stakeholder Meeting, 8:15-9:45 AM, April 25, 2007

1. Introductions
2. Background
 - Executive Order
 - Relation to parallel efforts
3. Oil and Gas Emissions
 - CCAG inventory data
 - First step: identify any improvements to base year inventory
4. Proposed Elements of Final Report
 - Description of EO goals and stakeholder process
 - Improved base year emissions
 - Recommended methods to measure ongoing change in emissions
 - Recommended emissions reduction measures (regulatory and non-regulatory)
 - Estimate of emissions reductions expected to result from recommended measures
5. Potential Resources/Options for Developing Reductions Measures/Incentives
 - Natural Gas Star website and publications
 - Four Corners Air Quality Task Force “Draft Mitigation Options”
 - Suggestions?
6. Next Steps
