Why do you want to be a Climate Master Volunteer?

Will you be able to attend all of the required classes? ☐ Yes ☐ No

I know that I will have to miss:

We ask that you make up missed class hours with the equivalent in extra volunteer hours. For example, if one evening class is missed then you can add an extra 2.5 hrs in volunteer time as a make-up.

After receiving training from experts, Climate Masters share their knowledge in a variety of ways (consultations to members of the public, staffing information booths at local events, etc.).

What experience and skills do you have that will help you work with others as a volunteer?

Please identify one example of an issue related to climate change affecting your community or another local community. What do you think could be done to address this issue?

Continued on Page 2...

VOLUNTEER PREFERENCES:

Please indicate your level of interest in **each** the following categories of volunteer activities. These are general categories. There are dozens of volunteer activities including one's you may come up with yourself.

(Interest Rating Scale: 1=very, 2=somewhat, 3=neutral, 4= not interested)

Providing information at a table / booth during an event

Providing information at a table / booth during an event

Providing home energy / sustainability consultations

Other (please specify below if you have a suggestion)

Terms of the Climate Masters™ Program

I would like to become a trained Climate Master volunteer.

I understand that the purpose of this program is to train people who will share the information they learn with others.

I expect to receive 30 hours of expert instruction about how to reduce my personal greenhouse gas emissions, and how to help others to do the same.

I will attend each class and participate fully, so that I will be able to absorb the information I am learning, and I can practice the skills taught.

Once I am trained, I agree to donate at least 30 hours of my time to this program.

Signature (please type if emailing)
