

LEGAL NOTICE

For

Air Quality Operating Permit

for North Crandell Compressor Station of Williams Four Corners LLC

Williams Four Corners LLC at 1755 Arroyo Drive; Bloomfield, NM 87413 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its North Crandell Compressor Station. The owner of this plant is Williams Four Corners LLC. The exact location of the facility is at latitude 36 deg, 50 min, 30.4 sec and longitude -107 deg, 57 min, 27.46 sec. To aid in locating this facility, the approximate location is 2 miles NE of Aztec in San Juan County, New Mexico. This application file has been assigned an Operating Permit Number P197R3 and TEMPO Agency Interest ID No. 1374.

Previously, the facility received an air quality construction permit and is in operation.

The main purpose of the plant is to receive field natural gas, remove condensable water and hydrocarbon liquids using an inlet separator, and recompress the gas for distribution through a sales pipeline.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves 5-year renewal of operating permit and no physical changes to the facility.

The estimated maximum air pollutant emissions to the atmosphere, from this facility after the requested operating permit is issued, are as follows. Parentheses note changes in emissions from previous operating permit action – P197R2M1; emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO_x) at 80.3 tpy (No Change (NC)); Carbon Monoxide (CO) at 65.9 tpy (NC); Volatile Organic Compounds (VOC) at 122.3 tpy (NC); negligible Sulfur Dioxide (SO₂) (NC); Total Suspended Particulates (TSP) at 1.7 (+1.0); Particulate Matter 10 microns or less (PM₁₀) at 1.7 tpy (NC); Particulate Matter 2.5 microns or less (PM_{2.5}) at 1.7 tpy (NC); Formaldehyde at 5.5 tpy (-0.1); n-Hexane at 3.1 tpy (NC); and Total Hazardous Air Pollutants at 8.6 tpy (-2.5). The facility is a minor, < 100,000 tpy CO_{2e}, source of green house gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this plant will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, and 82; 40 CFR 50; 40 CFR 63 Subparts A and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before June 7, 2016.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P197R3 by contacting Roslyn Higgin at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Roslyn Higgin at 505-476-4319. Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.
