**Subject:** RE: P261 Public Notice

Jennifer:

We have researched why the public notice for the application was not mailed to Agave Energy Company. Intercontinental Potash (ICP) obtained the list of property owners of record from the Lea County Assessor's office in May 2011. The Lea County Assessor's office stated that the deed for Agave's property was filed on July 14, 2011. Therefore, the list of property owners obtained by ICP, just missed including Agave Energy Company as an owner of record of the ~ 80 acres in the southeast corner of T24S-S13-R33E.

ICP has met the public notice requirements at 20.2.72.203.B(1)(b) NMAC since notice was sent to all property owners of record at the time the list was obtained by ICP. Regardless, ICP will send Agave Energy Company a copy of their public notice for your records and to provide additional contact information for ICP.

Thank you

**Subject:** P261 Public Notice

Cember,

Please call me today to go over this information. I want to make sure that I do it properly so that this permit can be renoticed.

I do not believe that ICP did a proper public notice. Agave owns land within the ½ mile radius and we weren't listed in the permit as receiving a copy of the public notice.

I have attached a Google Earth view of our Red Hills Gas Plant with the BLM overlay. The overlay is available from the BLM and shows BLM managed lands. I also attached information from the Lea County Assessors Office which shows that Agave is the landowner.
