

**PUBLIC NOTICE**  
For  
Air Quality Operating Permit  
for Frances Mesa Compressor Station of Enterprise Field Services, LLC

Enterprise Field Services, LLC at PO Box 4324; Houston, TX 772104324 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Frances Mesa Compressor Station. The owner of this plant is Enterprise Field Services. The exact location of the facility is latitude 36 deg, 46 min, 49.6611 sec and longitude -107 deg, 33 min, 45.8042 sec. This facility is located approximately 26 miles east of Blanco in Rio Arriba County, New Mexico. This application file has been assigned an Operating Permit Number P170R3 and TEMPO Agency Interest ID No. 1038.

Previously, the facility received an air quality construction permit and is in operation.

The main purpose of the facility is a Natural Gas Compressor Station. Pipeline gas from a gathering system enters the facility via a distribution system that feeds four natural gas-fired engines. After compression, the wet natural gas enters a triethylene glycol dehydration contractor. The dry gas is then discharged into another pipeline.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves TV Renewal.

The emissions, as established in NSR Permit 1579-M2, and brought forward into this permit are as follows. Parentheses note changes in emissions from previous operating permit P170-R3. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO<sub>x</sub>) at 155.9 tpy (no change); Carbon Monoxide (CO) at 248.2 tpy (+0.6); Volatile Organic Compounds (VOC) at 94.6 tpy (+1.4); Sulfur Dioxide (SO<sub>2</sub>) at 5.2 tpy (+0.4); Particulate Matter total (PM) suspended PM at 3.4 tpy (no change); Particulate Matter 10 microns or less (PM<sub>10</sub>) at 3.4 tpy (no change), and Particulate Matter 2.5 microns or less (PM<sub>2.5</sub>) at 3.4 tpy (no change); Total HAP 36.4 tpy (-0.1); Acetaldehyde 2.8 tpy (no change); Acrolein 1.7 tpy (no change); Benzene 1.1 tpy (-0.1); Formaldehyde 17.3 tpy (no change); Toluene 4.1 tpy (no change); Xylenes 6.8 tpy (no change); and greenhouse gas (CO<sub>2e</sub>) (>) 75,000 tpy.

The estimated maximum air pollutant emissions to the atmosphere, from this facility after the requested operating permit is issued, are as follows. The facility is a major, >100,000 tpy CO<sub>2e</sub>, major source of greenhouse gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 78, and 82; 40 CFR 50; 40 CFR 60 Subparts A; 40 CFR 61 Subparts A; 40 CFR 63 Subparts A, HH, and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before 5/25/16.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P170R3 by contacting Hernesto Tellez at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Hernesto Tellez at 505-476-4300. Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.
