

LEGAL NOTICE

For

Air Quality Operating Permit

for Hope Pump Station of NuStar Logistics Operation LP

NuStar Logistics Operation LP at 410 S Padre Island Dr, Suite 200; Corpus Christi, TX 78405 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Hope Pump Station. The owner of this plant is Nustar Logistics, L.P. The exact location of the facility is at latitude 32 degree, 51 minute, 26.32 second and longitude -104 degree, 56 minute, 46.51 second, Datum: WGS84. To aid in locating this facility, the approximate location is from the western edge of Hope, NM travel 12.8 miles west on Highway 82. Turn left (south) on to the station access road and travel 0.2 miles to arrive at Hope Pump Station in Chavez county This application file has been assigned an Operating Permit Number P183-R3M1 and TEMPO Agency Interest ID No. 52.

Previously, the facility received an air quality construction permit and is in operation.

The main purpose of this facility: The Hope Pump Station services NuStar's refined products pipeline from Valero's refinery in Sunray, TX. The pipeline handles gasoline, turbine fuel, diesel, Jet-A, and liquefied petroleum gas. The emission units at the Hope Pump Station are a diesel driven pump (E-1), a diesel storage tank (S-3M1), and equipment fugitives (F-1). This station is not equipped with breakout storage tanks.

This operating permit application is for a permit modification. Per 20.2.70.401.C.(4) NMAC, this permitting action involves removing the Title V Permit P183-R3 Condition A105.B that requires the facility to have an 18° timing on the diesel engine. This condition has been unreliable and, at times, counter-productive to emission compliance.

There are **no changes to the existing air emission limits** in this permitting action.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 75, 77, and 82; 40 CFR 50; 40 CFR 60 Subparts Kb; 40 CFR 63 Subparts ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before February 18, 2017.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P183-R3M1 by contacting Roslyn Higgin at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Roslyn Higgin at 505-476-4319. Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.
