

PUBLIC NOTICE
For
Air Quality Operating Permit
for Huerfano Pump Station of Enterprise Field Services, LLC

Enterprise Field Services, LLC at PO Box 4324, Houston, TX 77210-4324 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Huerfano Pump Station. The owner of this plant is Mid-America Pipeline Company LLC. The exact location of the facility is at latitude 36 deg, 28 min, 9.8 sec and longitude -107 deg, 54 min, 27.1 sec. To aid in locating this facility, the approximate location is 17 miles south of Bloomfield in San Juan County, New Mexico. This application file has been assigned an Operating Permit Number P201-R2M1 and TEMPO Agency Interest ID No. 1201.

Previously, the facility received an air quality construction permit and is in operation. The main purpose of the facility is to boost pipeline internal pressure for transport of natural gas liquids through underground pipelines using natural gas fired turbines. This operating permit application is for a permit modification per 20.2.70.401.C(4) NMAC. This action incorporates NSR Permit 0888-M6 issued March 11, 2014, Administrative Permit Revision 0888-M6R1 dated September 10, 2013, and additional corrections and/or clarifications. The changes are as follows: revision of SO₂ emission rates, addition of Startup, Shutdown, Maintenance (SSM), and Malfunction Emissions (M), removal of turbine Unit 1, correction of regulatory analysis for 40 CFR 63, Subpart HH, which does not apply to this facility, revision of glycol dehydrator emissions rates, removal of emergency generator Unit 12, and addition of new emergency generator Unit 12a.

The emissions, as established in NSR Permit 0888-M6, and brought forward into this permit are as follows. Parentheses note changes in emissions from previous operating permit – P201-R2. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO_x) at 100.6 tpy (-17.4); Carbon Monoxide (CO) at 122.8 tpy (-29.8); Volatile Organic Compounds (VOC) at 50.2 tpy (+16.3); Sulfur Dioxide (SO₂) at 0.8 tpy (-0.6); Total Particulate Matter (TSP), Particulate Matter 10 microns or less (PM₁₀), and Particulate Matter 2.5 microns or less (PM_{2.5}) at 2.4 tpy (-0.4); and greenhouse gas (CO_{2e}) < 75,000 tpy. The facility is a minor, < 100,000 tpy CO_{2e}, source of greenhouse gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 1, 7, 61, 70, 71, 72, 73, 77, and 82; 40 CFR 50; 40 CFR 60 Subparts A, JJJJ, and KKKK; 40 CFR 63 Subparts A and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before May 28, 2016.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P201-R2M1 by contacting Linsey Hurst at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact

in Santa Fe is Linsey Hurst at 505-476-4371. Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área.
