For

Air Quality Operating Permit

for San Luis Pump Station of Mid-America Pipeline Company LLC

Mid-America Pipeline Company, LLC, of Enterprise Products Operating, LLC, located at 1100 Louisiana Street, Houston, TX 77002 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its San Luis Pump Station. The owner of this plant is Enterprise Products Operating, LLC. The exact location of the facility is at latitude 35 deg, 42 min, 17 sec and longitude -107 deg, 6 min, 25 sec. To aid in locating this facility, the approximate location is 23 miles south of Cuba, NM, (along US Highway 550, then about 8 miles west-southwest on State Route 279) in Sandoval County. This application file has been assigned an Operating Permit Number P202-R2M2 and TEMPO Agency Interest ID No. 1109.

Previously, the facility received an air quality construction permit and is in operation. The main purpose of the facility is to transport refined petroleum products including natural gas liquids coming from various processing plants through a pipeline system. This operating permit application is for a minor permit modification. Per 20.2.70.401.C.(4) NMAC, this permitting action involves the addition of a 40-horsepower emergency engine.

The estimated maximum air pollutant emissions to the atmosphere, from this facility after the requested operating permit is issued, are as follows: Nitrogen Oxides (NO<sub>x</sub>) at 131.0 tpy; Carbon Monoxide (CO) at 162.0 tpy; Volatile Organic Compounds (VOC) at 21.0 tpy; Sulfur Dioxide (SO<sub>2</sub>) at 1.0 tpy; Total Suspended Particulates (TSP) at 2.2 tpy; Particulate Matter 10 microns or less (PM<sub>10</sub>) at 2.2 tpy, Particulate Matter 2.5 microns or less (PM<sub>2.5</sub>) at 2.2 tpy; and greenhouse gas (CO<sub>2</sub>e) < 75,000 tpy. The facility is a minor source of greenhouse gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance. The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 75, 77, and 82; 40 CFR 50; 40 CFR 60 Subparts A, GG, JJJJ, and KKKK; 40 CFR 63 Subparts A and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before September 22, 2016.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P202-R2M2 by contacting Jim Nellessen at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Jim Nellessen at 505-476-4315. Este es un aviso de la Agencia de Calidad de Aire del Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.
