

PUBLIC NOTICE
For
Air Quality Operating Permit
for Oil Center Booster Station of DCP Midstream, L.P.

DCP Midstream, L.P. at 370 17th Street, Suite 2500; Denver, CO 80202 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Oil Center Booster Station. The owner of this plant is DCP Midstream, L.P.. The exact location of the facility is latitude 32 deg, 32 min, 9 sec and longitude -103 deg, 15 min, 34 sec. To aid in locating this facility, the facility is located approximately 5.3 miles S. of Monument in Lea County, NM. This application file has been assigned an Operating Permit Number P056-R3 and TEMPO Agency Interest ID No. 668.

Previously, the plant received an air quality construction permit and is in operation. This facility is a natural gas compressor station that boosts line pressure of the gas for subsequent movement down the pipeline. Field natural gas enters the facility through the inlet separator, where entrained liquids in the gas are separated. Liquids collected in the separator are sent to the condensate storage tank. After inlet separation, the gas stream is compressed in the compressor units and moved into the natural gas pipeline.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves replacement of the facility's condensate storage tank (TK-12) with a newer and smaller condensate tank. There are no changes in emissions in this permitting action.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance status.

The NMED has made a preliminary determination that this plant will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 74 and 82; 40 CFR 50; 40 CFR 63 Subpart ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before March 13, 2014.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P056-R3. Contact the New Mexico Environment Department, Air Quality Bureau, Operating Permit Unit, 1301 Siler Rd, Bldg B, Santa Fe, New Mexico 87507-3113.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, Operating Permits Unit, 1301 Siler, Bldg B, Santa Fe, New Mexico 87507-3113. The Department contact in Santa Fe is Daren Zigich at 505-476-4366.
