

PUBLIC NOTICE
For
Air Quality Operating Permit
for San Ysidro Pump Station of Mid-America Pipeline Company LLC

Mid-America Pipeline Company LLC, P.O. Box 4324, Houston, TX 77210-4324 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its San Ysidro Pump Station. The owner of this plant is Mid-America Pipeline Company LLC and operated by Enterprise Products Operating, LLC. The exact location of the facility is at latitude 35 deg, 30 min, 55 sec and longitude -106 deg, 46 min, 11 sec. To aid in locating this facility, it is situated approximately 2.5 miles southeast of San Ysidro, New Mexico in Sandoval County. Address is: 21000 Hwy 550, San Ysidro, NM 87053. This application file has been assigned an Operating Permit Number P200-R2-M1 and TEMPO Agency Interest ID No. 1114.

Previously, the plant received an air quality construction permit and is in operation (new source review [NSR] construction permit No. 1145-M4). The main function of this facility is a natural gas liquid (NGL) pumping station.

This operating permit application is for a permit modification. Per 20.2.70.401.C.(4) NMAC, this permitting action will remove conditions for the flare since it is insignificant and incorporates recent applicable requirements from NSR Permit 1145-M4.

The emissions, as established in NSR Permit 1145-M4, and brought forward into this permit are as follows. In parentheses note changes in emissions from previous operating permit action – P200-R2; emissions are expressed in tons per year (tpy): Nitrogen Oxides (NO_x) at 103.7 tpy (no change); Carbon Monoxide (CO) at 151.2 tpy (no change); Volatile Organic Compounds (VOC) at 40.4 tpy (+23.7); Sulfur Dioxide (SO₂) at 1.3 tpy (-0.1); Particulate Matter 10 microns or less (PM₁₀) at 2.4 tpy (-0.2); Particulate Matter 2.5 microns or less (PM_{2.5}) at 2.4 tpy (-0.2); and Total Suspended Particulates at 2.4 tpy (-0.2).

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance status.

The NMED has made a preliminary determination that this plant will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, and 77; 40 CFR 50; 40 CFR 60 Subparts GG and KKKK; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before April 26, 2013.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P200-R2-M1. Contact the New Mexico Environment Department, Air Quality Bureau, Operating Permit Unit, 1301 Siler Rd, Bldg B, Santa Fe, New Mexico 87507-3113.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, Operating Permits Unit, 1301 Siler, Bldg B, Santa Fe, New Mexico 87507-3113. The Department contact in Santa Fe is Jim Nellessen at 505-476-4315.
