

NEW MEXICO ENVIRONMENTAL IMPROVEMENT BOARD
NOTICE OF STATE IMPLEMENTATION PLAN HEARING

The New Mexico Environmental Improvement Board ("Board") will hold a public hearing on September 5, 2013, beginning at 9:00 am in Room 7103 at San Juan College, 4601 College Boulevard, continuing on September 6, if necessary. The New Mexico Environment Department ("NMED") is proposing to adopt revisions to the New Mexico State Implementation Plan for Regional Haze. The proposed plan establishes requirements for New Mexico to meet the requirements of 40 CFR Section 51.309, including a revised determination of Best Available Retrofit Technology for the San Juan Generating Station, located 15 miles west of Farmington. The proposed plan involves the voluntary retirement of two of the four units at this facility, and the installation of selective non-catalytic reduction on the other two units.

The proponent of this regulatory adoption and revision is the New Mexico Environment Department ("NMED").

The purpose of the public hearing is to consider and take possible action on a petition from NMED regarding revisions to New Mexico's State Implementation Plan under the federal regional haze rule, 40 CFR Section 51.309. The regional haze rule requires states to submit State Implementation Plans to address visibility impairment caused by regional haze in 156 federally-protected parks and wilderness areas, known as Class I areas, including nine such areas in New Mexico.

The proposed revised plan may be reviewed during regular business hours at the NMED Air Quality Bureau office, 525 Camino de los Marquez, Suite 1, Santa Fe, New Mexico. The full text of NMED's proposed revised State Implementation Plan are available on NMED's web site at www.nmenv.state.nm.us, or by contacting Rita Bates at (505) 476-4304 or by email at rita.bates@state.nm.us.

The hearing will be conducted in accordance with 20.1.1 NMAC (Rulemaking Procedures – Environmental Improvement Board), the Environmental Improvement Act, Section 74-1-9 NMSA 1978, the Air Quality Control Act, Section 74-2-6 NMSA 1978, and other applicable procedures.

All interested persons will be given reasonable opportunity at the hearing to submit relevant evidence, data, views and arguments, orally or in writing, to introduce exhibits, and to examine witnesses. Persons wishing to present technical testimony must file with the Board a written notice of intent to do so. The notice of intent shall:

- (1) identify the person for whom the witness(es) will testify;
- (2) identify each technical witness that the person intends to present and state the qualifications of the witness, including a description of their education and work background;
- (3) include a copy of the direct testimony in narrative form of each technical witness;
- (4) attach each exhibit anticipated to be offered by that person at the hearing; and
- (5) attach the text of any recommended modifications to the proposed regulatory change.

Notices of intent for the hearing must be received in the Office of the Board not later than 5:00 pm on August 16, and should reference the docket number, EIB 13-02 (R) and the date of the hearing. Notices of intent to present technical testimony should be submitted to:
