

NOTICE OF AVAILABILITY FOR PUBLIC COMMENT
Draft Report: 2013 Regional SO2 Emissions and Milestone Report

New Mexico's state implementation plan for regional haze, adopted by the Environmental Improvement Board on November 18, 2003, requires that New Mexico coordinate with other states in producing an annual report to determine if emissions of sulfur dioxide from large industrial sources are less than the emissions milestone set in the plan.

The draft 2013 Regional SO2 Emissions and Milestone report is available for public comment and can be found at http://www.nmenv.state.nm.us/aqb/reghaz/regional-haze_index.html. If you want a hardcopy of this report please contact the New Mexico Air Quality Bureau at (505) 476-4357 or by mail at the address below.

The States and the WRAP will respond to any comments and then provide notice of the final availability of the report before submitting the report as final to the EPA.

The comment period closes at 5:00 p.m. on Monday, March 9, 2015. Comments postmarked on or before that date will be accepted. Comments may be submitted by electronic mail to norma.perez@state.nm.us or may be mailed to:
