Course Title: Risk Assessment & Emergency Response Plan Training Web-casts

APPROVED: 4.5 Training Credits for NM Water & Wastewater Operators

Brief description: In 2018, America's Water Infrastructure Act, (AWIA), was signed into law, which requires community drinking water systems serving more than 3,300 people to develop or update risk assessments and emergency response plans, (ERPs). These trainings will provide drinking water utilities with new detailed information on America's Water Infrastructure Act: Section 2013 & 2018. Participants will learn through the interactive Webcast the new risk assessment and emergency response plan requirements, deadlines, how to use the updated Vulnerability Self-Assessment Tool and the Emergency Response Plan Guidance and template. Finally, participants will be informed on the certification process requirements. More information is available online at: <https://www.epa.gov/waterresilience> .

REGISTRATION: <https://www.epa.gov/waterresilience/americas-water-infrastructure-act-risk-assessments-and-emergency-response-plans#TNG>

No less than (1) week prior to the event, participants will need to register via 'Eventbrite' to attend via webcast. Those registered for the remote training will receive an email with the webinar URL, instructions for connecting and troubleshooting guidance. Certificates of attendance will be emailed to attendees within one month of the training.

Course Title: **AWIA Guidance for Small Systems**

APPROVED: 1.0 Training Credits for NM Water & Wastewater Operators

Brief Description: The U.S. Environmental Protection Agency will conduct the “Small Systems Guidance for America’s Water Infrastructure Act of 2018” webinar tailored specifically to water utilities in the small systems category. The webinar will feature the newly released Small Systems Guidance checklist developed by the EPA. Panelists from the water sector will share their expertise on utilizing tools and resources that assist small systems with conducting comprehensive risk and resilience assessments and developing emergency response plans. The webinar will also introduce RCAP’s recently released E-Learning Modules and provide an overview of the Risk Assessment component of the series. “*Small Systems Guidance for America’s Water Infrastructure Act of 2018*” is the third webinar in an EPA series, titled “*Partnering for Security and Resilience*.” The Risk and Resilience Assessment submission deadline for water systems serving a population of 3,301 – 49,999 is June 30, 2021.
