

# Free Trainings on Consumer Confidence Reports

**Friday June 14, 2013,  
Either 8:30 – 11:30 or 1:30 – 4:30  
New Mexico Highlands University  
Donnelly Library Ground Floors/ITS**

**or**

**Tuesday June 18, 2013  
Either 8:30 – 11:30 or 1:30 – 4:30  
Pojoaque Middle School**

All Community Water Systems are required to create a Consumer Confidence Report (CCR) each year and make this report available to customers of the water system. July 1 is the deadline for annual distribution of the CCR (covering January 1 – December 31 of previous calendar year) to customers and the State Drinking Water Bureau.

This training will explain the requirements of the CCR and then lead each participant through the process of creating the CCR. **Participants will leave the training with a completed CCR** ready for distribution. We will use CCR iWriter, EPA's online CCR generator, to create the report. Data for the report will be obtained from Drinking Water Watch, DWB's publicly accessible water system database.

**Space is limited so you must register in advance.** To register, please call Rob Pine at (505) 222-9572 or send an email to [robert.pine@state.nm.us](mailto:robert.pine@state.nm.us).

**Directions to New Mexico Highlands University:** Take Las Vegas exit 345 and turn west onto University Ave. toward town. Follow University Ave. to 8<sup>th</sup> street and turn right. Park on the street as close to National Ave. (the next cross street) as you can. The Donnelly Library Ground Floors/ITS building is a short distance west of 8<sup>th</sup> street on National. There is also a general parking lot a block north of National and a little bit west of 8<sup>th</sup>. Go to the following link and click on the Campus Map link at the bottom of the page to view a map of NMHU:  
[www.nmhu.edu](http://www.nmhu.edu)

**Directions to Pojoaque Middle School:** Turn onto Highway 502 from Highway 285 toward Los Alamos. Take the first right into Pojoaque Middle School. Park at the first building which is called PVS West Wing. The training is in this building.

**This training is funded by the U.S. Environmental Protection Agency**
