

# Asset Management Workshop for Small Water Systems

Albuquerque, NM - February 24, 2016 - 9:00AM—4:00PM

CNM Workforce Training Center - Room 207, 5600 Eagle Rock Ave., Albuquerque, NM 87113

*Registration is required. Register online at [efcnetwork.org/upcoming](http://efcnetwork.org/upcoming), or mail in the form below.*

**Cost:** FREE | **CEUs:** This workshop has been submitted to the state for CEUs.

In the current climate of increasing regulations, decreasing revenues, and decreasing water resources, an asset management approach is vital. This workshop will provide you with tools to begin the process and understand the benefits. Asset Management helps you make decisions about how to operate, maintain, repair, rehabilitate, and replace utility assets and maintain a desired level of service at the lowest cost. You will learn how to:

- inventory all utility components;
- set goals for level of service;
- identify vital assets;
- address operations and maintenance, and asset replacement;
- calculate funds needed to maintain, rehabilitate, and replace assets.

**Audience:** Water systems serving 10,000 or fewer people (though systems of any size may attend), particularly local government systems facing financial challenges.

**Trainer:** Heather Himmelberger, Project Director, Southwest Environmental Finance Center

**Contact:** Matt Ziegler, 505-681-7435, [mattz@unm.edu](mailto:mattz@unm.edu)

The Smart Management for Small Water Systems program is administered by the Environmental Finance Center Network (EFCN), a university-based organization creating innovative solutions to the difficult how-to-pay issues of environmental protection and improvement.

**Workshop partners:**

Southwest  
Environmental  
Finance  
Center

New Mexico Environment Department,  
Drinking Water Bureau
