

## DRINKING WATER BUREAU TRAINING OPPORTUNITY

- Date: **September 9-10, 2008**
- Provider: New Mexico Environment Department-Drinking Water Bureau (NMED-DWB) and New Mexico Scientific Laboratory Division (SLD)
- Location: New Mexico Water and Wastewater Association (NMWWA) Central Short School,—University of New Mexico Continuing Education Building, **1634 University Blvd. NE, Albuquerque, NM**
- Topics: **SLD Field Trip and Presentations**  
(September 9, @ 8:00 am to 1:00 pm)
- Water Sampling Technician Certification Workshop**  
(September 10, @ 8:00 am to 3:00 pm)

This workshop will cover water sampling requirements for compliance with the Safe Drinking Water Act (SDWA), sample site plans, sample containers, sample collection, preservation, holding times and sample form completion. The New Mexico Water Sampling Certification Study Guide will be used as the text for the class. The class will also include a field trip to the New Mexico State Scientific Laboratory, where lab personnel will cover what happens to the sample once it is delivered to the lab. The class is designed to help students prepare for the Water Sample Technician Level 1 and Level 2 exams. Five (5) classroom training hours are required for both Level 1 and Level 2 certification. The field trip is recommended for Level 2 certification for an additional five (5) training credits.

**THIS IS A FREE TRAINING.** IF YOU ARE PLANNING TO ATTEND THIS WORKSHOP ONLY, YOU DO NOT HAVE TO REGISTER FOR THE ENTIRE NMWWA SHORT SCHOOL. **TO REGISTER FOR THE LAB FIELD TRIP OR WATER SAMPLING WORKSHOP CONTACT VIOLETTE VALERIO-HIRSCHFELD OF THE NMED-DWB AT (505) 222-9539.**

**If attending the SLD field trip, please meet at the WEST ENTRANCE of the UNM Continuing Education Building at 8:00 am**
