DP #	Facility/Applicant	Closest City	County	Notice	NMED Permit Contact
1525	<a href="#">San Mateo Enterprises</a>  Rosie Lack, Owner San Mateo Enterprises PO Box 274 Hatch, NM 87937	Hatch	Doña Ana	San Mateo Enterprises, Rosie Lack, Owner, proposes to renew and modify the Discharge Permit for the discharge of up to 7,000 gallons per day of wastewater generated by red chile processing. Wastewater is discharged to up to 7 acres of fallow fields for surface disposal. The modification consists of an increase in the maximum daily discharge volume from 5,000 to 7,000 gpd. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 7301 Hwy 26, approximately five miles southwest of Hatch, in Section 29, T19S, R04W, Doña Ana County. Ground water beneath the site is at a depth of approximately 150-300 feet and has a total dissolved solids concentration of approximately 300-400 milligrams per liter.	Naomi Davidson
1714	<a href="#">Rivas Mobile Park</a>  Isabel and Ralf Rivas, Owners Rivas Mobile Home Park 821 Watson Lane Las Cruces, NM 88005-3642	Las Cruces	Doña Ana	Rivas Mobile Park, Isabel and Ralf Rivas, Owners, propose to discharge up to 2,850 gallons per day of domestic wastewater is discharged to four septic tank/leachfield systems. Potential contaminants associated with this type of discharge include nitrogen compounds. The facility is located at 3889 Calle del Las Margaritas, approximately six miles east of Las Cruces, in Section 31, Township 23S, Range 2E, Doña Ana County. Ground water beneath the site is at a depth of approximately 21 feet and has a total dissolved solids concentration of approximately 783 milligrams per liter.	Russell Isaac
1721	<a href="#">River Oaks Mobile Park</a>  Britt Cowell, Owner River Oaks MHP 4690 Whispering Pines Las Cruces, NM 88007	Las Cruces	Doña Ana	River Oaks Mobile Park, Britt Cowell, Owner, proposes to discharge up to 4,082 gallons per day of domestic wastewater to four septic tank/leachfield systems. Potential contaminants associated with this type of discharge include nitrogen compounds. The facility is located at 4880 South Wilt Avenue, approximately six miles east of Las Cruces, in	Russell Isaac

				Section 24, Township 22S, Range 2E, Doña Ana County. Ground water beneath the site is at a depth of approximately 130 feet and has a total dissolved solids concentration of approximately 211 milligrams per liter.	
37	<a href="#">City of Hobbs- Wastewater Treatment Facility</a>  Tim Woomer, Utilities Director City of Hobbs 200 E. Broadway Hobbs, NM 88240	Hobbs	Lea	City of Hobbs-Wastewater Treatment Facility, Tim Woomer, Utilities Director, proposes to renew and modify the Discharge Permit for the discharge of up to 7.2 million gallons per day of domestic wastewater from the City of Hobbs's municipal wastewater treatment facility. Treated wastewater (reclaimed domestic wastewater) is used for irrigating 387.7 acres of City property, used for roadway construction projects and/or discharged to rapid infiltration basins for emergency disposal. Treated wastewater is also transferred to other entities operating under separate Discharge Permits. The modification consists of increasing the re-use acreage of City property from 126.7 acres to 387.7 acres. Potential contaminants associated with this type of discharge include nitrogen compounds. The facility is located at 1301 South 5 <sup>th</sup> Street, in Hobbs, in Section 2, T19S, R38E, Lea County. The reuse sites are located in Sections 2 and 11, T19S, R38E; Sections 1 and 12, T18S, R37E; Sections 6, 7, 8, 16, 17 and Section 21, T18S, R38E. The rapid infiltration basins are located in Section 2, T20S, R38E. Ground water most likely to be affected is at a depth of approximately 47 to 80 feet and has a total dissolved solids concentration of approximately 328 to 1,160 milligrams per liter.	Gerald Knutson
875	<a href="#">S&amp;H Enterprises, Inc.,</a>  Gary Schubert, President S&H Enterprises, Inc. P.O. Box 6056 Hobbs, NM 88241	Hobbs	Lea	S&H Enterprises, Inc., Gary Schubert, President, proposes to renew and modify the Discharge Permit for the discharge of up to 3.6 million gallons per day (MGD) of reclaimed domestic wastewater transferred from the City of Hobbs-Wastewater Treatment Facility to S&H Enterprises, Inc. to irrigate approximately 1,926.6 acres of cropland. The modification consists of a reduction in the acreage of spray irrigated cropland from 1,960 acres to 1,926.6 acres and the removal of 424 acres of drip irrigated cropland. Potential contaminants associated with this type of discharge include nitrogen compounds. The facility's entrance is located at 2826 East Nadine Road, approximately 3 miles southeast of Hobbs, in Sections 24,	Gerald Knutson

				25, and 26, T19S, R38E, and in Sections 18, 19, and 30, T19S, R39E, Lea County. Ground water beneath the site is at a depth of approximately 41 feet and has a total dissolved solids concentration of approximately 380 milligrams per liter.	
994	<a href="#">Rhino Environmental Services-Otero Facility</a>  Steve Dyer, President Rhino Environmental Services, Inc. P.O. Box 310 Canutillo, TX 79835	Newman	Otero	Rhino Environmental Services, Inc.-Otero Facility, Steve Dyer, President, proposes to renew the Discharge Permit for the discharge of up to 8,066 cubic yards of hydrocarbon contaminated soil and up to 100,000 gallons of hydrocarbon contaminated water at any one time for soil remediation and disposal by evaporation within a 10 acre landfarm. Potential contaminants associated with this type of discharge include organic compounds. The facility is located approximately one mile north of Newman in Section 28, Township 26 South, Range 06 East, Otero County. Ground water beneath the site is at a depth of approximately 350 feet and has a total dissolved solids concentration of approximately 1,000 milligrams per liter.	Steve Pedro
1051	<a href="#">Rhino Environmental Services, Inc.-Otero II Facility</a>  Steve Dyer, President Rhino Environmental Services, Inc. P.O. Box 310 Canutillo, TX 79835	Newman	Otero	Rhino Environmental Services, Inc.-Otero II Facility, Steve Dyer, President, proposes to renew the Discharge Permit for the discharge of up to 80,804 cubic yards of hydrocarbon contaminated soil and up to 120,000 gallons of hydrocarbon contaminated water at any one time for soil remediation and disposal by evaporation within a 160 acre landfarm. Potential contaminants associated with this type of discharge include organic compounds. The facility is located approximately one mile north of Newman in Section 22, Township 26 South, Range 06 East, Otero County. Ground water beneath the site is at a depth of approximately 350 feet and has a total dissolved solids concentration of approximately 1,000 milligrams per liter.	Steve Pedro
1408	<a href="#">Downs Trailer Park</a>  Raymond & Gloria Gallegos, Owners Downs Trailer Park P.O. Box 334 Espanola, NM 87532	Santa Fe	Santa Fe	Downs Trailer Park, Raymond and Gloria Gallegos, Owners, proposes to renew the Discharge Permit for the discharge of up to 4,500 gallons per day of domestic wastewater to two septic tank/leachfield systems. Potential contaminants associated with this type of discharge include nitrogen compounds. The facility is located approximately two miles south of Santa Fe, in the Carlson Subdivision off the I-25 Frontage Road, in Section 34, Township 16 North,	Steve Pedro

				Range 08 East, Santa Fe County. Ground water beneath the site is at a depth of approximately 40 feet and has a total dissolved solids concentration of approximately 335 milligrams per liter.
