342	<a href="#">Las Uvas Valley Dairies 1-5</a>  Dean Horton, Owner Las Uvas Valley Dairies HCR Box 400 Hatch, NM 87937	Hatch	Doña Ana & Luna	<p>Las Uvas Valley Dairies 1-5, Dean Horton, Owner, proposes to modify the Discharge Permit for the discharge of up to 103,000 gallons per day (gpd) of wastewater from the production area of a dairy facility. Wastewater is discharged from five milking parlors and the fresh/sick barn to a clay-lined lagoon system (Central Lagoon System) for storage prior to land application. The Central Lagoon System consists of three clay-lined solids settling lagoons and a clay-lined storage lagoon. Also, up to an additional 44,000 gpd of wastewater is transferred from the clay-lined lagoon system of Las Uvas Valley Dairy 6 (DP-967) for land application under this Discharge Permit (DP-342). Wastewater from the Central Lagoon System, in conjunction with wastewater transferred from Las Uvas Valley Dairy 6, is land applied by gated-pipe flood irrigation to 434 acres of irrigated cropland under cultivation. The modification consists of constructing a new clay-lined lagoon for solids settling. Potential contaminants associated with this type of discharge include nitrogen compounds. The facility is located at State Rd. 26 and Doña Ana Co. Rd. E001, approximately 10 miles west of Hatch, in Sections 5, 6, 7, 8 and 18, T20S, R4W and Sections 1, 12, and 13, T20S, R5W, Doña Ana and Luna Counties. Ground water beneath the site is at a depth of approximately 51 feet and has a total dissolved solids concentration of approximately 400 milligrams per liter.</p>	Jerry Schoeppner

Prior to ruling on any proposed Discharge Permit or its modification, the New Mexico Environment Department (NMED) will allow thirty days after the date of publication of this notice to receive written comments and during which time a public hearing may be requested by any interested person, including the applicant. Requests for public hearing shall be in writing and shall set forth the reasons why a hearing should be held. A hearing will be held if NMED determines that there is substantial public interest. Comments or requests for hearing should be submitted to the Ground Water Quality Bureau at PO Box 5469, Santa Fe, NM 87502-5469.
