PUBLIC NOTICE
Groundwater Discharge Permits Proposed for Approval
October 4, 2019

Dear Interested Party,

The New Mexico Environment Department (NMED) Ground Water Quality Bureau (GWQB) hereby provides notice that the following Groundwater Discharge Permits have been proposed for approval. NMED will allow 30 days after the date of publication of this notice (or as otherwise provided below) for submittal of written comments and/or a request for a public hearing for a permitting action. Requests for public hearing shall be in writing and shall set forth the reasons why a hearing should be held. A hearing will be held if NMED determines that there is substantial public interest. After the administrative record for a permitting action is complete and all required information is available, NMED will approve, approve with conditions, or disapprove the Permit based on the administrative record.

NMED maintains a Public Involvement Plan (PIP) for each permitting action to plan for providing public participation opportunities and information that may be needed for the community to participate in a permitting process. PIPs may be viewed on-line at https://www.env.nm.gov/gwqb/public-involvement-plans/, at the NMED field office nearest to the proposed permitted activity, or by contacting the NMED Permit Contact identified below. NMED also maintains facility-specific mailing lists for persons wishing to receive associated notices for a permitting action.

To learn more about a Discharge Permit and the permitting process, to be placed on a facility-specific mailing list, or to obtain a copy of a draft permit, contact the NMED Permit Contact at the number or address provided. Draft permits may be viewed on-line at https://www.env.nm.gov/gwqb/public-notice/. Comments or a request for hearing regarding a draft permit should be addressed to the GWQB, PO Box 5469, Santa Fe, NM 87502-5469, or emailed to the NMED Permit Contact.

If you are a non-English speaker, do not speak English well, or if you have a disability, you may contact the NMED Permit Contact to request assistance, an interpreter, or an auxiliary aid in order to learn more about a Discharge Permit or the permitting process, or to participate in activities associated with the permitting process. Requested interpretation services and accommodations or services for persons with disabilities will be arranged to the extent possible. Telephone conversation assistance is
available through Relay New Mexico at no charge for people who are deaf, hard of hearing, or have difficulty speaking on the phone, by calling 1-800-659-1779; TTY users: 1-800-659-8331; Spanish: 1-800-327-1857.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Parts 5 and 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED’s non-discrimination programs, policies or procedures, you may contact: Kristine Yurdin, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at https://www.env.nm.gov/non-employee-discrimination-complaint-page/ to learn how and where to file a complaint of discrimination.

Sincerely,

Lochlin Farrell
Ground Water Quality Bureau

Enclosure: Groundwater Discharge Permits Proposed for Approval
## Discharge Permit 727
### Closest City
Dexter
### County
Chaves
### Facility
Shawnee Dairy (Click this link to view the Draft Permit)
The Public Involvement Plan may be viewed online at [www.env.nm.gov/gwqb/public-involvement-plans/](http://www.env.nm.gov/gwqb/public-involvement-plans/) or at the NMED office in Roswell: 1914 W. Second St. Roswell, NM 88201
### Applicant
Larry Kamper
Owner
Shawnee Dairy
PO Box 220
Dexter, NM 88230
### NMED Permit Contact
Marc Bonem
Environmental Scientist
Acting Agriculture Team Leader
Marc.Bonem@state.nm.us
Telephone: 505-827-2791
Written comments or requests for a hearing for DP-727 accepted until 5:00 p.m. MST, November 11, 2019.

**Notice:** DP-727: Shawnee Dairy proposes to renew and modify the Discharge Permit for the discharge of up to 99,500 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 96 Shawnee Road approximately 3.5 miles west of Dexter, in Section 15, T13S, R25E, Chaves County. Groundwater most likely to be affected is at a depth of approximately 80 feet and had a pre-discharge total dissolved solids concentration of 1,200 milligrams per liter.

## Discharge Permit 1141
### Closest City
Lake Arthur
### County
Chaves
### Facility

Telephone: (505) 827-2791
Written comments or requests for a hearing for DP-1141 accepted until 5:00 p.m. MST, November 11, 2019.

**Notice:** DP-1141: Calico Farms, LLC proposes to renew and modify the Discharge Permit for the discharge of up to 250,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 8751 Roswell Highway, approximately 5.5 miles southwest of Lake Arthur, in Sections 32, 33, and 34, T15S, R25E, Chaves County. Groundwater most likely to be affected is at a depth of approximately 11 to 65 feet and had a pre-discharge total dissolved solids concentration of 2,000 milligrams per liter.
### Notice: **DP-1439**: Secondwind Dairy proposes to renew and modify the Discharge Permit for the discharge of up to 30,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 74 East Ottawa Rd, approximately 5 miles southwest of Hagerman, in Section 22, T14S, R25E, Chaves County. Groundwater most likely to be affected is at a depth of approximately 175 feet and had a pre-discharge total dissolved solids concentration of 610 milligrams per liter.

### Notice: **DP-703**: Texico Jerseys Dairy: Matt Ballou proposes to renew and modify the Discharge Permit for the discharge of up to 65,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 1251-1299 Curry Rd E, approximately 3 miles east of Clovis, in Section 31, T03N, R37E, Curry County. Groundwater most likely to be affected is at a depth of approximately 391 feet and had a pre-discharge total dissolved solids concentration of 264 milligrams per liter.
