**NOTICE OF INTENT TO APPROVE PROPOSED REVISION 32.0 OF THE SITE TREATMENT PLAN
FEDERAL FACILITY COMPLIANCE ORDER 2021 ANNUAL SITE TREATMENT PLAN UPDATE
LOS ALAMOS NATIONAL LABORATORY**

The State of New Mexico is authorized to operate a hazardous waste management program in lieu of the federal program for most provisions of the federal Resource Conservation and Recovery Act (RCRA). The Federal Facilities Compliance Act (FFCA) is codified in RCRA §6001. Under the authority of the New Mexico Hazardous Waste Act, NMSA 1978, Sections 74-4-1 to -14 (1953, as amended through 2018), and the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC), the New Mexico Environment Department (NMED) may issue a Federal Facility Compliance Order (FFCO) to federal facilities located within New Mexico's borders.

On October 4, 1995, NMED issued an FFCO to the United States Department of Energy (DOE) and Regents of the University of California (UC) (collectively, the Respondents). Los Alamos National Security, LLC (LANS) replaced UC as a co-operator in 2006. In 2019, Los Alamos Newport Nuclear BWXT-Los Alamos LLC, (N3B) and Triad National Security LLC (Triad) replaced LANS as the co-operators. The FFCO requires compliance with the Site Treatment Plan (STP) Compliance Plan Volume (CPV) for the treatment and disposal of mixed waste at Los Alamos National Laboratory (LANL). The Respondents must comply with the New Mexico Hazardous Waste Act, Sections 74-4-1 to -14 and Section 3012(b) of RCRA, 42 U.S.C. §6939(c), as amended by the FFCA of 1992, Public Law 102-386, 106 Stat. 1505 (1992). In accordance with Section X, "Revisions" of the FFCO, all proposed or required revisions shall be made available to the public for review at appropriate locations.

Revisions to the FFCO include, but are not limited to, changes in the covered mixed waste inventories and compliance dates reported in the STP Fiscal Year (FY) Update reports received by NMED since the FFCO was issued on October 4, 1995.

Revision 32.0 includes:

1. A description of deleted STP wastes which were shipped offsite for treatment, disposal, or recycling or were otherwise determined to not be mixed waste. These covered wastes are included in Appendix B, Appendix F, and Appendix G.
2. Addition of newly covered waste, which includes wastes placed in storage during FY2020 and were proposed to become covered wastes in FY2021. A description of this waste is included in Section 6.1 and is included in Appendix E.
3. Administrative adjustments as a result of addition of newly identified covered waste and transfer of waste to other treatability groups in FY2021, are included in Appendices A, C, E, and G.
4. New milestone dates for three waste activities:
(1) Waste Activity Table 3.3.4-2(A) changed from September 30, 2022, to September 30, 2025;
(2) Waste Activity Table 3.3.4-2(B)) changed from September 30, 2022, to September 30, 2025;

and

(3) Waste Activity Table 4.0-1(a) changed from November 30, 2022, to November 30, 2025.

NMED may approve, approve with modifications, or disapprove the proposed revision. Pending public input, NMED intends to approve the requested revision.
