Class 1 Permit Modification Request to Update Permit Attachment L, Listing of Off-site Facilities, Los Alamos National Laboratory Hazardous Waste Facility Permit

This document consists of a Class 1 permit modification request to update the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) issued to the United States Department of Energy (DOE) National Nuclear Security Administration, Los Alamos Field Office (NA-LA), in association with Triad National Security, LLC (Triad). Proposed changes are shown in redline strikeout within Permit Attachment L, *Listing of Off-Site Facilities*. A signed certification, as required by Title 40 of the Code of Federal Regulations (40 CFR) § 270.11, is also provided.

Description

The purpose of this modification is to add an off-site facility to the list of facilities referenced in Permit Section 2.2.1, *Hazardous Waste from Off-Site Sources*, and include the facility as part of the list in Permit Attachment L, *Listing of Off-Site Facilities*. The proposed changes are presented in redline and attached here as Redline Text to Permit Attachment L.

The permit conditions of Permit Section 2.2.1 outline the requirements for acceptance of waste at LANL hazardous waste management units from off-site facilities. DOE-Triad do not anticipate the need to receive treatment-derived waste or waste treatment residues back from the Idaho National Laboratory; however, prior to shipment to the facility, the update is proposed as an addition to the list in Permit Attachment L. It is anticipated that oversized mixed waste will be sent to the Advanced Mixed Waste Treatment Project for treatment and ultimate shipment to a disposal facility.

Basis

The proposed modification has been prepared in accordance with 40 CFR § 270.42(a)(2). This Class 1 permit modification request consists of administrative and informational changes in accordance with 40 CFR § 270.42, Appendix I, Item (A)(1). Pursuant to Permit Section 2.2.1, *Hazardous Waste from Off-Site Sources*, this modification is submitted as a Class 1 permit modification request.

Discussion of Changes

Revision to Permit Attachment L, *Listing of Off-Site Facilities*, is provided in redline-strikeout format and reflects the addition of the Idaho National Laboratory to the list of off-site facilities.
