RE: APPROVAL
CLASS 1 PERMIT MODIFICATION REQUEST TO UPDATE PERMIT ATTACHMENT L, LISTING OF
OFF-SITE FACILITIES
EPA ID#NM0890010515
HWB-LANL-25-041

Dear Theodore Wyka, and Steven Coleman:

On July 10, 2025, the New Mexico Environment Department (NMED) received the United States Department of Energy (DOE), Triad National Security (Triad), LLC, and Newport News Nuclear BWXT-Los Alamos, LLC (N3B) (collectively referred to as the Permittees) *Class 1 Permit Modification Request to Update Permit Attachment L, Listing of Off-site Facilities*, (Request) referenced by ALDESHQ-25-026/LA-UR-25-25417.

The Permittees have provided this Request in accordance with the Code of Federal Regulations (CFR), Title 40, 270.42(a)(2), for a Class 1 permit modification without prior approval, and pursuant to Permit Section 2.2.1, *Hazardous Waste from Off-Site Sources*. NMED has reviewed the Request and determined that it conforms with 40 CFR 270.42, Appendix I Item A.1 since the modification consists solely of administrative and informational changes.

NMED has reviewed the Request and has updated the Los Alamos National Laboratory Hazardous Waste Facility Permit (Permit) to incorporate the approved changes described in the Request. NMED has modified Attachment L, *List of Off-Site Waste Management Facilities that May Return Treatment-Derived Waste or Waste Residuals to the Los Alamos National Laboratory* to add Idaho National Laboratory, Advanced Mixed Waste Treatment Project (AMWTP) Idaho Falls, ID to the list.

An electronic version of the Permit that incorporates the modification will be sent to the Permittees via electronic mail, and the modified Permit will also be available on the NMED Hazardous Waste Bureau's website at: <https://www.env.nm.gov/hazardous-waste/lanl-permit/>
