

New Mexico Environment Department

2020, Liquid Program Process Flow Charts

Michael Broussard, Acting Liquid Waste Program Manager

Bill Chavez, Bureau Chief, Environmental Health Bureau

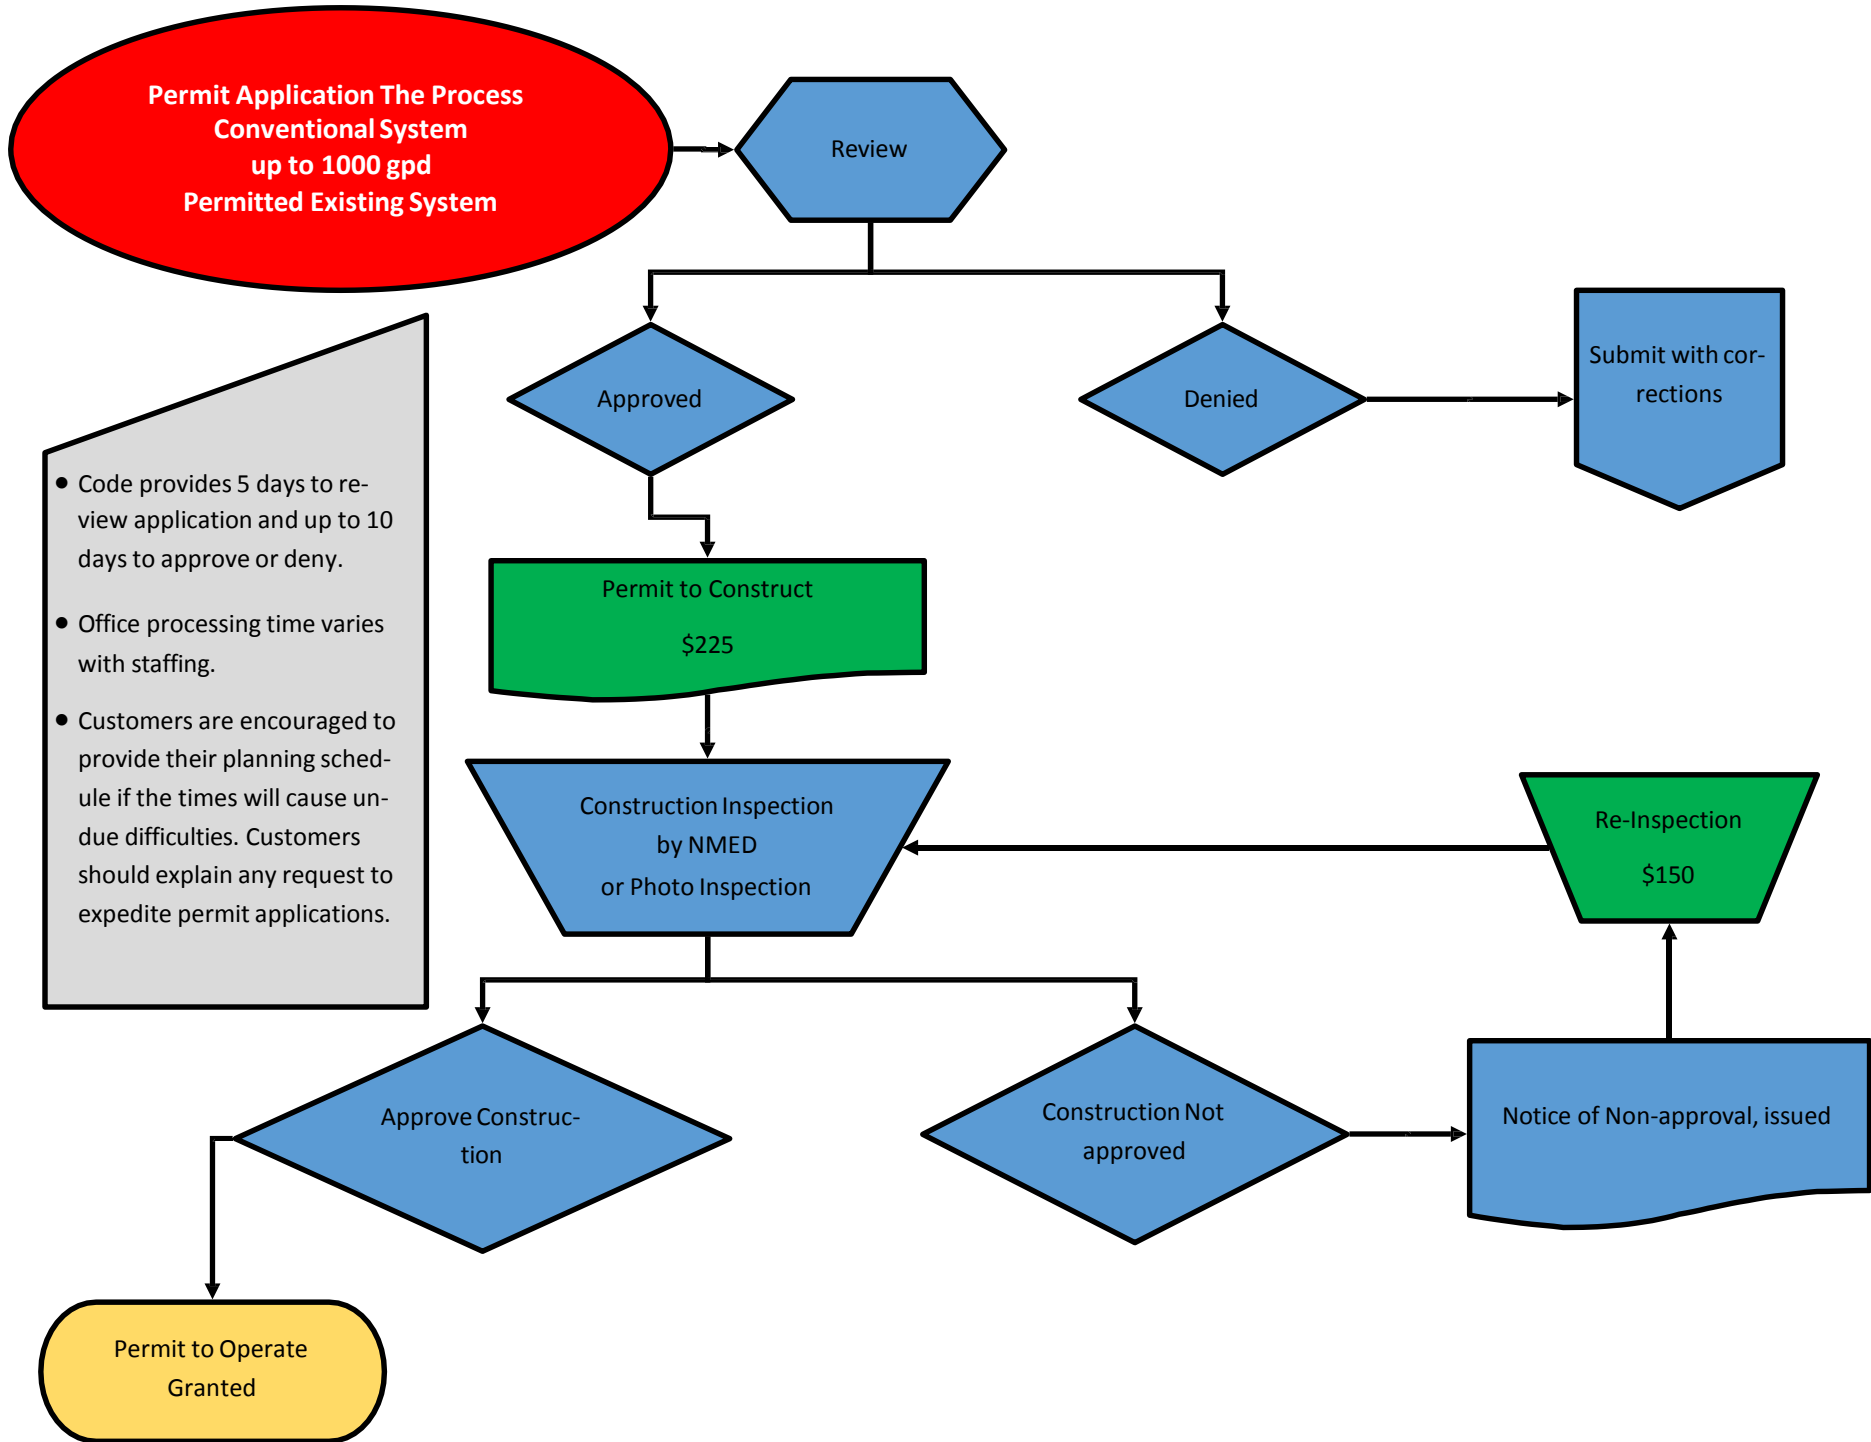

July 7, 2020

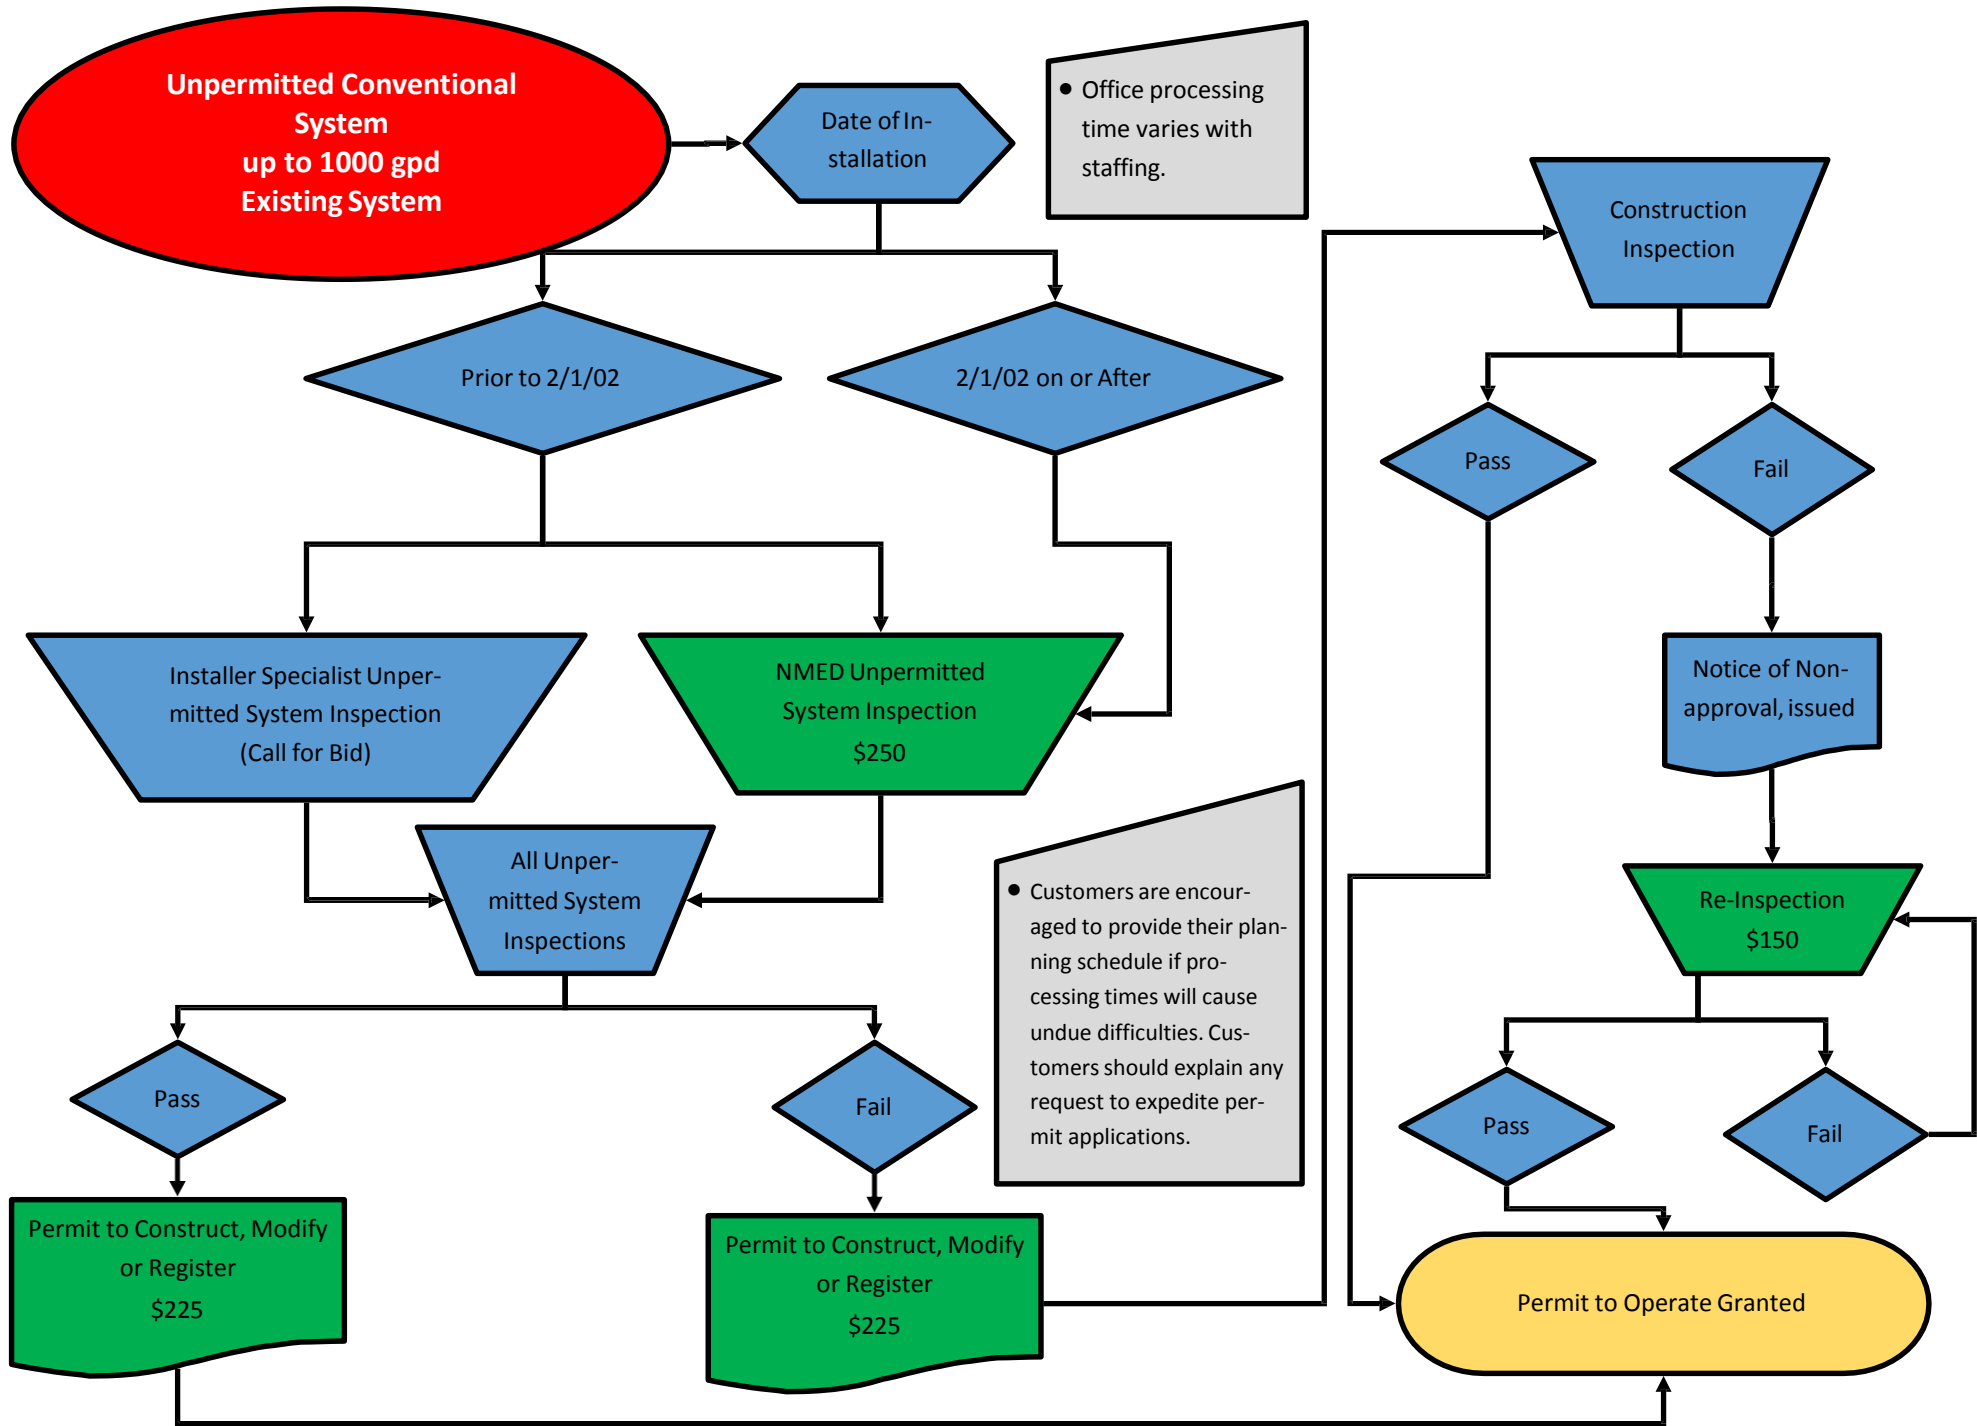

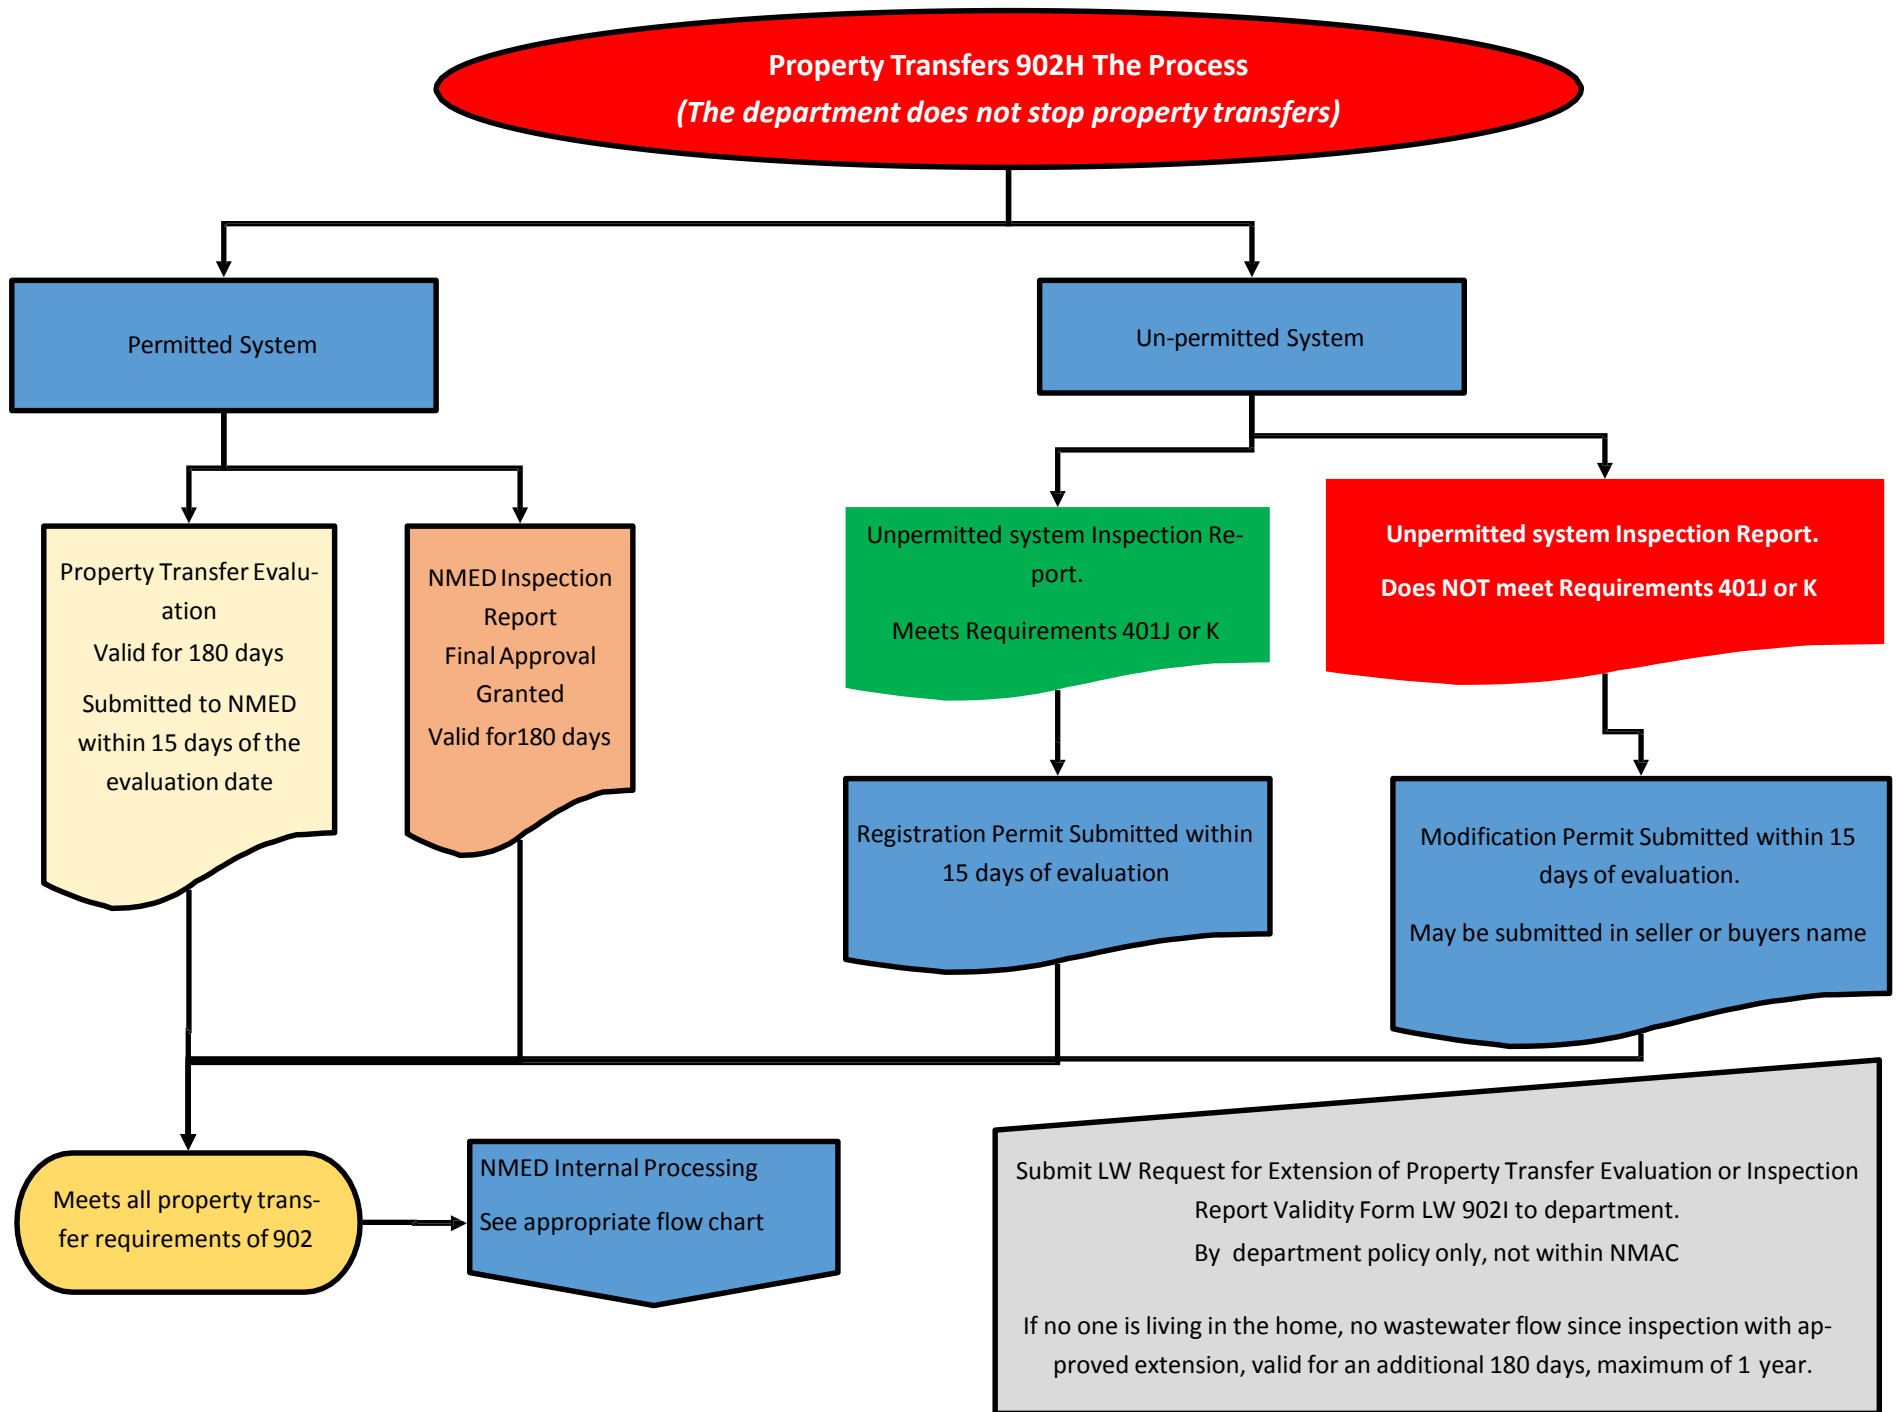

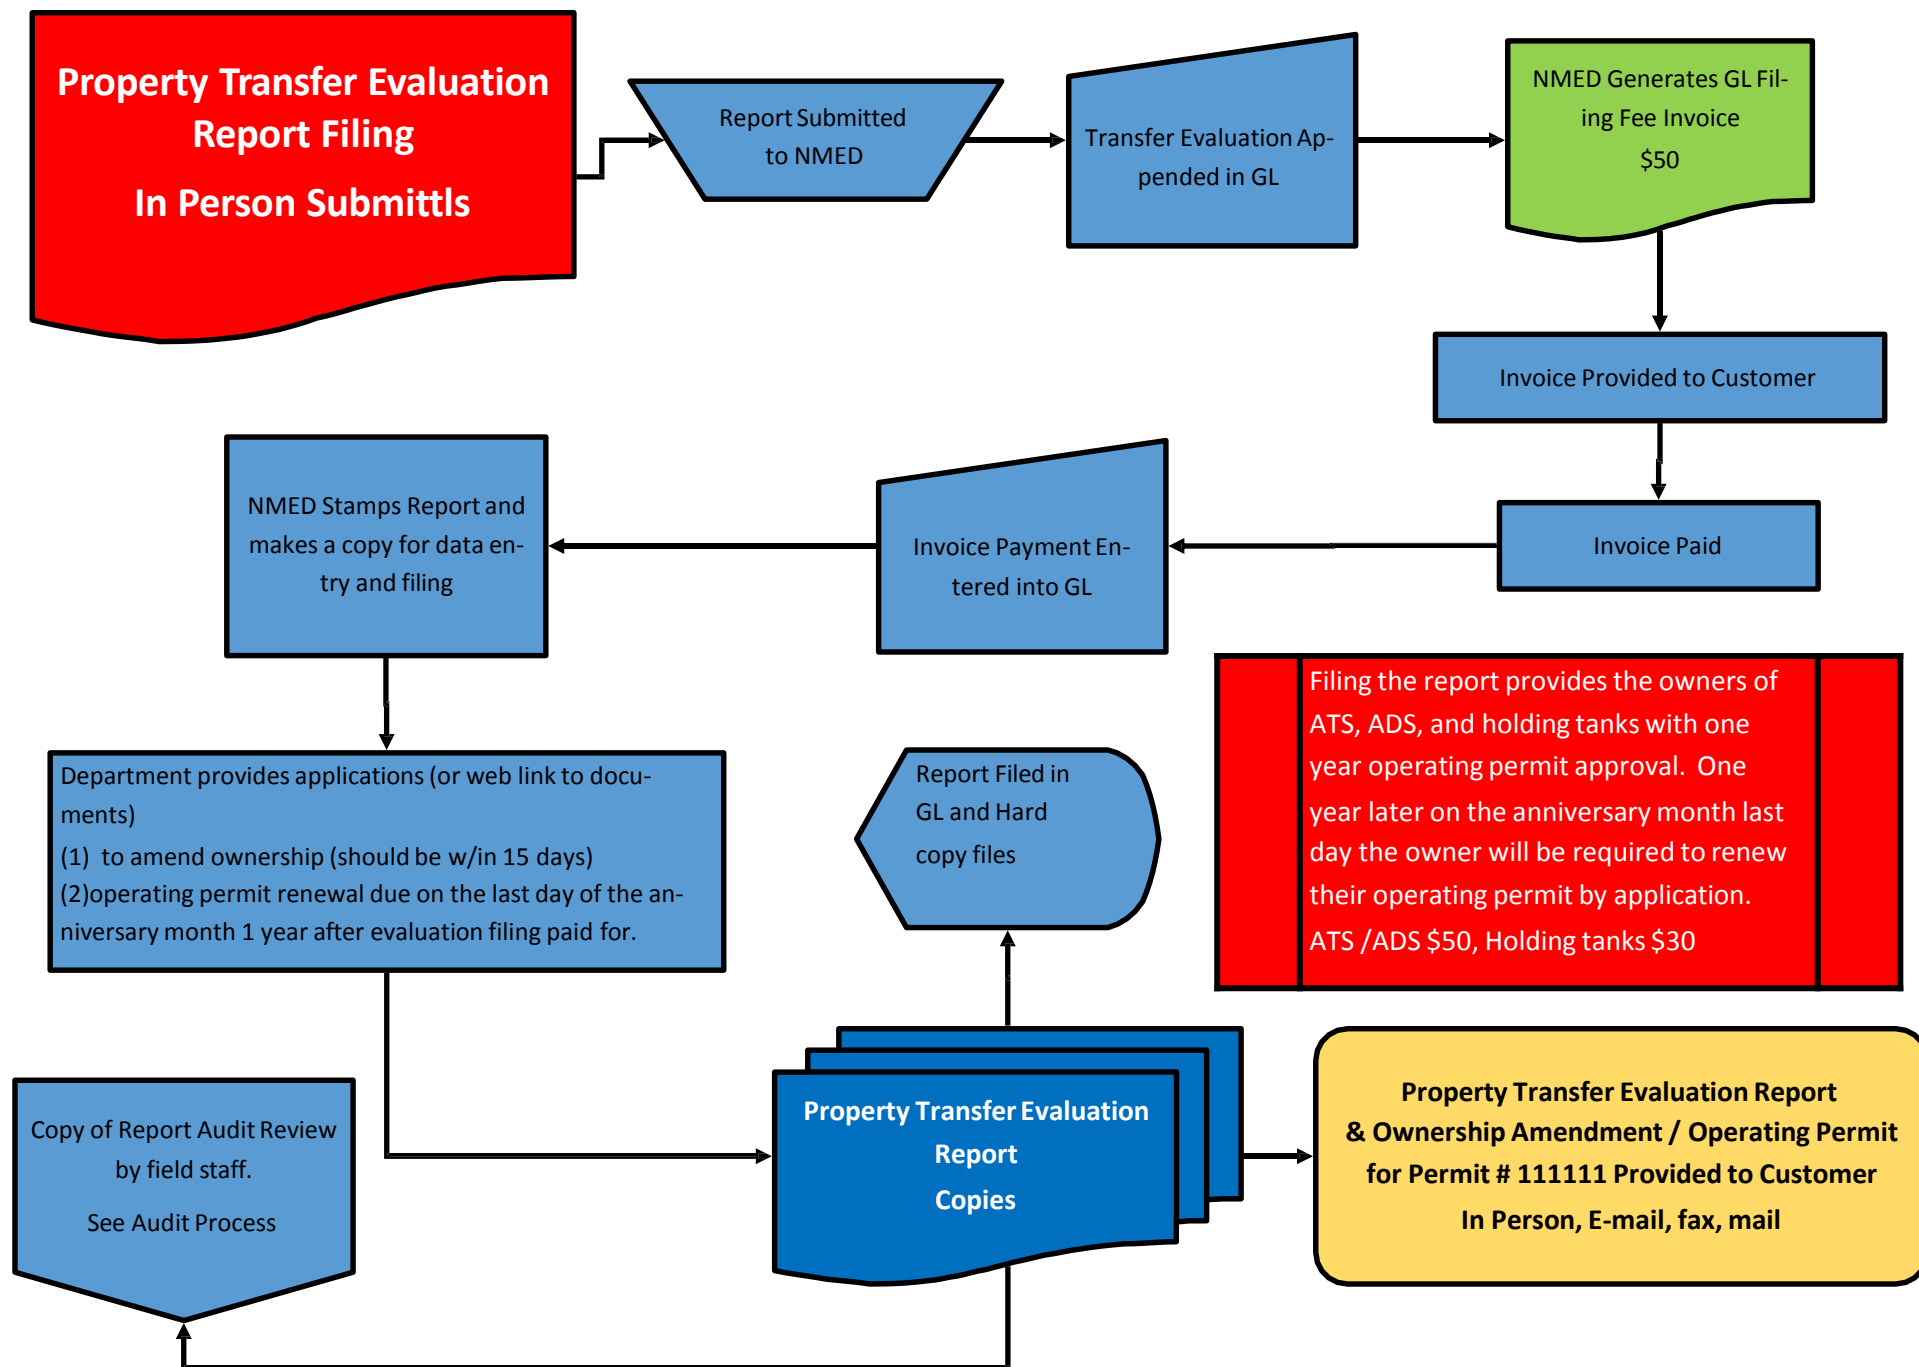

Objectives

- The flow charts provide a planning guideline for Liquid Waste Program customers
- The flow charts are not intended to set policy or requirements
- The flow charts help the reader understand the process and become familiar with steps and terminology

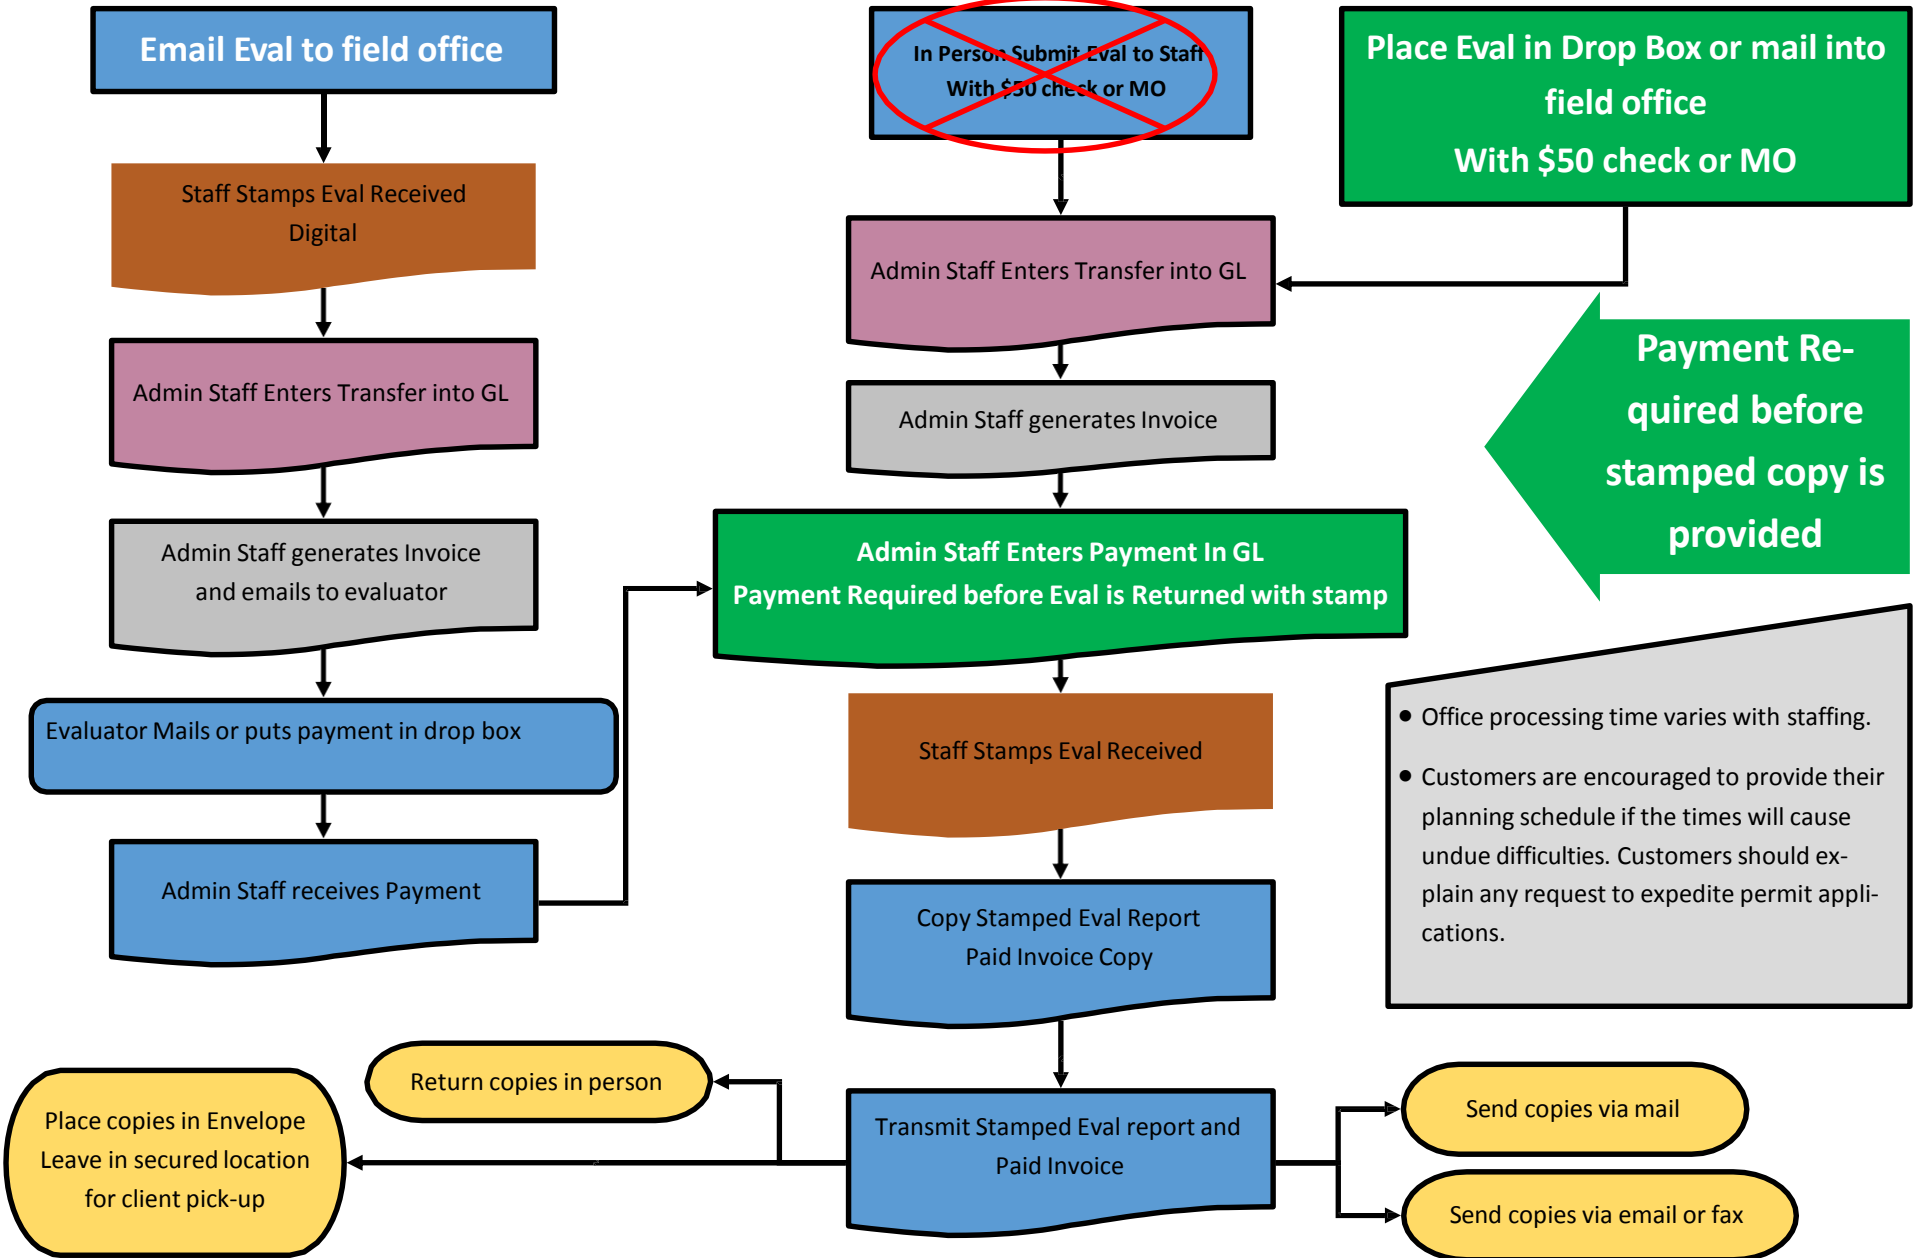

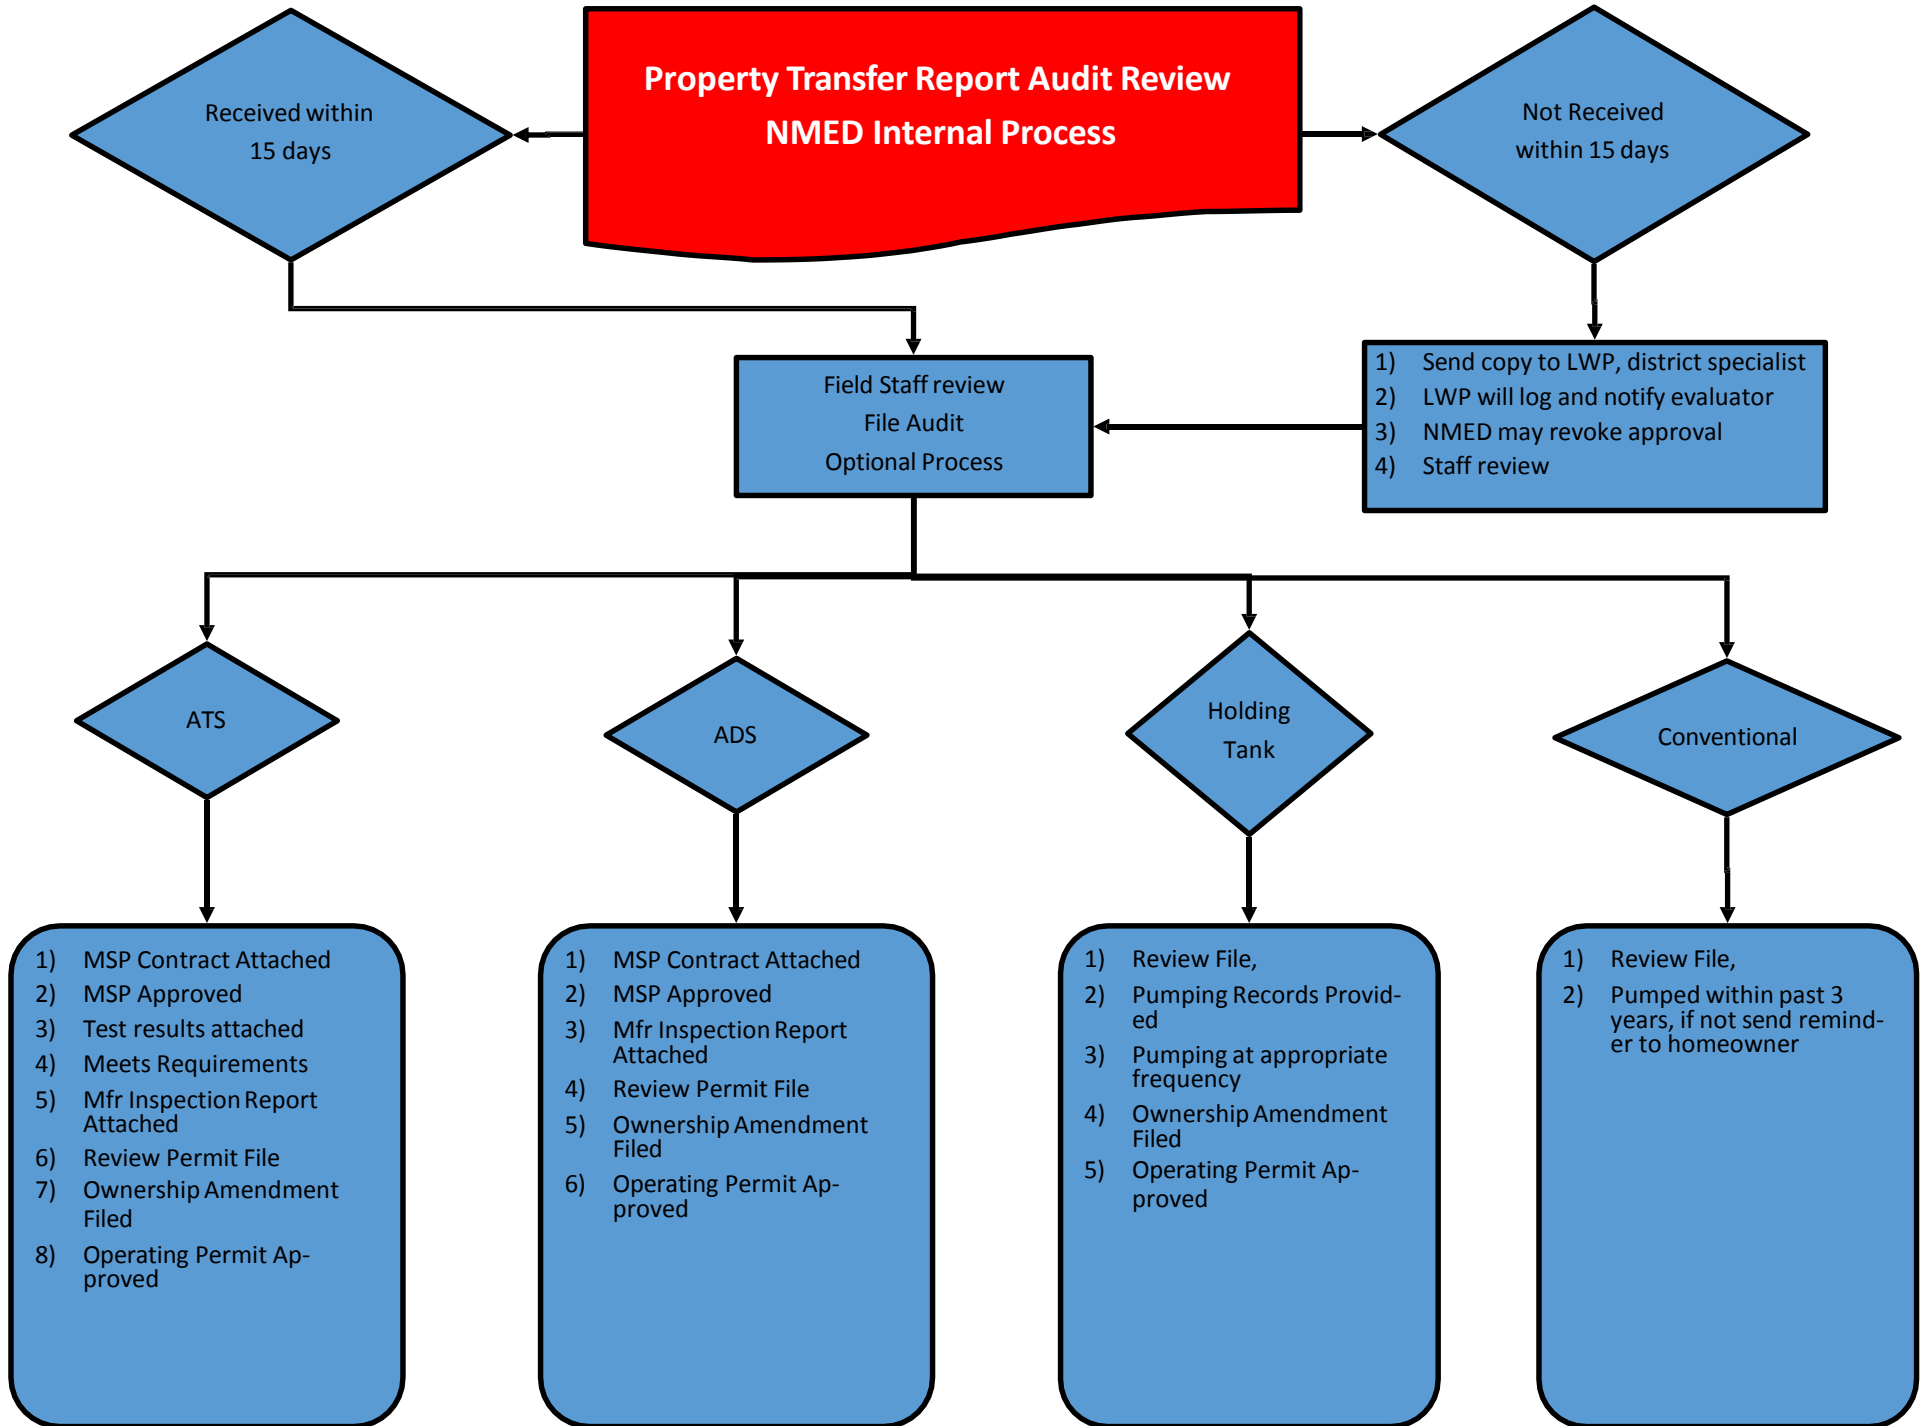

Filing the report provides the owners of ATS, ADS, and holding tanks with one year operating permit approval. One year later on the anniversary month last day the owner will be required to renew their operating permit by application. ATS /ADS \$50, Holding tanks \$30

Property Transfer Evaluation Report & Ownership Amendment / Operating Permit for Permit # 111111 Provided to Customer In Person, E-mail, fax, mail

Property Transfers Evaluation Report Filing (3 day process for COVID-19 Protocol Period)
