

Wastewater Technical Advisory Committee (WTAC)

Now seeking applicants for five vacancies on the WTAC:

- (1) a wastewater treatment system engineer with at least ten years of experience in wastewater system design and construction;
- (2) a faculty member from a university or college located within New Mexico with a minimum of a master's degree in biological science, microbiology, soil science or engineering, and with a minimum of ten years of work or academic experience with wastewater treatment or wastewater treatment facility management;
- (3) a representative from the New Mexico State University Water Utilities Technical Assistance Program;
- (4) a class IV certified wastewater operator with at least ten years of experience; and
- (5) a representative from the New Mexico Home Builders Association.

The WTAC, established by Section 9-7A-15 NMSA 1978, meets at least four times a year to evaluate wastewater technologies, and provides standardized objective evaluations of wastewater treatment and disposal technologies for both large-and small-flow domestic, commercial and agricultural wastewater systems. The WTAC submits its findings to the cabinet secretary of the New Mexico Environment Department (NMED) for approval. Members are reimbursed pursuant to the Per Diem and Mileage Act, Chapter 10, Article 8 NMSA 1978, for attending meetings.

Membership on the WTAC will commence immediately upon appointment by the cabinet secretary of NMED and will expire on July 30, 2027. To apply, please send a letter of interest, resume, and which position you are applying for by mail or email to:

William Chavez, Environmental Health Bureau Chief
New Mexico Environment Department
121 Tijeras Ave. NE, Suite 1000
Albuquerque, NM 87102
William.Chavez@env.nm.gov
