Please add my name and the name of my organization, Clean Air for All Now!, to the list of those opposing the WATR Alliance petition to re-litigate the Water Quality Control Commission's rule regarding produced water from fracking. Many individuals have clearly stated the obvious reasons for opposing this petition. Having read material from others about this underhanded effort by the WATR Alliance, I conclude that what will be considered by the WQCC Commission on August 12 is an open and shut case which should be dismissed quickly rather than wasting the Commission's valuable time. Thus, the Commission can focus instead on actually important matters relevant to its responsibilities.

Sincerely,
Dennis J. O'Mara, Co-Chair
