

TITLE 20 ENVIRONMENTAL PROTECTION
CHAPTER 13 PER- AND POLY-FLUOROALKYL SUBSTANCES IN CONSUMER PRODUCTS
PART 2 PROHIBITIONS ON PRODUCTS CONTAINING PER- OR POLY-FLUOROALKYL
SUBSTANCES; CURRENTLY UNAVOIDABLE USE; REPORTING; LABELING;
TESTING; FEES AND PENALTIES

20.13.2.1 ISSUING AGENCY: Environmental Improvement Board
[20.13.2.1 NMAC – N, 07/01/2026]

20.13.2.2 SCOPE: This part applies to manufacturers, distributors, and retailers that sell, offer for sale, distribute or distribute for sale in the state of New Mexico, directly or indirectly or through intermediaries, certain products to which per- or poly-fluoroalkyl substances (PFAS) are intentionally added.
[20.13.2.2 NMAC – N, 07/01/2026]

20.13.2.3 STATUTORY AUTHORITY: Statutory Authority comes from the Environmental Improvement Act, Sections 74-1-1 NMSA 1978 et seq., the Per- and Poly-Fluoroalkyl Substances Protection Act, Sections 74-15-1 NMSA 1978 et seq., and the Department of Environment Act, Sections 9-7A-1 NMSA 1978 et seq.
[20.13.2.3 NMAC – N, 07/01/2026]

20.13.2.4 DURATION: Permanent.
[20.13.2.4 NMAC – N, 07/01/2026]

20.13.2.5 EFFECTIVE DATE: July 1, 2026, unless a later date is cited at the end of a section.
[20.13.2.5 NMAC – N, 07/01/2026]

20.13.2.6 OBJECTIVE: The objective of this part is to establish rules for the prohibition of certain products that contain an intentionally added per- or poly-fluoroalkyl substance, for the reporting of information and testing of products sold, offered for sale, distributed or distributed for sale in New Mexico that contain intentionally added per- and poly-fluoroalkyl substances, and for the labeling of certain products sold, offered for sale, distributed or distributed for sale in New Mexico that contain intentionally added per- and poly-fluoroalkyl substances. In addition, the objective of this part is to establish fees for mandatory reporting and applications for currently unavoidable use designations. Further, this part establishes provisions for enforcement, penalties and administrative costs related to violations of the Per- and Poly-Fluoroalkyl Substances Protection Act, Sections 74-15-4 NMSA 1978 et seq. Penalties, fees, and administrative costs paid are for deposit into the recycling and illegal dumping fund.
[20.13.2.6 NMAC – N, 07/01/2026]

20.13.2.7 DEFINITIONS: The definitions in the Per- and Poly-Fluoroalkyl Substances Protection Act, Section 74-15-2 NMSA 1978 shall apply in this part. The following terms, as used in this part, have the following meanings:

A. “brand name” means a name, symbol, word, or mark that identifies a product, and attributes the product to the owner of the brand;

B. “commercially available analytical method” means any test methodology used by a laboratory that performs analyses or tests for third parties to determine the concentration of per- and poly-fluoroalkyl substances in a product or a methodology which is publicly available or available for purchase. Commercially available analytical methods do not need to be performed at a third-party laboratory; however, the method must remain unmodified. Laboratories performing commercially available analytical methods must be certified by the department or by a national or regional certifying authority recognized by the department;

C. “complex durable good” means a product that is a manufactured good composed of 100 or more manufactured components, with an intended useful life of five or more years, where the product is typically not consumed, destroyed, or discarded after a single use;

D. “consumer” means an individual, partnership, corporation, state agency, or a subdivision or agency of the state who seeks or acquires by purchase or lease, any goods or services;

E. “consumer information” means warnings, directions for use, ingredients lists, and nutritional information. “Consumer information” does not include the brand name, product name, company name, location of manufacturer, or product advertising;

1 **F. "consumer packaging"** means packaging constituting, with its contents, a sales unit to the final
2 user or consumer at the point of retail. Also referred to as retail packaging, sales packaging, or primary packaging;
3 **G. "distribute for sale"** means to ship or otherwise transport a product with the intent or
4 understanding that it will be sold or offered for sale in New Mexico by a receiving party subsequent to its delivery;
5 **H. "labeling"** means any written, printed, graphic, or electronically provided communication that
6 accompanies a product, such as a package insert;
7 **I. "legible"** means capable of being read by a person with normal vision;
8 **J. "product class"** means a group of products that share similar essential physical characteristics,
9 function and may be substitutable;
10 **K. "product label"** means a display of written, printed, or graphic material that appears on, or is
11 affixed to, the exterior of a product, or its exterior container or wrapper that is visible to a consumer, if the product
12 has an exterior container or wrapper;
13 **L. "publicly available"** means information that is lawfully made available to the general public from
14 federal, state, or local government records, widely distributed media, or disclosures made to the general public that
15 are required by federal, state, or local law;
16 **M. "retailer"** means any person or business that sells or otherwise provides products containing
17 intentionally added per- and poly-fluoroalkyl substances in New Mexico, including persons who sell directly to
18 consumers and persons who sell to others for resale by any means, including via the internet;
19 **N. "significant change"** means a change in the composition of a product that results in the
20 intentional addition of a specific per- and poly-fluoroalkyl substance; a change in the amount of per- and poly-
21 fluoroalkyl substances of more than a 10 percent increase, above the method variability allowed by the
22 commercially available analytical method used, of the concentration that has been reported when compared to the
23 existing notification; or a change in responsible official or contact information. Significant change includes when
24 information used to obtain a waiver is no longer accurate;
25 **O. "substantially equivalent information"** means information that the department can reasonably
26 identify as conveying the same information required in Section 20.13.2.12 of this rule. Substantially equivalent
27 information must all be in a single document or location. Substantially equivalent information may include an
28 existing notification by a person who manufactures a product or product component when the same product or
29 product component is offered for sale under multiple brands;
30 **P. "used"** means the condition of a product having been installed, operated, or utilized for its
31 intended purpose by at least one owner or operator. Used does not apply to a product that has been returned to a
32 retailer or that is otherwise offered for resale without the product having been installed, operated, or utilized.
33 [20.13.2.7 NMAC – N, 07/01/2026]

34
35 **20.13.2.8 SEVERABILITY:** If any provision or application of this part is held invalid, the remainder, or its
36 application to other situations or persons, shall not be affected.
37 [20.13.2.8 NMAC – N, 07/01/2026]
38

39 **20.13.2.9 PROHIBITIONS ON PRODUCTS CONTAINING PER- OR POLY-FLUOROALKYL**
40 **SUBSTANCES:** This section pertains to the prohibition of the sale, offering for sale, distribution, or offering for
41 distribution of certain products containing intentionally added per- or poly-fluoroalkyl substances. Manufacturers
42 are responsible for determining if their products contain an intentionally added per- or poly-fluoroalkyl substance as
43 enumerated in Sections 20.13.2.9.A through 20.13.2.9.C of this part.

44 **A.** Except as provided in Section 20.13.2.10 of this rule, beginning January 1, 2027, a manufacturer
45 may not sell, offer for sale, distribute or distribute for sale in this state, directly or indirectly or through
46 intermediaries, the following products if that product contains an intentionally added per- or poly-fluoroalkyl
47 substance:

- 48 (1) cookware;
- 49 (2) food packaging;
- 50 (3) dental floss;
- 51 (4) juvenile products; and
- 52 (5) firefighting foam.

53 **B.** Except as provided in Section 20.13.2.10 of this rule, beginning January 1, 2028, a manufacturer
54 may not sell, offer for sale, distribute or distribute for sale in this state, directly or indirectly or through
55 intermediaries, the following products if that product contains an intentionally added per- or poly-fluoroalkyl
56 substance:

- (1) carpets or rugs;
- (2) cleaning products;
- (3) cosmetics;
- (4) fabric treatments;
- (5) feminine hygiene products;
- (6) textiles;
- (7) textile furnishings;
- (8) ski wax; and
- (9) upholstered furniture.

C. Except as provided in Section 20.13.2.10 of this rule, beginning January 1, 2032, a manufacturer may not sell, offer for sale, distribute or distribute for sale in this state, directly or indirectly or through intermediaries, a product containing an intentionally added per- or polyfluoroalkyl substance, unless the board has adopted a rule providing that the use of the per- or poly-fluoroalkyl substance in that product is a currently unavoidable use or is or otherwise exempt pursuant to Section 20.13.2.11 of this rule.

D. On or after January 1, 2028, a manufacturer may not sell, offer for sale, distribute or distribute for sale in this state, directly or indirectly or through intermediaries, a product if testing requested by the department, as enumerated in Section 20.13.2.14 of this rule, demonstrates that the product contains an intentionally added per- or poly-fluoroalkyl substance and the manufacturer has failed to provide the department the information required by Section 20.13.2.12 of this rule.

E. On or after January 1, 2028, a manufacturer, trade association, or other responsible party may not sell, offer for sale, distribute or distribute for sale in this state, directly or indirectly or through intermediaries, a product that contains an intentionally added per- or poly-fluoroalkyl substance unless the manufacturer has submitted to the department the information required by Section 20.13.2.12 of this rule.
[20.13.2.9 NMAC – N, 07/01/2026]

20.13.2.10 EXEMPTIONS: The following are exempt from the requirements in Sections 20.13.2.11, 20.13.2.12, and 20.13.2.14 (limited to medical devices outlined in 20.13.2.10.C) of this rule:

A. a product for which federal law governs the presence of a per- or poly-fluoroalkyl substance in the product in a manner that preempts state authority;

B. used products offered for sale or resale;

C. medical devices or drugs and the packaging of the medical devices or drugs that are regulated by the United States food and drug administration, including prosthetic and orthotic devices;

D. cooling, heating, ventilation, air conditioning or refrigeration equipment that contains intentionally added per- or poly-fluoroalkyl substances or refrigerants listed as acceptable, acceptable subject to use conditions or acceptable to narrowed use limits by the United States environmental protection agency pursuant to the significant new alternatives policy program, 40 Code of Federal Regulations, Part 82, Subpart G and sold, offered for sale, distributed or distributed for sale for the use for which the refrigerant is listed pursuant to that program;

E. a veterinary product and its packaging intended for use in or on animals, including diagnostic equipment or test kits and the veterinary product's components and any product that is a veterinary medical device, drug, biologic or parasiticide or that is otherwise used in a veterinary medical setting or in veterinary medical applications that are regulated by or under the jurisdiction of:

(1) the United States food and drug administration;

(2) the United States department of agriculture pursuant to the federal Virus-Serum-Toxin

Act; or

(3) the United States environmental protection agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), except that any such products approved by the United States environmental protection agency pursuant to that law for aerial and land application are not exempt from this section;

F. a product developed or manufactured for the purpose of public health or environmental or water quality testing;

G. a motor vehicle or motor vehicle equipment regulated under a federal motor vehicle safety standard, as defined in 49 United States Code, Section 30102(a)(10), except that the exemption under this paragraph does not apply to any textile article or refrigerant that is included in or as a component part of such products;

H. any other motor vehicle, including an off-highway vehicle or a specialty motor vehicle, such as an all-terrain vehicle, a side by-side vehicle, farm equipment or a personal assistive mobility device;

I. a watercraft, an aircraft, a lighter-than air aircraft or a seaplane;

- 1 **J.** a semiconductor, including semiconductors incorporated in electronic equipment, and materials
2 used in the manufacture of semiconductors;
- 3 **K.** non-consumer electronics and non-consumer laboratory equipment not ordinarily used for
4 personal, family or household purposes;
- 5 **L.** a product that contains intentionally added per- or poly-fluoroalkyl substances with uses that are
6 currently listed as acceptable, acceptable subject to use conditions or acceptable subject to narrowed use limits in the
7 United States environmental protection agency's rules under the significant new alternatives policy program;
8 provided that the product contains per- or poly-fluoroalkyl substances that are being used as substitutes for ozone-
9 depleting substances under the conditions specified in the rules;
- 10 **M.** a product used for the generation, distribution or storage of electricity;
- 11 **N.** equipment directly used in the manufacture or development of the products described in
12 Paragraphs A through M of this section;
- 13 **O.** a product for which the board has adopted a rule providing that the use of the per- or poly-
14 fluoroalkyl substances in that product is a currently unavoidable use; or
- 15 **P.** a product that contains fluoropolymers consisting of polymeric substances for which the backbone
16 of the polymer is either a per- or polyfluorinated carbon-only backbone or a perfluorinated polyether backbone that
17 is a solid at standard temperature and pressure.
- 18 **Q.** a pesticide that is regulated by or under the jurisdiction of the Federal Insecticide, Fungicide, and
19 Rodenticide Act.

20 [20.13.2.10 NMAC – N, 07/01/2026]

21
22 **20.13.2.11 CURRENTLY UNAVOIDABLE USE:** This section provides directions for submitting CUU
23 proposals.

24 **A.** Proposals for currently unavoidable use (“CUU”) determinations may be submitted by
25 manufacturers individually or collectively. A separate proposal must be submitted for each individual combination of
26 product category and the associated industrial sector (i.e., North American Industry Classification System (NAICS)
27 code). Proposals will be submitted using the department’s online submission portal. For initial currently
28 unavoidable use proposals, the requester shall submit the information identified in this section of the rule no later
29 than 12 months prior to the applicable sales prohibition. The department will not consider any proposals for an
30 initial currently unavoidable use determination prior to 60 months in advance of the applicable sales prohibition; any
31 proposals received prior to this date will need to be updated and resubmitted between 60 and 12 months before the
32 effective date of the applicable sales prohibition (with the exception of CUU proposals for sales prohibitions taking
33 effect January 1, 2027, which must be submitted no later than October 31, 2026. Complete CUU proposals for sales
34 prohibitions effective January 1, 2027, received by October 31, 2026, will be considered approved pending review
35 and a final determination of whether to approve or deny the proposals will be issued by the department by March 1,
36 2027). A proposal must, at a minimum, contain:

37 **(1)** Identification of the specific per- or poly-fluoroalkyl substance(s) intentionally added to
38 the product or its components as identified by:

- 39 **i.** The chemical name, and
40 **ii.** The Chemical Abstracts Service Registry number (CASRN), or if no CASRN
41 exists, another chemical identifying number.

42 **(2)** A brief description of the type of product to which a per- or poly-fluoroalkyl substance is
43 intentionally added including:

- 44 **i.** A brief narrative of the product; its physical structure and appearance; how it
45 functions; and if applicable its place in larger items, systems, or processes;
46 **ii.** If applicable, the universal product code, stock keeping unit or other numeric
47 code assigned to the product; and
48 **iii.** NAICS code for the sector or sectors in which the products containing
49 intentionally added per- and poly-fluoroalkyl substances will be used.

50 **(3)** An explanation of why the inclusion of per- or poly-fluoroalkyl substances in the specific
51 product is essential for health, safety or the functioning of society. This explanation may include or take the form of
52 a description of the negative impact that would be caused by the removal of per- or poly-fluoroalkyl substances for
53 use in the product and the subsequent unavailability or unsatisfactory performance of the product;

54 **(4)** A description of how the specific use of per- or poly-fluoroalkyl substances in the product
55 is essential to the function of the product. Including:

1 i. If the use of per- or poly-fluoroalkyl substances in the product is required by
2 federal or state law or regulation, provide citations to that requirement. For the purposes of this section, “required”
3 means the applicable statute or regulation specifically states that per- or poly-fluoroalkyl substances or a specific
4 per- or poly-fluoroalkyl substance is required to be present in the product, not that the proposer’s understanding or
5 experience of per- or poly-fluoroalkyl substances is necessary to meet a performance standard; such performance
6 standards may be addressed below; and

7 ii. The required specific characteristic or combination of characteristics that
8 necessitate the use of per- and poly-fluoroalkyl substances.

9 (5) A description of whether there are alternatives for this specific use of per- or poly-
10 fluoroalkyl substances that are reasonably available including:

11 i. Identification of specific compounds, classes of materials, or combinations of
12 materials identified as potential alternatives including the removal of per- and poly-fluoroalkyl substances without
13 substitution;

14 ii. An assessment of how the materials above meet or fail to meet the criteria
15 identified in Section 20.13.2.11.A.4.ii of this rule;

16 iii. An assessment if materials identified in Section 20.13.2.11.A.5.i of this rule are
17 anticipated to be available in sufficient quantities to meet production needs without regard to cost;

18 iv. An assessment of the anticipated cost difference between obtaining per- or poly-
19 fluoroalkyl substances for use in a product and obtaining the material identified for the same purpose;

20 v. A comparison of the known risks to human health and the environment between
21 per- or poly-fluoroalkyl substances and the materials identified; and

22 vi. An assessment of whether there are feasible changes to the manufacturing
23 process of the product that would eliminate the need for per- and poly-fluoroalkyl substances.

24 (6) A list of federal regulations, other State of New Mexico rules, and regulations of other
25 states to which the product described in Section 20.13.2.11.A of this rule is subject by reason of containing
26 intentionally added per- or poly-fluoroalkyl substances, including details of any sales prohibition the product is
27 subject to because of containing intentionally added per- or poly-fluoroalkyl substances including;

28 i. Whether that sales prohibition is absolute or if there is a process similar to the
29 State of New Mexico’s currently unavoidable use determination.

30 ii. If there is a similar process available, whether the requester has filed a proposal
31 under the relevant state or federal program, and its status.

32 (7) If, in another jurisdiction the product is subject to an absolute prohibition or no currently
33 unavoidable use determination or similar has been made, a list of comparable products that the proposer is aware of
34 remaining available for sale, offered for sale, distributed or distributed for sale within that jurisdiction;

35 (8) If a similar program’s sales prohibition is identified as applicable in Section
36 20.13.2.11.A.6 of this rule and similar products are available for sale, offered for sale, distributed or distributed for
37 sale;

38 i. A justification explaining how products available in compliance with other
39 similar sales prohibitions are not reasonably available alternatives for the product subject to the proposed CUU in
40 the State of New Mexico. This justification may include demonstrating that additional sales in the State of New
41 Mexico would result in such an increased demand for the per- or poly-fluoroalkyl substance alternative that it would
42 no longer be available in sufficient quantities. Such a demonstration must include an assessment that an increase in
43 production of the per- or poly-fluoroalkyl substance alternative is not possible; or

44 ii. Documentation demonstrating that products containing per- or poly-fluoroalkyl
45 substance alternatives in other jurisdictions would not perform as intended in the State of New Mexico due to
46 differing physical or climate conditions in the State of New Mexico;

47 (9) Contact information for the submitter of the proposal. The contact person or persons
48 should be familiar with the contents of the proposal and, if necessary, be able to answer department questions or
49 provide additional requested information; and

50 (10) Any information known or reasonably ascertainable by the manufacturer regarding the
51 impacts on human health or the environment of per- or poly-fluoroalkyl substances in the product. At a minimum
52 this information should include the following items, if available;

53 i. Any information documenting impacts on human health as a result of the
54 specific use of per- or poly- fluoroalkyl substance in the product;

55 ii. A description of the likely pathways of human exposure for the specific use of
56 per- or poly-fluoroalkyl substances in the product;

1 iii. Any information documenting environmental impacts as a result of the specific
2 use of per- or poly-fluoroalkyl substances in the product;
3 iv. A description of any likely pathways for environmental release of per- or poly-
4 fluoroalkyl substances as a result of the specific use of per- or poly-fluoroalkyl substances in the product; and
5 v. A description of the product's fate at the end of its lifecycle including;
6 a. Documentation of any product stewardship programs or other
7 government-imposed processes at the end of a product's lifecycle,
8 b. How the product is intended to be disposed of, such as landfilling or via
9 a sewage or septage system, and
10 c. The recycling rate of the product. Information submitted to the
11 department must contain sufficient detail or supporting documentation to satisfy the requirements of the currently
12 unavoidable use as essential for health, safety or the functioning of society for which alternatives are not reasonably
13 available.

14 If any of the information above is omitted from the proposal, the requestor must explain why this information is
15 omitted.

16 **B.** The department will consider CUU determinations made by other states for products subject to
17 this rule. For consideration to be given, the manufacturer must provide the department with documents evidencing
18 the CUU determination from the other state in the same timeframe as stipulated in 20.13.2.11.A.

19 **C.** Should a proposal for a currently unavoidable use determination contain claims of confidentiality,
20 the department may determine that there is insufficient publicly available information to evaluate the proposal. The
21 department strongly recommends that all proposals for currently unavoidable use determinations do not contain
22 claims of confidentiality.

23 **D.** CUU designations will expire three years after approval. Upon expiration, a currently unavoidable
24 use determination is no longer applicable, and all sales, offers for sale, distributions or distributions for sale are
25 immediately prohibited. If a person believes the currently unavoidable use remains, they may submit a proposal to
26 the department for a new currently unavoidable use determination. That proposal, in addition to the information
27 required in Sections 20.13.2.11.A.1 through 20.13.2.11.A.10 of this rule, must include a description of any changes
28 since the time of the first currently unavoidable use determination and a summary of efforts made during that time to
29 develop or discover alternatives or to make existing alternatives reasonably available. The department will consider
30 all subsequent proposals no sooner than 24 months prior to and no later than 12 months prior to the expiration date
31 of the determination in effect.

32 **E.** A list of approved CUUs will be made available to the public and posted on the NMED website.
33 [20.13.2.11 NMAC – N, 07/01/2026]

34
35 **20.13.2.12 REPORTING REQUIREMENT:** A manufacturer of a product sold, offered for sale, distributed
36 or distributed for sale in the state must submit a report for each product or component that contains intentionally
37 added per- or poly-fluoroalkyl substances.

38 **A.** In the case of official reporting, "manufacturers" refer to individual manufacturers, as well as
39 groups reporting on behalf of other manufacturers. All manufacturers must assume responsibility to report unless
40 manufacturers in the same supply chain enter into an agreement to establish their respective reporting
41 responsibilities. A manufacturer may submit the information required for reporting on behalf of another
42 manufacturer. A trade organization representing the manufacturer or group of manufacturers may also submit the
43 information required for reporting if the following requirements are met:

44 (1) the reporting manufacturer or trade organization must notify any other manufacturer that
45 is a party to the agreement that the reporting manufacturer has fulfilled the reporting requirements;
46 (2) all manufacturers must maintain documentation of a reporting responsibility;
47 (3) all manufacturers must execute the agreement and must provide the documentation to the
48 department upon request;
49 (4) all manufacturers must verify, in a format specified by the department, that the data
50 submitted on their behalf is accurate and complete; and
51 (5) for the verification required under Section 20.13.2.12.A.4 of this rule to be considered
52 complete, all manufacturers subject to the agreement must submit the fee required under Section 20.13.2.16.A of this
53 rule.

54 **B.** On or before January 1, 2027, a manufacturer of a product sold, offered for sale, distributed or
55 distributed for sale in the state, directly or indirectly or through intermediaries, that contains an intentionally added
56 per- or poly-fluoroalkyl substances must submit to the department the following information:

(1) a brief description of the product, including a universal product code, stock keeping unit or other numeric code assigned to the product;
 (2) the purpose for which a per- or poly-fluoroalkyl substances is used in the product;
 (3) the amount, expressed as a percentage concentration in the product, of each per- or polyfluoroalkyl substance in the product, identified by its chemical abstracts service registry number and reported as an exact quantity determined using commercially available analytical methods or as falling within the following reporting ranges. The manufacturer shall provide documentation verifying analytical method results to the department.

- i. Less than 100 ppm (0.01 percent);
- ii. Equal to or more than 100 ppm (0.01 percent), but less than 500 ppm (0.05 percent);
- iii. Equal to or more than 500 ppm (0.05 percent), but less than 1,000 ppm (0.1 percent);
- iv. Equal to or more than 1,000 ppm (0.1 percent), but less than 5,000 ppm (0.5 percent);
- v. Equal to or more than 5,000 ppm (0.5 percent), but less than 10,000 ppm (1.0 percent); or
- vi. Equal to or more than 10,000 ppm (1.0 percent).

(4) the name and address of the manufacturer and the name, address and phone number of a contact person for the manufacturer; and
 (5) any additional information requested by the department as necessary; provided that the department shall not require disclosure of records, reports or information or particular parts of records, reports or information that would divulge confidential business records or methods or processes entitled to protection as trade secret, and provided further that the manufacturer shall, by a preponderance of evidence, demonstrate that the information requested would divulge confidential business records or methods or processes entitled to protection as trade secrets.

C. A manufacturer shall submit a revision of the information provided on a product within thirty days of a significant change to the information the manufacturer previously submitted or upon the request of the department.

D. The department may waive the obligation of a manufacturer to submit all or part of the information required by this section if the department determines that substantially equivalent information is publicly available. The manufacturer must notify the department that the information is publicly available via methods deemed acceptable by the department. The department may grant a waiver to a manufacturer or a group of manufacturers for multiple products or a product category.

(1) The waiver request must contain the following information:

- i. Information contained in Section 20.13.2.12.B.4 of this rule;
- ii. A description of the products or components for which a waiver is requested;
- iii. A list of requirements under Section 20.13.2.12.B of this rule for which the manufacturer seeks a waiver;
- iv. A description of the publicly available records that contain substantially equivalent information to the information required under Section 20.13.2.12.B of this rule.
- v. A manufacturer or group of manufacturers must still submit a report for any requirements under Section 20.13.2.12.B of this rule that are not waived.
- vi. A manufacturer or group of manufacturers must submit the waiver request to the department at least thirty days before the applicable reporting due date.

(2) If the department denies a waiver request, the manufacturer or group of manufacturers must submit their report within thirty days of the notice of denial or by the established reporting due date, whichever is later.

E. The department may enter into, modify, or dissolve an agreement with one or more states or political subdivisions of a state to collect information and may accept information to a shared system as meeting the information requirements of this section.

F. The department may extend the deadline for a manufacturer to submit the information required by this section upon a determination by the department that the circumstances merit an extension of time.

(1) A manufacturer or group of manufacturers requesting an extension must submit the request in a format specified by the department. The request must contain:

- i. information contained in Section 20.13.2.12.B.4 of this rule;

1 ii. the reason for the extension request, including a detailed explanation of the
2 circumstances that prevent timely submission;
3 iii. supporting documentation, including any relevant documents that substantiate
4 the need for an extension, such as communication records with other manufacturers, evidence of technical
5 challenges, or third-party testing delays; and
6 iv. a plan for completion, including an outline of how the manufacturer will submit
7 the remaining work by the new deadline.
8 (2) A manufacturer or group of manufacturers must submit the request for an extension to the
9 department at least thirty days before the reporting due date established in Section 20.13.2.12.B of this rule. The
10 request must include documentation demonstrating that the extension is justified, based on the materials submitted
11 under Section 20.13.2.12.B of this rule, to allow the manufacturer or group of manufacturers to comply with the
12 reporting requirements.
13 (3) If the department determines that the requestor has demonstrated that an extension is
14 justified, based on the materials submitted under Section 20.13.2.12.F.1 of this rule, the department will grant a
15 ninety-day extension of the established reporting due date.
16 (4) If an extension request is denied by the department, the manufacturer or group of
17 manufacturers must submit a report according to Section 20.13.2.12.B of this rule within thirty days after the notice
18 of denial or by the established reporting due date, whichever is later.
19 G. Within sixty days of receiving information from a manufacturer, the department shall notify the
20 manufacturer that adequate information has been received or that additional information is required. A manufacturer
21 shall submit to the department any additional information requested by the department within thirty days of the
22 request.
23 H. The requirements of this section do not apply to products that are exempt as specified in Section
24 20.13.2.10 of this rule or that have been designated as a currently unavoidable use pursuant to Section 20.13.2.11 of
25 this rule.
26 [20.13.2.12 NMAC – N, 07/01/2026]

27
28 **20.13.2.13 LABELING:**

29 A. Labeling required. Unless exempted under Section 20.13.2.13.B of this rule, after January 1, 2027,
30 a manufacturer may not manufacture for sale or distribution a product containing intentionally added per- or poly-
31 fluoroalkyl substances unless the manufacturer does one of the following:

32 (1) Labels the product in accordance with the standards set forth in Sections 20.13.2.13.C
33 and 20.13.2.13.D of this rule, as applicable;

34 (2) Documents in accordance with Section 20.13.2.13.E of this rule that the product is
35 labeled in a manner consistent with corresponding labeling requirements enacted by another state.

36 B. Labeling exemptions. The labeling requirements of this rule do not apply to:

37 (1) used products offered for sale or resale;
38 (2) products for which labeling requirements are preempted pursuant to the Federal
39 Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. Section 136v, or for which labeling requirements currently
40 exist at 40 C.F.R. 156.10;

41 (3) veterinary products, including veterinary parasiticides and veterinary biologics, and the
42 packaging of veterinary products regulated by the United States food and drug administration, the United States
43 department of agriculture, or the United States environmental protection agency; and

44 (4) medical devices, drugs, and the packaging of medical devices and drugs regulated by the
45 United States food and drug administration.

46 C. Labeling standards. Prior to sale of a product that contains intentionally added per- or poly-
47 fluoroalkyl substances, the manufacturer of the product shall affix or cause to be affixed, a label that conforms to the
48 requirements of this section. Complex durable goods and components of complex durable goods are exempt from
49 the requirements of this section and are addressed in Section 20.13.2.13.D of this rule.

50 (1) The label must clearly inform the consumer that the product contains intentionally added
51 per- and poly-fluoroalkyl substances in both English and Spanish. The label shall include a symbol. The symbol
52 shall be an outline of an Erlenmeyer flask with the word “PFAS” inside the flask. The label may also include the
53 following words directly adjacent to the flask: “This product is made with PFAS,” “Made with PFAS” or “Contains
54 PFAS.” The label must be affixed to the product such that the label is clearly visible and legible prior to sale. The
55 label must be displayed with such conspicuousness as compared with other words, statements, design or devices on
56 the product as to render the label likely to be seen, read, and understood by an ordinary individual under customary

conditions of purchase or use. Text shall be no smaller than the largest font used for other consumer information on the product.

(2) Labels affixed to products must be printed, mounted, molded, engraved, embossed, or otherwise affixed using materials and methods that are sufficiently durable to remain legible for the useful life of the product.

(3) If the product is sold in consumer packaging that obscures the label on the product, then the consumer packaging must also be labeled in a manner compliant with Section 20.13.2.13.C.1 of this rule. If, prior to sale, a retailer re-packages the labeled product, then the retailer shall label the new consumer packaging in accordance with this section.

(4) Where the consumer is unable to view the labels on the product or consumer packaging at the time of purchase or receipt, such as in catalog or online sales transactions that occur over the internet or telephone, the manufacturer or retailer shall, prior to sale or distribution, clearly include information to the prospective consumer prior to purchase that the product contains intentionally added per- and poly-fluoroalkyl substances by providing a label or disclosure as described in Section 20.13.2.13.C.1 of this rule.

(5) The manufacturer shall apply any product and package labels required under this section unless the wholesaler or retailer agrees with the manufacturer to accept responsibility for such application.

(6) Nothing in this section shall be construed to require or replace such disclosure, notice or labeling that is otherwise prohibited or prescribed by federal law.

D. Labeling of complex durable goods with intentionally added per- or poly-fluoroalkyl substances. Prior to sale of a complex durable good that contains intentionally added per- or poly-fluoroalkyl substances or components that contain intentionally added per- or poly-fluoroalkyl substances, the manufacturer shall conform to the information requirements of this section.

(1) A statement indicating the presence of intentionally added per- or poly-fluoroalkyl substances and/or component parts with intentionally added per- or poly-fluoroalkyl substances shall be included in the specification sheet and other product labeling information available to potential consumers prior to purchase. The specification sheet and other product labeling information shall include a symbol. The symbol shall be an outline of an Erlenmeyer flask with the word "PFAS" inside the flask. The label may also include the following words directly adjacent to the flask: "This product is made with PFAS," "Made with PFAS" or "Contains PFAS." The specification sheet and other product labeling information shall contain the following statement: "For more information on the location of components made with PFAS, review the product's operation and maintenance manual."

(2) The statement shall also be included in Spanish.

(3) The statement must be easily identified and legible on the specification sheet and other information available to potential consumers prior to purchase. A 10-point font or larger is presumed to be legible.

(4) The operation and maintenance manual associated with the complex durable good shall include a symbol as described in 20.13.2.13.D.1 of this rule indicating the presence of intentionally added per- or poly-fluoroalkyl substances and/or component parts with intentionally added per- or poly-fluoroalkyl substances, followed by a complete list of components with intentionally added per- and poly-fluoroalkyl substances, including sufficient detail about the components' locations within the complex durable good such that they can be readily located.

(5) Where product information and labeling include consumer information about a product in a language other than English or Spanish, the requirements of Section 20.13.2.13.D.1 through 20.13.2.13.D.4 of this rule shall also be provided in that language in addition to English and Spanish.

(6) Nothing in this section shall be construed to require or replace such disclosure, notice or labeling that is otherwise prohibited or prescribed by federal law.

E. Consistency with other states. The manufacturer of a product with intentionally added per- or poly-fluoroalkyl substances may comply with the labeling requirements of this rule by labeling all units of the product sold in New Mexico in compliance with corresponding requirements adopted by another state. A manufacturer may comply in this manner by providing the department with the following:

(1) A copy of the label as it will appear on products and consumer packaging sold in New Mexico and a narrative explaining how it fulfills the intent of the requirements established in this rule; and

(2) If the approved labeling plan includes state-specific elements such as telephone numbers, statutory references, websites or public outreach measures, a description of the adjustments that will be made to implement the plan in New Mexico.

1 Submittal of these documents to the department constitutes compliance with this rule unless, within ninety days of
2 receipt, the department notifies the manufacturer that the label or labeling alternative violates New Mexico law and
3 explains in writing the nature of the violation.

4 **F.** The department may waive the obligation of a manufacturer to label a product or product class as
5 required by this section if the product is exempt pursuant to Section 20.13.2.10 of this part, and none of the
6 product's material containing intentionally added per- or poly-fluoroalkyl substances will ever come into direct
7 contact with a consumer while the product is being used as intended during the useful life of the product. The
8 waiver request must contain the following information:

9 (1) Information contained in paragraphs (1), (3), and (4), of Subsection B of Section
10 20.13.2.12 of this Part;

11 (2) Identification of the specific per- or poly-fluoroalkyl substance(s) intentionally added to
12 the product or its components by the chemical name and the Chemical Abstracts Service Registry number (CASRN),
13 or if no CASRN exists, another chemical identifying number;

14 (3) An explanation of why the product should not require a label pursuant to this section; and
15 (4) Any other information the department deems necessary for the evaluation of the waiver
16 request.

17 If seeking a label waiver for a product class, in addition to the information in paragraphs (1) to (5) of Subsection F
18 of Section 20.13.2.13, the waiver request must provide sufficient evidence to demonstrate that the products share
19 similar essential physical characteristics, function, and may be substitutable. Complete label waiver requests for an
20 individual product or product class received by October 31, 2026, will be considered approved pending review and a
21 final determination of whether to approve or deny the request will be issued by the department by June 1, 2027) If a
22 label request is denied, a manufacturer must label a product for sale or distribution pursuant to Section 20.13.2.13
23 within 90 days of the label waiver denial; products which have already been manufactured up to the date of denial,
24 may be sold without a label. Approved label waiver requests will expire three years after approval.

25 [20.13.2.13 NMAC – N, 07/01/2026]
26

27 **20.13.2.14 TESTING:** If there is reasonable suspicion that a product contains intentionally added per- or
28 poly-fluoroalkyl substances but either has not fulfilled the reporting requirements specified in Section 20.13.2.12 of
29 this rule or has not labeled the product in accordance with Section 20.13.2.13 of this rule, the department may test or
30 may require a manufacturer to test their product to determine the presence and concentration of per- and poly-
31 fluoroalkyl substances in the product. For the purposes of this section, the presence of fluorine in a product or
32 product component above 100 ppm, as measured by a commercially available analytical method, creates a rebuttable
33 presumption that per- or poly-fluoroalkyl substances were intentionally added to the product. A manufacturer must
34 rebut the presumption by demonstrating that the per- or poly-fluoroalkyl substances were not intentionally added.

35 **A.** The provisions of this section do not apply to a medical device or drug or the packaging of a
36 medical device or drug that is regulated by the United States food and drug administration.

37 **B.** If directed to test for per- and poly-fluoroalkyl substances, manufacturers must use a commercially
38 available analytical method to report the amount of intentionally added per- and poly-fluoroalkyl substances within
39 thirty days of the testing notification. The report shall contain:

40 (1) Each per- or poly-fluoroalkyl substance's name, chemical abstracts services (CAS)
41 number, and chemical formula, if known or the amount, expressed as a percentage concentration in the product, of
42 each per- or poly-fluoroalkyl substance or the range of each per- and poly-fluoroalkyl substance, as falling within
43 the following reporting ranges:

- 44 i. Less than 100 ppm (0.01 percent);
45 ii. Equal to or more than 100 ppm (0.01 percent), but less than 500 ppm (0.05
46 percent);
47 iii. Equal to or more than 500 ppm (0.05 percent), but less than 1,000 ppm (0.1
48 percent);
49 iv. Equal to or more than 1,000 ppm (0.1 percent), but less than 5,000 ppm (0.5
50 percent);
51 v. Equal to or more than 5,000 ppm (0.5 percent), but less than 10,000 ppm (1.0
52 percent); or

53 vi. Equal to or more than 10,000 ppm (1.0 percent); and

54 (2) Documentation verifying analytical method results to the department.

55 **C.** If the product is not found to contain any intentionally added per- and poly-fluoroalkyl substances,
56 and any fluorine from impurities or contaminants is present below 100 ppm, the manufacturer will provide a

1 certificate of compliance to the department. This certificate must contain the testing results, analytical method, and
2 any other relevant information. A senior management official must certify the accuracy and completeness of the
3 information reported on the form by signing and dating the form.

4 **D.** If the product is found to contain any intentionally added per- or poly-fluoroalkyl substances
5 above 100 ppm, within thirty days the manufacturer must:

6 (1) Submit a report as required in Section 20.13.2.12 of this rule;

7 (2) If the product is prohibited for sale, notify distributors and retailers that the product is
8 prohibited for sale or distribution in the state of New Mexico; and

9 (3) If the product is prohibited for sale, provide the department with a list of the distributors
10 and retailers notified.

11 [20.13.2.14 NMAC – N, 07/01/2026]
12

13 **20.13.2.15 REPORTING FEES:** Every manufacturer of a product containing an intentionally added per- or
14 poly-fluoroalkyl substance that is sold, offered for sale, distributed or distributed for sale in the state, directly or
15 indirectly or through intermediaries and is not exempt pursuant to Section 20.13.2.10 shall pay reporting fees in
16 accordance with the provisions of this section.

17 [20.13.2.15 NMAC – N, 07/01/2026]
18

19 **20.13.2.16 REPORTING FEE SCHEDULE:** Initial and subsequent reporting fees are non-refundable and
20 are set forth below:

21 **A.** A manufacturer must pay a \$2,500 fee to submit the initial report pursuant to Section 20.13.2.12 of
22 this part.

23 **B.** The fee for each instance of subsequent reporting following a significant change pursuant to
24 Section 20.13.2.12.C of this part is \$1,000.

25 **C.** Every year, beginning in 2028, the fees specified in this section shall be adjusted on January 1 to
26 reflect changes in the consumer-price index for all urban consumers (“CPI-U”), which is published monthly by the
27 United States Department of Labor. The change will be calculated by averaging the CPI-U for the last 12-month
28 period ending on August 31 of the previous year, then multiplying the fees by the percentage of increase (or
29 decrease) between that figure and the figure from the prior adjustment. If the United States Department of Labor
30 fails to update the CPI-U, the Secretary may propose an alternative inflation adjustments for approval by the
31 Environmental Improvement Board. The department shall make a fee schedule of the fees in this section available
32 on the department’s website.

33 [20.13.2.16 NMAC – N, 07/01/2026]
34

35 **20.13.2.17 CURRENTLY UNAVOIDABLE USE DESIGNATION APPLICATION FEES:**

36 Manufacturers that apply to designate the use of a per- or poly-fluoroalkyl substance in a product as a currently
37 unavoidable use, shall pay a fee to the department in accordance with the provisions of this part. Manufacturers that
38 apply for a renewal of a previously approved designation of a per- or poly-fluoroalkyl substance in a product as a
39 currently unavoidable use, shall pay a fee to the department in accordance with the provisions of this part.

40 [20.13.2.17 NMAC – N, 07/01/2026]
41

42 **20.13.2.18 CURRENTLY UNAVOIDABLE USE DESIGNATION APPLICATION FEE SCHEDULE:**
43 Initial and renewal application fees for currently unavoidable use designations are non-refundable and are set forth
44 below:

45 **A.** The initial fee for a manufacturer applying to designate the use of a per- or poly-fluoroalkyl
46 substance in a product as a currently unavoidable use in a consumer product is \$5,000; and

47 **B.** The fee for the new CUU determination to designate a per- or poly-fluoroalkyl substance in a
48 product as a currently unavoidable use in a product is \$2,500.

49 **C.** Every year, beginning in 2028, the fees specified in this section shall be adjusted on January 1 to
50 reflect changes in the consumer-price index for all urban consumers (“CPI-U”), which is published monthly by the
51 United States Department of Labor. The change will be calculated by averaging the CPI-U for the last 12-month
52 period ending on August 31 of the previous year, then multiplying the fees by the percentage of increase (or
53 decrease) between that figure and the figure from the prior adjustment. If the United States Department of Labor
54 fails to update the CPI-U, the Secretary shall propose an alternative inflation adjustments for approval by the
55 Environmental Improvement Board. The department shall make a fee schedule of the fees in this section available
56 on the department’s website.

1 [20.13.2.18 NMAC – N, 07/01/2026]

2
3 **20.13.2.19 LABEL WAIVER APPLICATION FEE:** Manufacturers that apply for a waiver for the
4 requirement to label a product containing intentionally added per- or poly-fluoroalkyl substances shall pay a fee to
5 the department in accordance with the provisions of this part.

6 [20.13.2.19 NMAC – N, 07/01/2026]

7
8 **20.13.2.20 LABEL WAIVER APPLICATION FEE SCHEDULE:** Application fees for label waiver
9 applications are non-refundable and are set forth below:

10 **A.** The fee for a manufacturer applying for a waiver to label a product containing intentionally added
11 per- or poly-fluoroalkyl substances is \$2,000 and the fee for a manufacturer applying for a waiver to label a product
12 class containing intentionally added per- or poly-fluoroalkyl substances is \$5,000; and

13 **B.** Every year, beginning in 2028, the fees specified in this section shall be adjusted on January 1 to
14 reflect changes in the consumer-price index for all urban consumers (“CPI-U”), which is published monthly by the
15 United States Department of Labor. The change will be calculated by averaging the CPI-U for the last 12-month
16 period ending on August 31 of the previous year, then multiplying the fees by the percentage of increase (or
17 decrease) between that figure and the figure from the prior adjustment. If the United States Department of Labor
18 fails to update the CPI-U, the Secretary shall propose an alternative inflation adjustments for approval by the
19 Environmental Improvement Board. The department shall make a fee schedule of the fees in this section available
20 on the department’s website.

21 [20.13.2.20 NMAC – N, 07/01/2026]

22
23
24 **20.13.2.21 MANNER OF PAYMENT:** All fees shall be paid to the department by online payment only by
25 ACH or credit card. Cash payments are not an acceptable method of payment.

26 [20.13.2.21 NMAC – N, 07/01/2026]

27
28 **20.13.2.22 LATE CHARGES:** If any fee for which this part provides is not paid in full when due, the
29 person owing the fee shall pay a billing charge of one thousand dollars (\$1,000), plus late charges in the amount of
30 an additional one percent of all fees owed for every month or part of a month in which the fees remain unpaid
31 beyond the due date. Billing and late charges shall be deposited in the recycling and illegal dumping fund and are
32 independent of any penalties assessed under the act.

33 [20.13.2.22 NMAC – N, 07/01/2026]

34
35 **20.13.2.23 ENFORCEMENT, COMPLIANCE ORDERS, PENALTIES:**

36 **A.** Whenever on the basis of any credible information the Secretary determines that any person has
37 violated, is violating or threatens to violate any requirement of the Per- and Poly-Fluoroalkyl Substances Act or any
38 rule adopted and promulgated pursuant to the act, the Secretary may:

39 **(1)** issue a compliance order stating with reasonable specificity the nature of the violation or
40 threatened violation and requiring compliance immediately or within a specified time period or assessing a civil
41 penalty for any past or current violation, or both; or

42 **(2)** commence a civil action in district court for appropriate relief, including temporary or
43 permanent injunction.

44 **B.** A manufacturer that violates a provision of the Per- and Poly-Fluoroalkyl Substances Act or a rule
45 adopted pursuant to that act shall be assessed a civil penalty not to exceed fifteen thousand dollars (\$15,000), and for
46 each day during which any portion of a violation occurs, the department may assess the manufacturer administrative
47 costs the department incurs for enforcement of the Per- and Poly-Fluoroalkyl Substances Act or a rule adopted
48 pursuant to that act.

49 **(1)** If a violator fails to take corrective action within the time specified in a compliance order,
50 the Secretary may assess a civil penalty of not more than twenty-five thousand dollars (\$25,000) for each day of
51 continued noncompliance with the order.

52 **(2)** In addition to assessing a civil penalty, the department shall recoup the economic benefit
53 of noncompliance from delayed or avoided compliance.

54 **(3)** Any order issued pursuant to this part shall become final unless, no later than thirty days
55 after the order is served, the person named in the order submits a written request to the Secretary for a public
56 hearing. Upon such request, the Secretary shall promptly conduct a public hearing. The hearing officer shall make

1 and preserve a record of the proceedings and forward their recommendation based on the record to the Secretary,
2 who shall make the final decision.

3 (4) In connection with any proceedings under this part, the Secretary may issue subpoenas
4 for the attendance and testimony of witnesses and the production of relevant papers, books and documents and may
5 promulgate rules for discovery procedures.

6 (5) Penalties collected pursuant to an administrative order shall be deposited in the recycling
7 and illegal dumping fund. Administrative costs collected pursuant to this part shall be deposited in the recycling and
8 illegal dumping fund.

9 [20.13.2.23 NMAC – N, 07/01/2026]
