Air Quality General Permit No. RE01 8925
Agency Interest No. 39654 - PRN20220001
300 TPH HMA GCP3-8925
AIRS No. 357771596
Portable Facility

Dear Joel Perovich:

This letter is in response to your General Construction Permit (GCP) relocation application dated March 18, 2022, to relocate the portable asphalt plant near Arroyo Hondo, New Mexico. The application was received by the Department on March 21, 2022.

The application review has been completed and the **relocation has been approved with conditions**. Construction and operation may commence 4.4 mi W of Arroyo Hondo in Taos County at latitude and longitude decimal degrees: 36.50349, -105.73521, as represented in the application. This facility will be subject to periodic emissions inventory reporting per 20.2.73.300 NMAC.

Operation of this facility must comply with Air Quality General Construction Permit **GCP-3**, Rev. 1, issued September 12, 2006, the Air Quality Control Act, and any applicable regulations and standards pursuant to NMSA 1978, Section 74-2-7-H. Per 20.2.72.202.D.3.d NMAC, the following conditions apply at this approved location and cannot be carried forward to any future sites. These conditions apply in addition to or instead of conditions in the existing permit.

1. **Condition 1:** The earliest date that installation of equipment can begin at the approved location is **April 15, 2022**, which is 15 days after the public notice was reposted.
2. **Condition 2:** Only permitted equipment or approved substitutes may be used.
 - a. **Condition 3:** The following requirements will apply to any subsequent repositioning of emissions activities within the approved location. The facility will continue to comply with all terms and conditions of its existing General Construction Permit.
 - b. The facility will maintain at least a 3-mile setback between the area of operations and the boundary of any federal Class I area.
 - c. Any repositioning will maintain at least a 0.25-mile (1,320 feet, 440 yards, 402 meters) setback between the area of operations and any occupied structures.
3. **Condition 4:** Public access must be restricted within 10 meters (33 feet) of the perimeter of the area of operations.
4. **Condition 5:** This facility is restricted to operate daylight hours only, 7 days per week, 52 weeks per year, for

a maximum of 4380 hours per year.

5. **Condition 6:** Haul roads and truck traffic areas shall be applied with base course and watered to control particulate emissions to the nearest public access.
6. **Condition 7:** Dust controls must be used on all equipment, traffic areas, haul roads, sites of overburden removal, active pit areas and stockpiles.
7. **Condition 8:** The plant shall not be repositioned within the approved restricted area if doing so would violate any of the conditions listed in this approval, 20.2.72.202.A(15), or 20.2.72.202.B(4) NMAC.

If you have any questions, please call me in Santa Fe at 505-629-3593.

Sincerely,
