

Landfill (Municipal) Permit Applications

An application (new, renewal, modification) for a municipal solid waste landfill permit will generally consist of:

1. Summary of applicable portions of the Solid Waste Rules and narrative responses to the Rules (contact Permit Section manager for a site-specific outline)
2. Engineering drawings/plans and calculations
3. Landfill management plans
 - a. Operations Plan (including Alternate Waste Handling/Disposal Plan)
 - b. Transportation Plan
 - c. Contingency Plan
 - d. Closure/Post-Closure Plan
 - e. Disposal Management Plans for each special waste (if applicable)
 - f. Construction Quality Assurance (CQA) Plan
 - g. Leachate Management Plan
 - h. Landfill Gas Monitoring Plan
 - i. Waste Screening/Inspection Plan
4. Landfill environmental plans
 - a. Ground Water Monitoring System Plan
 - b. Ground Water Monitoring Plan
5. Letter from applicant addressing the actions and behaviors cited in 74-9-24.B NMSA 1978
6. Closure cost estimates and financial assurance
7. Disclosure statements

Schedule a meeting with the Solid Waste Bureau prior to preparation of an application to obtain site-specific requirements for permit application content.
