

Transfer Station Permit Applications

An application (new, renewal, modification) for a transfer station permit will generally consist of:

1. Summary of applicable portions of the Solid Waste Rules and narrative responses to the Rules (contact Permit Section manager for a site-specific outline)
2. Engineering drawings/plans
3. Transfer station management plans
 - a. Operations Plan (including Alternate Waste Handling/Disposal Plan)
 - b. Transportation Plan
 - c. Contingency Plan
 - d. Closure/Post-Closure Plan
 - e. Waste Screening/Inspection Plan
4. Letter from applicant addressing the actions and behaviors cited in 74-9-24.B NMSA 1978
5. Closure cost estimates and financial assurance
6. Disclosure statements

Schedule a meeting with the Solid Waste Bureau prior to preparation of an application to obtain site-specific requirements for permit application content.
