

Photo 1: View downstream of berm and spillway

Sampler inlet location may not capture all berm-overtopping events.

Photo 2: View upstream of sampler, berm and spillway

Photo 3: Sampler intake

Note the location of the sampler inlet in relation to the erosion. Flows overtopped this berm that were not sampled.

Photo 4: Sampler intake

The location where Mr. Yurdin is standing is more likely representative to catch all flows from this SMA.
