

Beavers Belong! : Ensuring opportunities for coexistence

Animal Protection of New Mexico

Program development 2006-07

- Coordination with NM Dept of Game & Fish on addressing beaver complaints
- Synthesis of existing information and literature on beaver mitigation
- Public education on value of beavers and options for coexistence
- Formation of Beaver Brigade volunteer network

Living with Beavers

Living with Beavers:

*A Guide for Solving
Beaver-Human Conflicts*

Developed by
Animal Protection of New Mexico &
New Mexico Department of Game and Fish

Basic information on:

- Ecological value of beavers
- Options for resolving conflict with emphasis on nonlethal solutions

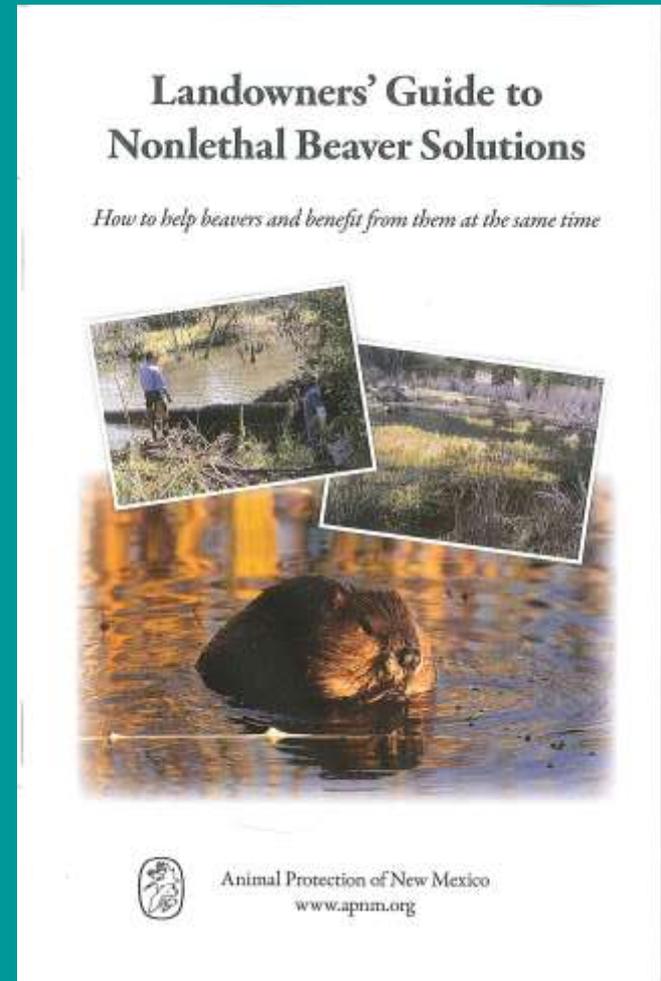

Updated March 2013

Landowners' Guide to Nonlethal Beaver Solutions

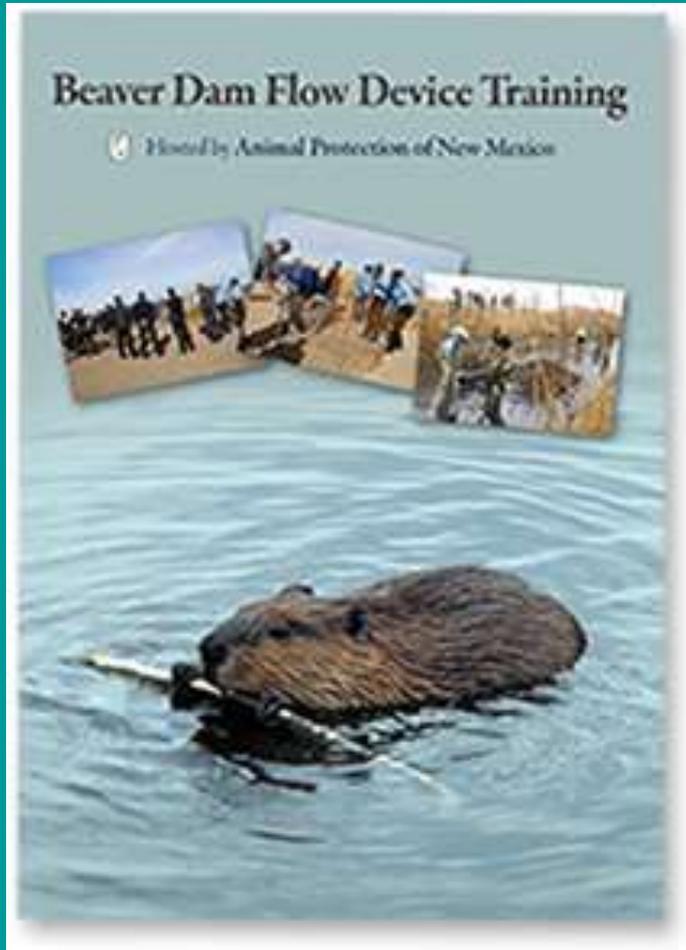

Advanced information on:

- Mitigation strategies for landowners
- Construction of flow devices & tree wrapping
- Contractors and consultants
- Other resources

Updated August 2012

Beaver Dam Flow Device Training

- In-depth information on creation of flow devices
- Documents December 2007 beaver mitigation workshop at Ladd S. Gordon Waterfowl Complex
- Features expert testimony from Skip Lisle, Beaver Deceivers Int'l

apnm.org/campaigns/beavers

“Can you mail me some beavers?”

Includes: General beaver info, state beaver management, mitigation strategies, links, other resources.

Workshops

Coexisting with Beavers by Preventing Damage

Join Animal Protection of New Mexico and New Mexico Environment Department for a free, all-day workshop to learn about the benefits of beavers in riparian habitats. The afternoon includes a field trip to visit a flow device installed on a culvert—installed to keep the beavers from building a dam there.

Speakers include:

- Dave Foreman, Rewilding Institute
- Sheri Tippie, founder of Wildlife 2000; she'll demonstrate how to properly live trap beavers
- Skip Lisle, founder of Beaver Deceivers International
- Bill Zeedyk, riparian and wetland restoration expert
- US Fish & Wildlife Service Partners for Fish & Wildlife Program
- NM Department of Game & Fish Depredation Coordinator

Learn:

- how beavers enhance New Mexico's land and wildlife
- how to coexist with beavers
- how to relocate beavers
- about tree wrapping and other mitigation methods
- how to become part of APNM's volunteer Beaver Brigade

For more info and to RSVP, visit www.apnm.org/beavers or call 505-265-2322 x25. This workshop is free and open to the public.

Free Workshop: Wednesday, May 21st

8:30 AM to 4:00 PM
Santa Fe, New Mexico

NM Environment Dept.
Harold Runnels Building
(Off of St. Francis Drive, west on
Alta Vista Street; Runnels Building
parking lot is the first right)

Casa Colorada December 2007

Partners/attendees:

NMED, NMDGF, State Parks, USFWS, Sandia Pueblo, Zuni Pueblo

Rio Fernando, September 2006

Partners/attendees:

Skip Lisle, Sherri Tippie (Wildlife 2000), Paul Polechla (UNM), Sid Goodloe (S Rockies Ag Land Trust), Bill Zeedyk, NMDGF, Taos Land Grant

Ongoing Efforts

- Media on ecological value of beaver in time of increased awareness of drought
- Promotion and availability of information on beaver mitigation strategies
- Facilitation of beaver coexistence education whenever possible
- Coordination with state, local agencies and experts
- Identification of areas of key concern
