

**STATE OF NEW MEXICO
BEFORE THE WATER QUALITY CONTROL COMMISSION**

IN THE MATTER OF:

Final Withdrawal of Dissolved Aluminum
Total Maximum Daily Load For the Red River

ORDER

THIS MATTER came before the New Mexico Water Quality Control Commission on December 11, 2012 at a regularly scheduled meeting. Having considered the proposed Final Draft Withdrawal of the Dissolved Aluminum Total Maximum Daily Load for the Red River, together with the oral presentations at the meeting,

IT IS HEREBY ORDERED THAT:

The Final Draft Withdrawal of the Dissolved Aluminum Total Maximum Daily Load for the Red River is approved, adopted and incorporated into the New Mexico Water Quality Management Plan.

ISSUED this 18th day of December 2012.

Butch Tongate, Chair
Water Quality Control Commission
