

APPENDIX D-4

Beneficiary Eligible Mitigation Action Certification

Southwest Airlines

NM-VW-19-03

BENEFICIARY ELIGIBLE MITIGATION ACTION CERTIFICATION

Beneficiary State of New Mexico

Lead Agency Authorized to Act on Behalf of the Beneficiary New Mexico Environment Department

(Any authorized person with delegation of such authority to direct the Trustee delivered to the Trustee pursuant to a Delegation of Authority and Certificate of Incumbency)

Action Title:	Southwest Airlines Aircraft Pushback Electrification at Albuquerque International Sunport
Beneficiary's Project ID:	NM-VW-19-03
Funding Request No.	<i>(sequential)002</i>
Request Type: (select one or more)	<input checked="" type="checkbox"/> Reimbursement <input type="checkbox"/> Other (specify):
Payment to be made to: (select one or more)	<input type="checkbox"/> Beneficiary <input checked="" type="checkbox"/> Other (specify): Southwest Airlines
Funding Request & Direction (Attachment A)	<input checked="" type="checkbox"/> Attached to this Certification <input type="checkbox"/> To be Provided Separately

SUMMARY

Eligible Mitigation Action <input checked="" type="checkbox"/> Appendix D-2 item (specify): Eligible Mitigation Action 7. Airport Ground Support Equipment
Action Type <input type="checkbox"/> Item 10 – DERA Option (5.2.12) (specify and attach DERA Proposal)
Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): The Beneficiary Mitigation Plan's overarching goal is to protect New Mexico's environment and the health of our citizens. The Trust allows the State the opportunity to offset (mitigate) the impact of excess nitrogen oxide (NO _x) emissions associated with the affected vehicles registered within New Mexico. The reduction of NO _x from mobile sources achieves the intended use of Trust funds by preventing the deterioration of air quality, ensuring the health and safety of the inhabitants of the state, and promoting visibility improvement within New Mexico. Implementation of diesel NO _x reduction projects using Trust funds will have immediate and long-lasting benefits. The proposed project will reduce emissions of NO _x , focusing on the most cost-effective vehicles that maximize emission reductions.
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): Southwest Airlines (SWA) Aircraft Pushback Electrification at Albuquerque International Sunport Project consists of partnering with The City of Albuquerque (CABQ) Aviation Department, to remove three (3) diesel-fueled aircraft pushback vehicles, owned by Southwest Airlines (SWA) from service, and partially funding three new battery electric pushback vehicles. To support SWA's electrification project, the Sunport will receive funding through this partnership to partially fund the installation of three new charging stations owned and operated by CABQ. CABQ is the responsible party for the infrastructure at the Sunport. SWA Aircraft Pushback Electrification at Albuquerque International Sunport Project supports the State's goal of reducing the adverse impacts associated diesel-fueled emissions within the communities near and adjacent to these sources by transitioning towards the electrification of the ground support equipment. The estimated lifetime reduction of 52.32 tons of NO _x is a proactive step towards electrifying existing diesel-fueled fleets and

<p>improving the quality of life to those communities impacted. This is an essential step towards reducing regional air pollution levels, improving human health and addressing environmental inequality.</p>
<p>Estimate of Anticipated NO_x Reductions (5.2.3): The total lifetime NO_x reduction for this project from the three airport ground support aircraft pushback vehicles, is estimated to be 52.32 tons (104,640 pounds) over a thirty-year period.</p>
<p>Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1): The New Mexico Environment Department Administrative Services Division is the governmental entity responsible for reviewing and auditing expenditures of EMA funds to ensure compliance.</p>
<p>Describe how the Beneficiary will make documentation publicly available (5.2.7.2): The New Mexico Environment Department has created a public website, https://www.env.nm.gov/vw-settlement/ for information relating to the Trust, the VW Partial Consent Trust Decrees, New Mexico’s Beneficiary Mitigation Plan, and project implementation information. To provide transparency and accountability, the NMED will post information on its website.</p>
<p>Describe any cost share requirement to be placed on each NO_x source proposed to be mitigated (5.2.8): The total project cost is Five Hundred Sixty-Four Thousand Two Hundred Sixty-Four dollars (\$564,264.00). Trust funding will provide the requested Four Hundred Twenty-Three Thousand One Hundred Ninety-Eight dollars (\$423,198.00), 75% of the final total project cost, towards the purchase of the new electric pushback vehicles. The remaining One Hundred Forty-One Thousand Sixty-Six dollars (\$141,066), 25% of the total project cost, constitutes Southwest Airline’s cost share.</p>
<p>Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9): On February 27, 2018, NMED sent notice to the U.S. Department of the Interior and the U.S. Department of Agriculture using the contact information provided in subparagraph 4.2.8.</p>
<p>If applicable, describe how the mitigation action will mitigate the impacts of NO_x emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10): The VW Mitigation Trust funds have afforded the State the opportunity to advance environmental justice goals. New Mexico’s Draft Mitigation Plan expresses a commitment to prioritizing projects that benefit those communities most impacted by poor air quality. Minorities and those living below the poverty level historically have borne a disproportionate share of air pollution, including air pollution emissions associated with non-road and on-road heavy-duty diesel-fueled vehicles such as those associated with airport activities. The Southwest Airlines Aircraft Pushback Electrification at Albuquerque International Sunport Project supports the State’s goal of reducing the adverse impacts associated with diesel-fueled emissions on the communities near and adjacent to these sources by transitioning towards the electrification of ground support equipment. The service area for this project is within the City of Albuquerque, Bernalillo County. Bernalillo County is currently within 95% of the National Ambient Air Quality Standard for ozone. Within 1.5 miles of the Sunport the estimated minority population is 68% and 58% of the population are considered low income. This area has two communities, one having a 96% minority population and 66% classified as low income and the other community within the area is 78% minority and 58% low income. There are approximately 27 schools within 3.5 miles of the Sunport, with the closest school approximately 0.8 miles away. Also, within this area are 16 hospitals and medical facilities, 6 community centers and 3 senior centers. The completion of this project is an essential step towards reducing regional air pollution levels, improving human health and addressing environmental inequality.</p>

ATTACHMENTS

(CHECK BOX IF ATTACHED)

- Attachment A Funding Request and Direction.
- Attachment B Eligible Mitigation Action Management Plan Including Detailed Budget and Implementation and Expenditures Timeline (5.2.4).
- Attachment C Detailed Plan for Reporting on Eligible Mitigation Action Implementation
- Attachment D Detailed cost estimates from selected or potential vendors for each proposed expenditure exceeding \$25,000 (5.26).
- Attachment E DERA Option (5.2.12). [Attach only if using DERA option.]
- Attachment F Attachment specifying amount of requested funding to be debited against each beneficiary's allocation (5.2.13).

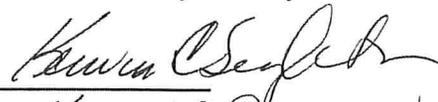

CERTIFICATIONS

By submitting this application, the Lead Agency makes the following certifications:

1. This application is submitted on behalf of Beneficiary the State of New Mexico, and the person executing this certification has authority to make this certification on behalf of the Lead Agency and Beneficiary, pursuant to the Certification for Beneficiary Status filed with the Court.
2. Beneficiary requests and directs that the Trustee make payments described in this application and Attachment A to this Form.
3. This application contains all information and certifications required by Paragraph 5.2 of the Trust Agreement, and the Trustee may rely on this application, Attachment A, and related certifications in making disbursements of trust funds for the aforementioned Project ID.
4. Any vendors were or will be selected in accordance with a jurisdiction's public contracting law as applicable. (5.2.5)
5. Beneficiary will maintain and make publicly available all documentation submitted in support of this funding request and all records supporting all expenditures of eligible mitigation action funds subject to applicable laws governing the publication of confidential business information and personally identifiable information. (5.2.7.2)

ATTACHMENT C
DETAILED PLAN FOR REPORTING ON ELIGIBLE MITIGATION
ACTION IMPLEMENTATION

The New Mexico Environment Department (NMED), as the lead agency for the State of New Mexico for implementing the Volkswagen Environmental Mitigation Settlement Plan, has established a webpage for the Settlement and mitigations actions, www.env.nm.gov/vw-settlement/. NMED will post documents and links as required under Paragraph 7 of Appendix D-3 Certification for Beneficiary Status form. The NMED is subject to the Open Meetings Act, which provides the statutory guidelines for conducting public meetings and the Inspection of Public Records Act, which is a New Mexico state law that provides the public and media access to public information.

For the initial round of funding, NMED solicited, through a competitive process, public and private entities for funding opportunities. Projects were selected through a scored application using an identified scoring criterion. The records of selected projects will be posted and made available on the NMED VW Settlement webpage. The public website was created specifically to provide information related to the Trust, the VW Partial Consent Decrees, and accountability. The NMED will post timely updates on the following:

- General information on the Trust and Consent Decrees
- The State's final Beneficiary Plan
- All public records supporting funding requests the NMED submits to the Trust
- All public records supporting all expenditures of the Trust Fund
- NMED contact information

After the initial round of funding, NMED will periodically evaluate the implementation of the State's Beneficiary Mitigation Plan (BMP) and associated Eligible Mitigation Actions and will determine whether any revisions to the BMP and funding levels need to be reevaluated. If revisions to the BMP are warranted, NMED will seek public input on BMP revisions with a minimum of a 30 – day public comment period.

In addition, the State will also comply with the reporting obligations listed in the Environmental Mitigation Trust Agreement for State Beneficiaries in Subparagraph 5.3.

Re: Reimbursement Request Under Southwest Airlines Aircraft Pushback Electrification At Albuquerque International Sunport # NM-VW-19-03 Project Agreement

Dear Mr. Singleton:

Pursuant to Article 9(A) of the above-referenced Agreement, Southwest Airlines hereby submits its request for reimbursement for its actual allowable costs incurred in completing the work described in the project scope. I have attached invoices as proofs of payment to Lektro, Inc. in the total amount of \$564,264.00. Southwest Airlines requests reimbursement in the amount of \$423,198.00, or, 75% of the total cost for three electric pushbacks. Please let me know if NMED requires any further documentation to support this request.

Sincerely,

A handwritten signature in cursive script that reads "Adam Walters".
