Subject: WIPP Safety

Mr. Bearzi :

I am Against Any Change in the Requirements to examine Each Waste Container, before it goes to WIPP. The proposed change could allow dangerous and prohibited waste, to travel on our roads, and to end up at WIPP. The safety of our land and air and water and people is at stake.

How can an "Environment Department" (??) not see this?? Don't you live here??? Pay Attention to the People !!!

Sincerely,
Beverly Jaeger
