Subject: Hazardous Waste

Dear Mr. James P. Bearzi: Thank you for allowing me to comment on the draft Hazardous Waste Facility Permit for WIPP. I wish to express my disapproval of any lessening of the restriction regarding the storage of all waste at WIPP. Please do not allow this new draft to become a way of eliminating any controls over the storage of nuclear materials.

That would be the wrong way for the Environmental Department to proceed. We need more and stricter regulations not less oversight. Sincerely, Ed Larson.
