

# WHAT'S THE VALUE OF WATER?

Splashing in a pool, tossing a water balloon—water is one of life's great pleasures.

Most of us never think about how water gets to us or where it goes when it swirls down the drain. Luckily, we don't have to. Pumps, treatment plants, and pipes bring us clean water and remove wastewater.

But our water systems are aging. They need investment so they can continue to deliver life's most precious resource. All day, every day.

Water—Essential. Reliable. Invaluable.
